Birla Sun Life Equity Fund (An Open ended Growth Scheme)

This product is suitable for investors who are seeking:

- long term capital growth
- investments in equity and equity related securities
- high risk  **(BROWN)**

Investors should consult their financial advisors, if in doubt about whether the product is suitable for them.

Note: Risk is represented as:

-  **(BLUE)** investors understand that their principal will be at low risk
-  **(YELLOW)** investors understand that their principal will be at medium risk
-  **(BROWN)** investors understand that their principal will be at high risk

Mutual Fund investments are subject to market risks, read all scheme related documents carefully.

Highlights

- Scheme invests without any sector or market bias
- Companies with sound management following both top-down and bottom-up approach
- Potential wealth creation with equity

Highlights do not indicate assurance of future scheme performance.

Opportunities can come from companies big and small, from new industries or old ones. It may also keep changing; today one company or sector yields spectacular returns; tomorrow, another might overshadow it.

Presenting, Birla Sun Life Equity Fund (BSL Equity Fund) which looks for opportunities without any sectoral or size bias with the aim of giving you long term capital growth.

Invest without any sector or market bias

Opportunities can come in all sizes. The fund has a multi cap investment style with no sector or market cap bias which gives the fund manager the flexibility to invest in companies with different market cap. The scheme intends to maintain equity allocation of >90% and has the flexibility to move within different market caps and / or sectors.

The portfolio of the scheme is subject to changes within the provisions of the Scheme Information Document (SID) of the scheme. Please refer to the SID for asset allocation, investment strategy and scheme specific risk factors.

Companies with sound management following both top-down and bottom-up approach

The scheme would adopt top-down and bottom-up approach of investing and will aim at being diversified across various industries and / or sectors and / or market capitalisation. Some of these could be turnaround companies, while some could be contrarian calls with a certain level of conviction that these businesses have good long term prospects. The investment emphasis of the scheme would be on identifying companies with

sound corporate management and prospects of good future growth. Essentially, the focus would be on stocks driven by long - term fundamentals. Short-term opportunities would also be seized, provided underlying values support these opportunities. A portion of the scheme will also be invested in IPOs, emerging sectors, concept stocks and other primary market offerings that meet our investment criteria.

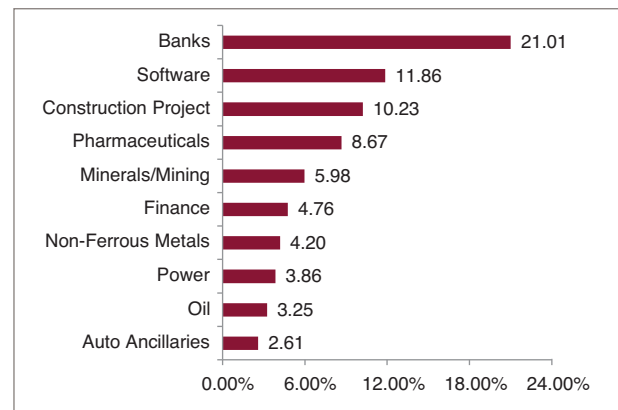

The portfolio of the scheme is subject to changes within the provisions of the Scheme Information Document (SID) of the scheme. Please refer to the SID for asset allocation, investment strategy and scheme specific risk factors.

Potential long term wealth creation with equity

The objective of the scheme is long term growth of capital, through a portfolio with a target allocation of 90% equity and 10% debt and money market securities. The focus would be on stocks driven by long-term fundamentals.

Portfolio Summary (As on May 31, 2014)

Top 10 Sector Selection

Note: The above allocation is as on May 31, 2014 as per industry classification as recommended by AMFI.

All About Mutual Funds

What is the way then to help you achieve your financial needs and goals? The answer can be mutual funds. Here are a few things about mutual funds that you must know in order to benefit from them:

What are mutual funds?

A mutual fund is a professionally managed collective investment scheme that pools money from many investors. This money is then invested in stocks, bonds, short-term money market instruments, and/or other securities.

Types of mutual funds

Mutual funds can broadly be classified as open ended or close ended. While open ended funds are available for subscription and repurchase on a continuous basis and do not have a fixed maturity period, close ended funds are open for subscription only during a specified period at the time of launch of the scheme and have a stipulated maturity period. The funds can further be classified according to the investment objective as:

- **Growth or equity funds:** The aim of growth funds is to provide capital appreciation over medium to long term. Such schemes normally invest a major part of their corpus in equities and have comparatively high risks.
- **Debt funds:** The objective of debt funds is to generate steady returns while aiming to preserve your capital. They invest only in fixed income instruments like company bonds, debentures, government securities etc.
- **Balanced funds:** These funds invest in both equity and debt in varying proportions. So, their average returns and risk profile also fall somewhere in between growth and debt funds.

