Information

To provide you with ease while you glance through the Empower booklet, we have structured the important information in an organised way.

Glossary Page

Fund Manager : An employee of the asset management company such as a mutual fund or life insurer, who manages investments of the scheme. He is usually part of a larger team of fund managers and research analysts.

Application Amount for Fresh Subscription : This is the minimum investment amount for a new investor in a mutual fund scheme.

Minimum Additional Amount : This is the minimum investment amount for an existing investor in a mutual fund scheme.

Yield to Maturity : The Yield to Maturity or the YTM is the rate of return anticipated on a bond if held until maturity. YTM is expressed as an annual rate. The YTM factors in the bond's current market price, par value, coupon interest rate and time to maturity.

SIP : SIP or systematic investment plan works on the principle of making periodic investments of a fixed sum. It works similar to a recurring bank deposit. For instance, an investor may opt for an SIP that invests Rs 500 every 15th of the month in an equity fund for a period of three years.

NAV : The NAV or the net asset value is the total asset value per unit of the mutual fund after deducting all related and permissible expenses. The NAV is calculated at the end of every business day. It is the value at which the investor enters or exits the mutual fund.

Benchmark : A group of securities, usually a market index, whose performance is used as a standard or benchmark to measure investment performance of mutual funds, among other investments. Some typical benchmarks include the Nifty, Sensex, BSE200, BSE500, 10-Year Gsec.

Entry Load : A mutual fund may have a sales charge or load at the time of entry and/or exit to compensate the distributor/agent.

Entry load is charged at the time an investor purchases the units of a mutual fund. The entry load is added to the prevailing NAV at the time of investment. For instance, if the NAV is Rs. 100 and the entry load is 1%, the investor will enter the fund at Rs 101.

Note: SEBI, vide circular dated June 30, 2009 has abolished entry load and mandated that the upfront commission to distributors will be paid by the investor directly to the distributor, based on his assessment of various factors including the service rendered by the distributor.

Exit Load : Exit load is charged at the time an investor redeems the units of a mutual fund. The exit load is reduced from the prevailing NAV at the time of redemption. The investor will receive redemption proceed at net value of NAV less Exit load. For instance if the NAV is Rs 100 and the exit load is 1%, the investor will receive Rs 99.

Modified Duration : Modified duration is the price sensitivity and the percentage change in price for a unit change in yield

Standard Deviation : Standard deviation is a statistical measure of the range of an investment's performance. When a mutual fund has a high standard deviation, it means its range of performance is wide, implying greater volatility.

Sharpe Ratio : The Sharpe Ratio, named after its founder, the Nobel Laureate William Sharpe, is a measure of risk-adjusted returns. It is calculated using standard deviation and excess return to determine reward per unit of risk.

Beta : Beta is a measure of an investment's volatility vis-à-vis the market. Beta of less than 1 means that the security will be less volatile than the market. A beta of greater than 1 implies that the security's price will be more volatile than the market.

AUM : AUM or assets under management refers to the recent / updated cumulative market value of investments managed by a mutual fund or any investment firm.

Holdings : The holdings or the portfolio is a mutual fund's latest or updated reported statement of investments/securities. These are usually displayed in terms of percentage to net assets or the rupee value or both. The objective is to give investors an idea of where their money is being invested by the fund manager.

Nature of Scheme : The investment objective and underlying investments determine the nature of the mutual fund scheme. For instance, a mutual fund that aims at generating capital appreciation by investing in stock markets is an equity fund or growth fund. Likewise, a mutual fund that aims at capital preservation by investing in debt markets is a debt fund or income fund. Each of these categories may have sub-categories.

Rating Profile : Mutual funds invest in securities after evaluating their creditworthiness as disclosed by the ratings. A depiction of the mutual fund in various investments based on their ratings becomes the rating profile of the fund. Typically, this is a feature of debt funds.

