Name of the Scheme	Aditya Birla Sun Life Nifty 50 Index Fund																					
Type of the Scheme	An open ended scheme tracking Nifty 50 TR index																					
Scheme Code	ABSL/O/O/OIN/02/09/0018																					
Scheme Category	Index Fund																					
Investment Objective	<p>The objective of the scheme is to generate returns that are commensurate with the performance of the Nifty, subject to tracking errors.</p> <p>The Scheme does not guarantee/indicate any returns. There is no assurance or guarantee that the investment objective of the Scheme will be achieved.</p>																					
Asset Allocation Pattern of the scheme	<p>Under normal circumstances, the asset allocation of the Scheme will be as follows:</p> <table border="1"> <thead> <tr> <th rowspan="2">Instruments</th> <th colspan="2">Indicative Allocations (% of total Assets)</th> </tr> <tr> <th>Minimum</th> <th>Maximum</th> </tr> </thead> <tbody> <tr> <td>Securities covered by the Nifty including Derivatives (upto 50%)</td> <td>95%</td> <td>100%</td> </tr> <tr> <td>Cash & Money Market Instruments including Mibor linked instruments</td> <td>0%</td> <td>5%</td> </tr> </tbody> </table> <p>Indicative Table (Actual instrument/percentages may vary subject to applicable SEBI circulars)</p> <table border="1"> <thead> <tr> <th>Sr. no</th> <th>Type of Instrument</th> <th>Percentage of exposure</th> <th>Circular references</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>Securities Lending</td> <td> (i) Not more than 20% of the net assets of the Scheme can be deployed in Stock Lending; and (ii) Not more than 5% of the net assets of the Scheme can be deployed in Stock Lending to a single intermediary level. </td> <td>Para 12.11 of SEBI Master Circular dated May 19, 2023.</td> </tr> </tbody> </table> <p>The net assets of the scheme will be invested predominantly in stocks constituting the Nifty 50 and / or in exchange traded derivatives on the Nifty 50. This would be done by investing in almost all the stocks comprising the Nifty 50 in approximately the same weightage that they represent in the Nifty 50 TR Index and / or investing in derivatives including futures contracts and options contracts on the Nifty 50 TR Index. A small portion of the net assets will be invested in money market instruments permitted by SEBI / RBI including call money market or in alternative investment for the call money market as may be provided by the RBI, to meet the liquidity requirements of the scheme. In line with para 12.24 of SEBI Master Circular on Mutual Funds dated May 19, 2023 , the cumulative gross exposure to instruments forming part of the Index, debt, cash and cash equivalents, money market instruments and such other securities/assets as may be permitted by the Board from time to time subject to regulatory approvals, if any should not exceed 100% of the net assets of the Scheme.</p> <p>Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. SEBI vide letter dated November 3, 2021 has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities.</p> <p>Money Market Instruments include commercial papers, commercial bills, treasury bills, Government securities having an unexpired maturity upto one year, call or notice money, certificate of deposit, usance bill and any other like instruments as specified by the Reserve Bank/SEBI of India from time to time subject to regulatory approvals, if any.</p> <p>Portfolio Rebalancing</p> <p>Rebalancing due to short term defensive consideration:</p> <p>Subject to the SEBI (MF) Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, and political and economic factors. 	<p>considerations as per para 1.14.1.2 of SEBI Master Circular on Mutual Funds dated May 19, 2023. However, due to market conditions, the AMC may invest beyond the range set out above. Such deviations shall normally be for a short-term purpose only not exceeding 7 calendar days, for defensive considerations and the intention being at all times to protect the interests of the Unit Holders.</p> <p>Rebalancing due to passive breach</p> <p>Pursuant to provisions of 3.6.7 of SEBI Master Circular on Mutual Funds dated May 19, 2023 rebalancing the portfolio of the Scheme shall be as follows:</p> <ul style="list-style-type: none"> - In case of change in constituents of the index due to periodic review including corporate actions, the portfolio will be rebalanced within 7 calendar days. - Any transactions undertaken in the scheme portfolio in order to meet the redemption and subscription obligations will be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time. <p>Provided further and subject to the above, any change in the asset allocation affecting the investment profile of the Scheme shall be effected only in accordance with the provisions of sub regulation (15A) of Regulation 18 of the SEBI (MF) Regulations.</p>
Investment Strategy	<p>The scheme will be managed passively with investments in stocks in a proportion that is as close as possible to the weightages of these stocks in the NIFTY. The investment strategy would revolve around reducing the tracking error to the least possible through regular rebalancing of the portfolio, taking into account the change in weights of stocks in the index as well as the incremental collections / redemptions in the scheme.</p> <p>Derivatives</p> <p>Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.</p> <p>For detailed derivative strategies, please refer to SAI.</p> <p>Portfolio Turnover</p> <p>As the Scheme will follow a passive investment strategy the endeavor will be to minimize portfolio turnover subject to the exigencies and needs of the scheme. Generally, as the scheme is open-ended, turnover will be confined to rebalancing of portfolio on account of new subscriptions, redemptions and change in the composition of the Nifty 50 TR Index. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio.</p> <p>A higher churning of the portfolio could attract high transactions of the nature of brokerage, custody charges etc.</p>
Risk Profile of the Scheme	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the Scheme Information Memorandum (SIM) carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:</p> <p>Investments in the Scheme are subject to various risk factors including but not limited to risks associated with: investment in Equity and Equity related instruments, investments in Fixed Income Securities such as Price-Risk or Interest-Rate Risk, Credit Risk, Liquidity or Marketability Risk, Reinvestment Risk, Pre-payment Risk, etc., investments in Derivatives (The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments), tracking error risk, investments in Repo Transactions in Corporate Bond, risks associated with Stock lending. The Scheme shall not engage in short selling activities. Different types of securities in which the Scheme would invest as given in the Scheme Information Document/Key Information Memorandum carry different levels and types of risk. Accordingly, the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. The above are some of the common risks associated with investments in various securities. There can be no assurance that the</p>