How do mutual funds score over equities?

Unlike equity Investments, mutual fund investments do not

Rising expenses, children's education, unexpected emergencies and finally retirement – the demands on people's money seem to be ever-rising. And savings alone may not prove to be enough to meet them all. Making judicious investments though can make their money work harder. However, most people are reluctant to invest as they find it very puzzling. More so, they don't have the time to monitor the stock markets.

require you to analyze and track companies and the ways of the market. Also they can help them stay less affected by the fall in the prices of one particular stock as their returns are derived by overall performance of various stocks that the Mutual Fund invests in.

What's the right time to buy and sell mutual funds?

The right time to buy mutual funds is when the prices of the funds are low or falling. However, the holding period should be determined by the market conditions ideally. For eg. in growth funds a greater holding period can offer greater chance to benefit.

What are SIPs?

A systematic investment plan allows you to invest in a fund at regular intervals rather than a lump sum one time amount. SIPs are based on the principle of rupee cost averaging which can help make a fall in scheme's NAV work to the investor's advantage. When the NAV falls because of a fall in the market, SIP can help accumulate more units at lower rates while restraining them from going overboard in a rising market by giving fewer units at those higher levels. Further, by staying invested for a long period of time, they may also profit from the appreciation in equities tend to show over the long term.

How do I select the right mutual funds?

While choosing a mutual fund, it's important to keep your objectives, risk appetite and investment budget in mind. You should also keep in mind the performance of the fund over the last couple of years and check the exit load charged by a particular scheme which is charged as a percentage of NAV and has the effect of reducing returns by that amount.

By keeping these simple things in mind, you can make mutual fund investments that can work to your advantage and help in realizing your financial goals.

Investment Outlook

Equity Investment Outlook

As the biggest events in India this year, the 16th Lok Sabha elections, finally reached consummation Indian equity markets responded positively to the first decisive mandate in 30 years that was delivered by the electorate. The benchmark indices, Nifty and Sensex, rose 8% each accompanied by 15% rise in the CNX Midcap Index and 20% move in the Small cap index. Key sectors that led the gains were Real Estate, Power, Metals and Capital Goods; while those on the losing side were Healthcare and IT, followed by marginal gains in consumer names.

Fund flows continued to be robust as FII's upped their ante, deploying higher equity inflows into India. Inflows for May totalled \$2.8bn taking the YTD net buying to an impressive \$8.1bn. (citigroup research)

Primary market activity is showing signs of life with deals totalling \$936mn going through. We are likely to see more such activity with money thus raised is going towards de-leveraging corporate balance sheets and preparing for growth phase.

Amongst key economic numbers that came out - India's current account deficit plunged to low of 0.2% of the GDP in the March quarter, from 3.6% a year ago as imports declined due to curbs on gold imports. The trade deficit continued to be in control at \$10.1 billion in April compared with \$10.5 billion in March 2014. India's FY14 GDP growth was recorded at 4.7% with agricultural sector growing at 6.3% vs 3.6% QoQ, the manufacturing sector grew at 1.4% vs -1.9% QoQ.

(Source: Bank of America, Merrill Lynch)

In the near term, markets may pause on consolidation given the recent gains. It may also take cues from important policy announcements like Union Budget and EXIM policy. We are entering a recovery phase in the economic growth which is expected to drive acceleration in earnings growth going ahead. This in turn could drive attractive returns compared to other asset classes over medium to long-term. Investors should not remain on fence lines waiting for perfect 20-20 clarity, for good news and good (cheap) prices seldom coincide in stock markets.

Investment Outlook

Debt Investment Outlook

Macro Outlook

As the elections of the world's largest democracy concluded in May 2014 electing a government with a landslide majority seen for the first time in the last 30 years, India has successfully entered a new policy landscape. Both equity and bond markets cheered the establishment of such a strong mandate. While the on ground impact of agenda of the new government remains to be seen, the sentiment turnaround has happened already.

On the macroeconomic front, the data prints were a mixed bag.