Investment Outlook

Equity Investment Outlook

The month of October has seen the “risk on” trade across the global markets. This was due to two global factors: 1) Good data points from China which reduced volatility and 2) Weak data points from US which reduced chances of rate hike in 2015 atleast temporarily.

The bounce back rally was strong for some of the global markets that were particularly weak all through the year. India under performed many emerging market peers for the month but still ranks among the top when you look at the YTD performance.

In terms of market performance, the Small cap index continues to be the best performer with a return of 2.7%. Nifty, the large cap index and CNX midcap indices gained 1.5% and 2% respectively. Gold and Crude also gained 1.9% each. *(Source: Bloomberg)*

In terms of flows, the FPIs turned buyers after selling for the previous two months. They bought USD 780 mn in the cash market. Mutual funds continued their purchasing spree for 18 months in a row. They bought about USD 200 mn. Insurance companies sold over USD 650 mn. *(Source: Bloomberg)*

In terms of data points, August IIP accelerated to 6.4 %, a three year high at the back of strong manufacturing activity. Nikkei PMI Services came in at 51.3 in September vs 51.8 last month and Nikkei PMI Manufacturing dropped to 51.2 in September from 52.3 last month. What is also heartening is that India improved its position from 142 to 130 in the World Bank Doing Business 2016 ranking. This improvement in ranking provides a short in the arm for the country’s effort to allow setting up new manufacturing facilities easier. *(Source: Bloomberg, Times of India)*

The IPO market saw some marquee names like a popular beverage and aviation company raising money with good subscription numbers. *(Source: NSE)*

We are in the midst earnings season for the second quarter and the breadth of meeting & beating estimates is higher compared to last three quarters. The BSE Sensex companies so far have reported earnings which beat estimates by 1.7%. This quarter could provide the bottom in place. *(Source: Morgan Stanley Research)*

In terms of central bank actions around the world, China cut its rates by 50 bps to support the economy. The European Central Bank stated that it could add more easing if required and the Fed gave an indication that the rate hike in December should not be ruled out. *(Source: Bloomberg)*

There was a minor set back in the Bihar elections for the ruling coalition. However, we believe that the pace of reforms from the government would continue. This quarter could see the bottoming out of the earnings slowdown which we have seen over the previous four quarters. With these in mind, we are positive on the market from a medium term view and prefer large cap and multi cap funds.

USD: United States Dollar; BSE: Bombay Stock Exchange; NSE: National Stock Exchange; YTD: Year To Date; FPI: Foreign Portfolio Investors; IIP: Index of Industrial Production; PMI: Purchasing Managers Index;

IPO: Initial Public Offer

Investment Outlook

Debt Investment Outlook

In an almost event less month, after the RBI had given in a 50bps worth of rate, domestically there were only the macro data points that moved the market. Globally, the US fed's inter quarter meeting was awaited. China also cut its rate while the BoJ stood pat on its monetary expansion plan.

Growth outlook

August IIP came in higher than expected @ 6.4% yoy, this was on account of double digit growth in both capital goods and consumer durables, due to data capturing methodologies, such high yoy growth rate could be non-sustainable, that said, the underlying momentum was strong. Core industry growth for September 2015 also improved to 3.2% from 2.6% in August, most of it was on account of higher growth in power generation, which went back to double digit growth rate. This positive data spree was obstructed by October 2015 PMI manufacturing that declined to 50.7 from 51.2, but the expansion in Services PMI made up for it, rising to 53.2 to 51.3. Going forward, various high frequency indicators have beginning to show some improvement and/or stabilisation. We therefore expect a modest improvement in GDP in FY16.

Inflation outlook

As the best of base effect was behind us, both retail and wholesale inflation went up in Sep'15. CPI inflation rose to 4.4% from 3.8%, this was largely on account of higher food inflation driven by veggies and pulses. Increase in pulses prices has been a major worry for some time now. The government has been taking various steps to ensure that the situation doesn't go out of control, this includes raiding hoarders - recovering 1.3 lakh tonnes of pulses so far. While some moderation has just started, it may continue to exert pressure on food inflation for the next two prints. WPI continued to deflate for 11 consecutive months, but the pace of deflation slowed down a bit as food inflation went up. Going forward, as base effect dissipates, we expect CPI inflation to rise from current levels, but still remain well below RBI's target of 5.8% for Q4 FY16.

