Tracking Error and Tracking Difference

While the objective of the Scheme is to closely track the index, the performance may not be commensurate with the performance of the Nifty on any given day or over any given period. Such variations are commonly referred to as the tracking error. Tracking errors may result from a variety of factors including but not limited to:

- Any delay experienced in the purchase or sale of shares due to illiquidity of the market, settlement and realisation of sale proceeds and / or the registration of any securities transferred and / or any delays in receiving cash dividend and resulting delays in reinvesting them.
- The Nifty reflect the prices of securities at close of business hours.
- However, the Scheme may buy or sell the securities at different points of time during the trading session at the then prevailing prices which may not correspond to the closing prices on the NSE.
- NSE Indices Limited undertakes the periodical review of the scrips that comprise the Nifty and may either exclude or include new securities. In such an event, the Scheme will endeavour to reallocate its portfolio but the available investment/ disinvestment opportunities may not permit precise mirroring of the Nifty in a short period of time.
- The charging of expenses to the Scheme including investment management fees and custodian fees.
- The potential for trades to fail, which may result the Schemes not having acquired shares at a price necessary to track the index.
- The holding of a cash position and accrued income prior to distribution and accrued expenses.
- Disinvestments to meet redemptions, recurring expenses, payouts of IDCW etc.

The Scheme will disclose the tracking error based on past one year rolling data, on a daily basis, on the website of AMC and AMFI. In case the Scheme has been in existence for a period of less than one year, the annualized standard deviation will be calculated based on available data.

Tracking Difference: The tracking difference i.e. the annualized difference of daily returns between the index and the NAV of the Scheme will be disclosed on the website of the AMC and AMFI, on a monthly basis, for tenures 1 year, 3 year, 5 year, 10 year and since the date of allotment of units.

Investment Strategy	The Scheme will follow passive investment strategy and will invest not less than 95% of its corpus in stocks comprising the underlying index and endeavour to track the benchmark index while minimizing

	<p>the tracking error. The AMC does not make any judgments about the investment merit of Nifty Smallcap 50 Index nor will it attempt to apply any economic, financial or market analysis. The scheme would also aim to maintain least amount of cash & equivalents in order to manage its liquidity requirements</p> <p>ABSLAMC may, from time to time, review and modify the Scheme's investment strategy if such changes are considered to be in the best interests of the unit holders and if market conditions warrant it.</p>
<p>Risk Profile of the Scheme</p>	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the Scheme Information Memorandum (SID) carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:</p> <p>Investments in the Scheme are subject to various risk factors including but not limited to risks associated with: investment in Equity and Equity related instruments, investments in Fixed Income Securities such as Price-Risk or Interest-Rate Risk, Credit Risk, Liquidity or Marketability Risk, Reinvestment Risk, Prepayment Risk, etc., investments in Derivatives (The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments), tracking error risk, investments in Repo Transactions in Corporate Bond, risks associated with Stock lending. The Scheme shall not engage in short selling activities. Different types of securities in which the Scheme would invest as given in the Scheme Information Document/Key Information Memorandum carry different levels and types of risk. Accordingly, the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. The above are some of the common risks associated with investments in various securities. There can be no assurance that the Scheme's investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis. Further, the Fund/AMC is not guaranteeing or assuring any returns. Further, it should be noted that the actual distribution of IDCW and the frequency thereof are indicative and will depend, inter-alia, on availability of distributable surplus. Payouts of IDCW will be entirely at the discretion of the Trustee.</p> <p>Investors may, if they wish, consult their legal, tax, investment and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, i.e. before making a decision to invest/redeem Units.</p> <p>Investors in the Scheme are not being offered any guaranteed returns. Please refer to SID for detailed scheme specific risk factors.</p>
<p>Risk Control</p>	<p>It is proposed to manage the risks by placing limit orders for basket trades and other trades, proactive follow-up with the service providers for daily change in weights in the respective indices as well as closely monitor daily inflows and outflows to and from the Scheme.</p> <p>While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.</p>
<p>Plans/Options</p>	<p>The Scheme will have Regular Plan and Direct Plan** with a common portfolio and separate NAVs. Investors should indicate the Plan for which the subscription is made by indicating the choice in the application form.</p> <p>Each of the above (Regular and Direct) Plan under the scheme will have the following Options:</p> <ol style="list-style-type: none"> (1) Income Distribution cum Capital Withdrawal Option ("IDCW") (Payout of IDCW & Reinvestment of IDCW[^]) (2) Growth Options <p><i>[^]the amounts can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains</i></p> <p>**DIRECT PLAN:</p> <ol style="list-style-type: none"> i. Direct Plan is only for investors who purchase /subscribe Units in a Scheme directly with the Mutual Fund and is not available for investors who route their investments through a Distributor. ii. Eligible investors: All categories of investors (whether existing or new Unitholders) as permitted under the Scheme Information Document of the Scheme are eligible to subscribe under Direct Plan. iii. How to apply:

- a. Investors desirous of subscribing under Direct Plan of a Scheme will have to ensure to indicate "Direct Plan" against the Scheme name in the application form.
- b. Investors should also indicate "Direct" in the ARN column of the application form.

Payout of IDCW

Under this option, it is proposed to declare IDCW subject to the availability of distributable surplus as computed in accordance with SEBI Regulations. IDCW, if declared, will be paid (subject to deduction of tax at source, if any) to those Unitholders, whose names appear in the register of Unitholders on the notified record date. AMC reserves the right to change the record date from time to time. However, it must be distinctly understood that actual declaration of IDCW and frequency thereof is at the discretion of trustees. There is no assurance or guarantee to Unitholders as to the rate of IDCW distribution nor that the IDCW will be paid regularly. The IDCW shall be paid in the name of the sole / first holder and, if applicable, will be posted to the Registered Address of the sole / first holder in the original application form. To safeguard the interest of the unit holders from loss/ theft of IDCW cheques, investors should provide the name of their bank, branch, account number and IFSC/ MICR Number in the application form. IDCW cheques will be sent to the unit holder after incorporating such information. However, AMC will endeavor to credit the IDCW payouts directly to the designated Bank A/c of the unitholder through any of the available electronic mode (i.e. RTGS / NEFT / Direct Credit / NECS). AMC reserves the right to use any of the above mode of payment as deemed appropriate for all folios where the required information is available. On payments of IDCW, the NAV will stand reduced by the amount of IDCW paid and the IDCW distribution tax, if applicable. In case the IDCW amount payable is less than or equal to Rs. 250/- (Rupees Two Hundred and Fifty only) the same will be compulsorily reinvested in the corresponding Scheme(s)/Plan(s) on the ex-IDCW date at Applicable NAV. The amount of IDCW reinvested will be net of applicable taxes.

Reinvestment of IDCW

Unitholders opting for IDCW option may choose to reinvest the IDCW to be received by them in additional units of the scheme. Under this facility the IDCW due and payable to the unitholders will be compulsorily and without any further act by the unitholders, reinvested in the IDCW option (on the next business day after the record date) at a price based on the prevailing Ex- IDCW Net Asset Value (NAV derived post declaration of IDCW) per unit on the record date. The amount of IDCW reinvested will be net of tax deducted at source, wherever applicable. Reinvestment of IDCW shall constitute a constructive payment of IDCW to the unitholders and a constructive receipt of the same amount from each unitholder for reinvestment in units. On reinvestment of IDCW, the number of units to the credit of the unitholders will increase to the extent of the IDCW reinvested divided by the applicable NAV as explained above. There shall, however, be no entry/sales load on the IDCW so reinvested.

Growth Option

Under this option, no IDCW will be declared. The income attributable to units under this option will continue to remain invested and will be reflected in the NAV of the units under this option.

Default Plan / Option / Sub-option

(In case the investor fails to specify his preference, the given default plan / option / sub-option would apply)