While retail inflation (CPI) inched up due to higher food prices, wholesale inflation (WPI) moderated substantially owing to a sharp decline in core inflationary pressures. As we go forward, seasonality induced higher food prices may keep the headline print elevated but as the impact of tight monetary policy, prudent fiscal consolidation and appreciating currency becomes prevalent, the inflation trajectory is anticipated to behave well.

GDP growth picked up in FY14 to 4.7%, rising from 4.5% in FY13. The key driver of this moderate move was higher agriculture growth owing to above normal monsoons. Industry and services activity witnessed some decline and thus offset some of the positive impact of higher agriculture growth. As we move in FY15, while there are risks to agri growth rate emanating from delayed monsoons and/or El Nino, but we expect investment activity to start gaining some traction especially given the large stock of stalled projects that are waiting for the green signal. As investment activity starts to show some momentum, the services segment is also likely to benefit. Accordingly we expect FY15 GDP to rise marginally to ~5.2%. The first signs of recovery are already visible in the latest PMI prints where both PMI mnfg and PMI services have shown some expansion, core industrial production for Apr'14 also rose to 4.5% from 2.5% in Mar.

The fiscal deficit as a % of GDP for FY14 came in better than both the budgeted and the previously announced number (BE and RE respectively). Fiscal deficit moderated to 4.5% of GDP in FY14 from 4.9% in FY13. One must appreciate the efforts undertaken by the previous govt. in reigning in the deficit which was tracking an unreasonable path until Sep'12. While the Vote on Account has budgeted a fiscal deficit of 4.1% of GDP for FY15, it remains to be seen how the new govt. charts out its budget in early July. There is a possibility that the headline print sees some upward revision,

but in our view it's more important to look into nature of expansion (if any) and as long as its non-inflationary in nature, one may look through the increase in the headline print.

Coming in line with our expectations, the CAD for FY14 moderated sharply to 32.4bn\$ (1.7% of GDP) from 88bn\$ in FY13 (4.8% of GDP). The key driver here was the decline in both gold and non-oil, non-gold imports which lowered the run rate of the trade deficit substantially. Exports pick up also facilitated this process. Despite a surge in capital outflows in H2 of 2013, The BoP saw a healthy 16bn\$ surplus in FY14, this was on account of the large dollar inflows garnered via the FCNRB route by the RBI. In FY15 we expect the process of CAD moderation to continue, even as restrictions on gold imports are gradually withdrawn. More importantly we expect massive capital inflows as India places itself with a sound economic template in the EM space. This would eventually result in a big BoP surplus (BSALMC est is 50bn\$+ in FY15). This liquidity influx will have its bearing on the yield curve.

Credit Outlook

Credit growth has remained weak in the beginning of the new financial year. However, with a strong government at the centre with a decisive mandate, we expect economic activity to pick up and along with it credit growth too.

Source: RBI, Bloomberg

Investor interest in accrual funds has remained strong. Issuer market activity has also improved with increased flows, however, we believe spreads for some of the transactions recently entered into have been very aggressive. We continue to remain vigilant as always.

Wealth Creation Solutions

What are Wealth Creation Solutions?

Our Wealth Creation Solutions aim to grow your money through equity/gold investments and are available in a range of conservative to aggressive options.

Who can benefit from Wealth Creation Solutions?

These solutions can be ideal for investors who are planning for future expenses, like higher education of children, marriage, buying a home etc. These solutions are available in the range of aggressive to conservative options to suit the needs of the investor.

Tax Savings Solutions

What are Tax Savings Solutions?

Our Tax Savings Solutions help to reduce your tax burden and at the same time, aim to grow your money through equity investments.

Who can benefit from Tax Savings Solutions?

Tax saving is important, especially when investors can save up to ₹ 30,900 in taxes! Section 80C of the Income Tax Act, 1961 provides options to save tax by reducing the taxable income by up to ₹ 1 lakh. But, wealth creation is also important. Isn't it? That's why this solution is ideal for investors who would like to create wealth along with tax saving.

Tax savings of ₹ 30,900 is calculated assuming qualifying amount of deduction is ₹ 1 lakh & investor falls in the top income tax slab of 30% & includes applicable cess. Investors are advised to consult their tax advisor in view of individual nature of tax benefits.

Further, Tax deduction(s) available u/s 80C of the Income Tax Act, 1961 is subject to conditions specified therein. Investors are requested to note that fiscal laws may change from time to time and there can be no guarantee that the current tax position may continue in the future.

Regular Income Solutions

What are Regular Income Solutions?

Our Regular Income Solutions aim to preserve your money and provide regular income.

Who can benefit from Regular Income Solutions?

This is an ideal solutions for investors who are interested in alternative modes of regular income, either in present of after retirement stage, and have low propensity for risk. (Regular income is not assured & is subject to availability of distributable surplus.)

Savings Solutions

What are Saving Solutions?

Our Savings Solutions are aimed at preserving your money, providing you with liquidity and giving you tax-efficient returns.

Who can benefit from Saving Solutions?

This is an ideal solution for investors who have low - medium propensity for risk and high liquidity. These can be ideal for first time investors in mutual funds.

The Financial Solution(s) stated above is ONLY for highlighting the many advantages perceived from investments in Mutual Funds but does not in any manner, indicate or imply, either the quality of any particular Scheme or guarantee any specific performance/returns.

Wealth Creation Solutions

What are Wealth Creation Solutions?

Our Wealth Creation Solutions aim to grow your money through equity/gold investments and are available in a range of conservative to aggressive options.

Who can benefit from Wealth Creation Solutions?

Equity may be considered as an ideal option to give attractive long term returns and hence may be used for funding long-term needs (like child's education, buying a home etc.)

Benefits of Wealth Creation Solutions:

Tax Free Returns: No capital gains tax (on withdrawal) if you stay invested for over a year as per current tax laws.

Invest in the long-term to overcome short-term ups and downs.

Risk is lowered: Mutual funds invest in many companies and funds are managed by experts; which can be considered as an alternative to direct investment in shares.

Investors are requested to consult their tax advisor before investing for individual nature of tax benefit. The Financial Solution (Wealth Creation Solution) stated above is ONLY for highlighting the many advantages perceived from investments in Mutual Funds but does not in any manner, indicate or imply, either the quality of any particular Scheme or guarantee any specific performance/returns.

What is it?

A fund that seeks to achieve long-term growth of your investment at moderate levels of risk by striking a balance between potential growth of equity and relative safety of debt.

Tax Savings Solutions

What are Tax Savings Solutions?

Our Tax Savings Solutions help to reduce your tax burden and at the same time, aim to grow your money through equity investments.

Who can benefit from Tax Savings Solutions?

Tax saving is important, especially when investors can save up to ₹ 30,900 in taxes! Section 80C of the Income Tax Act, 1961 provides options to save tax by reducing the taxable income by up to ₹ 1 lakh.

But, wealth creation is also important. Isn't it? That's why this solution is ideal for investors who would like to create wealth along with tax saving.

Tax savings of ₹ 30,900 is calculated assuming qualifying amount of deduction is ₹ 1 lakh & investor falls in the top income tax slab of 30% & includes applicable cess. Investors are advised to consult their tax advisor in view of individual nature of tax benefits.

Benefits of Tax Savings Solutions:

Low lock-in period: Your money is locked-in for just 3 years, as against the much longer lock-in periods in other options.

Potential to earn dividends: While your money is locked-in for 3 years, you may opt for the dividend option and can receive returns in the form of tax-free dividends during this time. This feature is unique only to tax saving solutions from mutual funds.

Earn market linked returns: Since investments are made in stocks of Indian companies, the value of your investment moves with the stock market. Although it comes with market related risks, your money is diversified i.e. spread out across stocks of multiple companies and is being monitored by an investment expert with an aim to minimize such risks.

Tax-free returns: When you withdraw your investment after 3 years, the returns are totally tax free. Yes, you save taxes on both, your initial investment and also on the returns.

Tax deduction(s) available u/s 80C of the Income Tax Act, 1961 is subject to conditions specified therein.

Investors are requested to note that fiscal laws may change from time to time and there can be no guarantee that the current tax position may continue in the future.

Investors are advised to consult their tax advisor in view of individual nature of tax benefits.

The Financial Solution (Savings Solution) stated above is ONLY for highlighting the many advantages perceived from investments in Mutual Funds but does not in any manner, indicate or imply, either the quality of any particular Scheme or guarantee any specific performance/returns.

Regular Income Solutions

What are Regular Income Solutions?

Our Regular Income Solutions aim to preserve your money and provide regular income.

Who can benefit from Regular Income Solutions?

This is an ideal solutions for investors who are interested in alternative modes of regular income, either in present of after retirement stage, and have low propensity for risk.

(Regular income is not assured & is subject to availability of distributable surplus.)

Benefits of Regular Income Solutions:

They aim to preserve your money & provide regular income: These schemes generally invest in instruments like bonds of reputed Indian companies and securities (bonds) issued by the Government of India which are considered relatively safe in order to generate regular income for you.

They aim to fight Inflation: A small part is invested in equity i.e. stocks of Indian companies to help you stay ahead of inflation.

Tax-efficient Returns: You may opt for a monthly dividend option where, in addition to the growth of your invested amount, a portion of the same comes to you as monthly income which is given in the form of dividends. These dividends are completely tax-free in your hands!

A dividend distribution tax of 28.325% is applicable and is deducted by the fund house.

The DDT rate of 28.325% is effective June 01, 2013 and further, upto May 31, 2013 DDT rate applicable shall be 14.1625% as amended by Finance Bill/Act 2013.

Investors are requested to note that fiscal laws may change from time to time and there can be no guarantee that the current tax position may continue in the future.

Investors are advised to consult their tax advisor in view of individual nature of tax benefits

Wherever mentioned, Regular Income / Second Income / Monthly Dividend is not assured and is subject to availability of distributable surplus. The Financial Solution (Regular Income Solution) stated above is ONLY for highlighting the many advantages perceived from investments in Mutual Funds but does not in any manner, indicate or imply, either the quality of any particular Scheme or guarantee any specific performance/returns.

Birla Sun Life Monthly Income

(An open-ended income scheme. Monthly income is not assured and is subject to availability of distributable surplus.)

Savings Solutions

What are Saving Solutions?

Our Savings Solutions are aimed at preserving your money, providing you with liquidity and giving you tax-efficient returns.

Who can benefit from Saving Solutions?

This is an ideal solution for investors who have low - medium propensity for risk and high liquidity. These can be ideal for first time investors in mutual funds.

Benefits of Savings Solutions:

Make Inflation work in your favour: Inflation affects your returns from any investment including mutual funds. But, in case of savings solutions, you can use it to your advantage - through indexation - which can help you reduce the amount on which you have to pay tax. You can benefit from indexation, if investing for more than 1 year. Please consult your tax advisor on how to take advantage of indexation.

Aim to preserve your money: These schemes generally invest in instruments like bonds of reputed Indian companies and securities (bonds) issued by the Government of India which are considered relatively safe.

Aim to provide Liquidity: If you need to withdraw your money, all you have to do is submit a redemption slip and your money is normally credited to your bank account within one working day. You may also opt for an online redemption facility offered by many fund houses for added convenience.

Tax-efficient returns: You can earn returns in the form of monthly / quarterly dividends etc. which are completely tax-free in your hands. A dividend distribution tax of 28.325% is applicable and is deducted by the fund house.

There are various savings solutions available depending on the time period that you would like to invest for: a. 1 day to 3 months b. 3 to 6 months c. 6 months to 1 year d. 1 year +

The DDT rate of 28.325% is effective June 01, 2013 and further, upto May 31, 2013 DDT rate applicable shall be 14.1625% as amended by Finance Bill/Act 2013.

Investors are requested to note that fiscal laws may change from time to time and there can be no guarantee that the current tax position may continue in the future.

Investors are advised to consult their tax advisor in view of individual nature of tax benefits

The Financial Solution (Savings Solution) stated above is ONLY for highlighting the many advantages perceived from investments in Mutual Funds but does not in any manner, indicate or imply, either the quality of any particular Scheme or guarantee any specific performance/returns.

What is it?

A fund that aims to provide the convenience of a savings account with the opportunity to earn higher post-tax returns. (Investors are advised to consult their tax advisor in view of individual nature of tax benefits.)

CNX Nifty returns (CAGR)	14.59	11.32	17.37	36.75

Date of First Installment: October 01, 2002 & Scheme Inception Date: August 30, 2002. Past Performance may or may not be sustained in future.

Birla Sun Life Infrastructure Fund - Regular Plan - Growth				
Particulars	Since Inception	last 5 years	last 3 years	last 1 year
Total Amount Invested (₹)	99000	60000	36000	12000
Market Value of amount Invested	156848	84273	52979	17753
Scheme Returns (CAGR)	10.89	13.58	26.87	100.73
CNX Nifty returns (CAGR)	10.33	11.32	17.37	36.75
S&P BSE SENSEX returns (CAGR)	10.34	11.54	17.93	36.27

Date of First Installment: April 01, 2006 & Scheme Inception Date: March 17, 2006. Past Performance may or may not be sustained in future. This scheme is jointly managed with Mr. Naysar Shah.

For SIP calculations above, the data assumes the investment of ₹ 1000/- on 1st day of every month or the subsequent working day. Load & Taxes are not considered for computation of returns. Performance for dividend option would assume reinvestment of tax free dividends declared at the then prevailing NAV. CAGR returns are computed after accounting for the cash flow by using XIRR method (investment internal rate of return). Where Benchmark returns are not available, they have not been shown.

Past performance may or may not be sustained in future. Returns greater than 1 year period are compounded annualized. Dividends are assumed to be reinvested and bonus is adjusted. Load is not taken into consideration. For SIP returns, monthly investment of equal amounts invested on the 1st day of every month has been considered.

For SIP calculations above, the data assumes the investment of ₹ 1000/- on 1st day of every month or the subsequent working day. Load & Taxes are not considered for computation of returns. Performance for dividend option would assume reinvestment of tax free dividends declared at the then prevailing NAV. CAGR returns are computed after accounting for the cash flow by using XIRR method (investment internal rate of return). Where Benchmark returns are not available, they have not been shown. Past performance may or may not be sustained in future. Returns greater than 1 year period are compounded annualized. Dividends are assumed to be reinvested and bonus is adjusted. Load is not taken into consideration. For SIP returns, monthly investment of equal amounts invested on the 1st day of every month has been considered.

The Fund Manager-wise Scheme Details appearing above are as on January 31, 2014.

Schemes mentioned in order of performance for the period March 28 2013 - March 31 2014. Due to inherent difference in nature of schemes above (i.e. equity, hybrid, debt schemes) as may be managed by Fund Manager, performance of such schemes may not be strictly comparable. Further, for the schemes in existence for less than a year, the past performance details have not been provided. Further, performance of Fixed Term Plans (FTPs) / Fixed Maturity Plans (FMP) / Interval Income Schemes are not considered above, as FMPs / FTPs / Interval Income Schemes are close ended / interval schemes of varying maturities and performance of such schemes may not be strictly comparable with open ended schemes managed by Fund Managers.

Birla Sun Life Frontline Equity Fund	An Open-ended growth scheme with the objective of long term growth of capital, through a portfolio with a target allocation of 100% equity by aiming at being as diversified across various industries and or sectors as its chosen benchmark index, S&P BSE 200.
Birla Sun Life Top 100 Fund	An Open-ended growth scheme with the objective to provide medium to long term capital appreciation, by investing predominantly in a diversified portfolio of equity and equity related securities of top 100 companies as measured by market capitalization.
Birla Sun Life Equity Fund	An Open-ended growth scheme with the objective of long term growth of capital, through a portfolio with a target allocation of 90% equity and 10% debt and money market securities.
Birla Sun Life Long Term Advantage Fund	An Open ended Diversified Equity Scheme with an to provide long-term capital appreciation, by investing predominantly in a diversified portfolio of equity and equity related securities.
Birla Sun Life MNC Fund	An Open-ended growth scheme with the objective to achieve long-term growth of capital at relatively moderate levels of risk by making investments in securities of multi-national companies through a research based investment approach.
Birla Sun Life Dividend Yield Plus	An Open-ended growth scheme with the objective to provide capital growth and income by investing primarily in a well-diversified portfolio of dividend paying companies that have a relatively high dividend yield.
Birla Sun Life Midcap Fund	An Open ended Growth Scheme with the objective to achieve long term growth of capital at controlled level of risk by investing primarily in 'Mid-Cap' Stocks. The level of risk is somewhat higher than a fund focused on large and liquid stocks. Concomitantly, the aim is to generate higher returns than a fund focused on large and liquid stocks.
Birla Sun Life Small & Midcap Fund	An Open ended Small and Mid Cap Equity Scheme with an objective to generate consistent long-term capital appreciation by investing predominantly in equity and equity related securities of companies considered to be small and midcap. The Scheme may also invest a certain portion of its corpus in fixed income securities including money market instruments, in order to meet liquidity requirements from time to time.
Birla Sun Life Advantage Fund	An Open-ended growth scheme with the objective to achieve long-term growth of capital at relatively moderate levels of risk through a diversified research based investment approach.
Birla Sun Life India GenNext Fund	An Open-ended growth scheme with the objective to target growth of capital by investing in equity/equity related instruments of companies that are expected to benefit from the rising consumption patterns in India, which in turn is getting fuelled by high disposable incomes of the young generation (Generation Next). The scheme will invest in companies that have the following characteristics: 1. Companies that seek growth in revenues arising out of demand from the younger generation (GenNext) for their products or services. 2. They should be engaged in manufacturing of products or rendering of services that go directly to the consumer. 3. The products and services should have distinct brand identity, thereby enabling choice.
Birla Sun Life Buy India Fund	A multi-sector open-ended growth scheme with the objective of long term growth of capital, through a portfolio with a target allocation of 100% equity, focusing on investing in businesses that are driven by India's large population and inherent consumption patterns. The focus of the scheme will be in the consumer and healthcare sectors. The secondary objective is income generation and distribution of dividend.
Birla Sun Life Infrastructure Fund	An Open-ended growth scheme with the objective to providing for medium to long-term capital appreciation by investing predominantly in a diversified portfolio of equity and equity related securities of companies that are participating in the growth and development of Infrastructure in India.
Birla Sun Life Pure Value Fund	An Open ended Diversified Equity Scheme with the objective to generate consistent long-term capital appreciation by investing predominantly in equity and equity related securities by following value investing strategy.
Birla Sun Life International Equity Fund - Plan A	An Open-ended diversified equity scheme with an objective to generate long-term growth of capital, by investing predominantly in a diversified portfolio of equity and equity related securities in the international markets.
Birla Sun Life International Equity Fund - Plan B	An Open-ended diversified equity scheme with an objective to generate long-term growth of capital, by investing predominantly in a diversified portfolio of equity and equity related securities in the domestic and international markets.
Birla Sun Life Commodity Equities Fund - Global Agri Plan (GAP)	The objective of the Scheme is to offer long term growth of capital, by investing in (1) stocks of Agri commodity companies, i.e., companies engaged in or focusing on the Agri business and/or (2) overseas mutual fund scheme(s) that have similar investment objectives. These securities could be issued in India or overseas.
Birla Sun Life India Reforms Fund	An Open ended Equity Scheme with an investment objective is to generate growth and capital appreciation by building a portfolio of companies that are expected to benefit from the economic reforms, PSU divestment and increased government spending.
Birla Sun Life New Millennium Fund	A multi-sector open-ended growth scheme with the objective of long term growth of capital, through a portfolio with a target allocation of 100% equity, focusing on investing in technology and technology dependent companies, hardware, peripherals and components, software, telecom, media, internet and e-commerce and other technology enabled companies. The secondary objective is income generation and distribution of dividend.
Birla Sun Life India Opportunities Fund	An Open ended Growth Scheme with the objective to achieve superior long-term growth of capital by investing in shares of companies that do one or more of the following: 1. Leverage India's intellectual capital for providing services, research and creative inputs. 2. Seek to use current and impending changes in patent laws / import tariffs / quotas to supply goods and services. 3. Leverage India's lower labour costs for providing services and manufactured goods. 4. Leverage India's large population of English speaking people for providing services.
Birla Sun Life Special Situations Fund	An Open-ended diversified equity scheme with an objective of the scheme is to generate long-term growth of capital by investing in a portfolio of equity and equity related securities. The Scheme would follow an investment strategy that would take advantage of Special Situations & Contrarian investment style.
Birla Sun Life Asset Allocation Fund	An Open-ended Fund of Funds scheme with the objective to provide income and capital appreciation along with diversification by investing in a basket of debt and equity Mutual Fund schemes in line with the risk profile of the investors.
Birla Sun Life Index Fund	An Open-ended index-linked growth scheme with the objective to generate returns commensurate with the performance of Nifty subject to tracking errors.
Birla Sun Life Gold Fund	An Open ended Fund of Fund Scheme with the investment objective to provide returns that tracks returns provided by Birla Sun Life Gold ETF (BSL Gold ETF).
Birla Sun Life Gold ETF	An Open ended Gold Exchange Traded Fund with the investment objective to generate returns that are in line with the performance of gold, subject to tracking errors.

The Financial Solution(s) stated above is ONLY for highlighting the many advantages perceived from investments in Mutual Funds but does not in any manner, indicate or imply, either the quality of any particular Scheme or guarantee any specific performance/returns.

Investment Objective