External equation

After rising higher than market expectations, the trade deficit cooled down a bit in September'15, from 12.5bn\$ in August to 10.5bn\$, as gold imports fell. The contraction in exports, both- overall and non-oil has been a major concern in this year so far. But, as India is a net importer, the decline in global commodity prices in general and oil in particular are still likely to keep the CAD under check.

Fiscal front

The fiscal balance so far looks to be on track. Until Sep'15 we have used up 68% of the budgeted fiscal deficit, this is versus 83% for same period last year. In case of tax revenue - the robust growth in indirect taxes (aided by higher rates of excise duty mostly) has been a saviour. This month's numbers also showed a smart pace of growth in corporate tax revenue. The concern in fiscal math is currently emanating from divestment seeing some possible slippage (about ~30000 cr). While we are mindful of this, we are not overly worried yet. On the expenditure side, the mix continued to improve with a sharp increase in capital expenditure (up 29.3%YoY) and a corresponding decline in oil subsidy payouts (down 76%YoY). More granularly, the largest increase was seen in infrastructure spending such as roads (up 57%), urban development, water resources, etc.

Credit view

Credit markets have been rather subdued in the last month with most

issuers taking a wait and watch approach hoping for the dust to settle on a popular auto ancillary company default issue. Just a few issuance have happened in what is otherwise the beginning of the busy credit season. 2 ratings Agencies, Moody's and India Ratings have come out with their outlook on Banks. Both seem to be of the view that things have bottomed out and shall show improvement here onwards. Moody's in fact upgraded the outlook on Indian banks from Negative (made negative in 2011) to Stable. However they expect the recovery in asset quality to be U-shaped rather than V-shaped, because corporate balance sheets remain highly leveraged. Fitch expects Indian banks' stressed assets ratio to improve after reaching a high of 11.1% in FY15 (to end-March 2016, but only marginally to around 10.9% in FY16).

Outlook on Rates

We saw an uptick in global growth sentiments in last month as equities rallied across all markets. Growth data across came out better with job market in US holding on, housing improving, good credit data in Europe and good improvement in PMI data across. The sell-off in EM currency found a bottom most of the EM currency showing significant gain against the dollar which in turn strengthened again G10 particularly against Euro as European Central Bank would most probably look to December policy to do further easing and that rates can further fall into negative territory. Global bonds also had the same story as currency as EM bond yields fell after the selloff we saw in preceding months while the DM yield apart from a few exceptions in Europe went higher as a risk on trade.

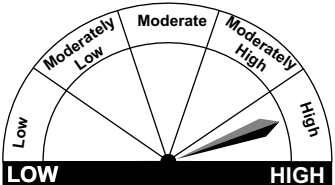

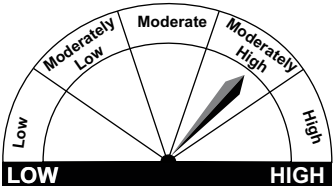

Locally we had a heavy month in terms of supply. This coupled with improving growth prospects has resulted in a creep up in bond yields during the month. The supply mismatch would be temporary as the pace of auction will slow down in coming months and this would most probably reverse the rise in yield we have seen in last month. The supply demand gap we have seen in the last few months or so would also start to close down as investors like insurance and PF would see their pie in the SLR bond to grow at a rate which would outpace the growth in supply if the Government adheres to the FRBM. In addition we have seen very decent demands from the FPI investors in the Government securities segment with the demand for State Government Bonds surprising by being stronger than expected. Given the same state of economy we expect the interest from FPIs to continue. While inflation can see an uptick due to base effects wearing off. The run rate of inflation is around 5%, a view which is echoed by, Governor of RBI in his statements, which given a real rate of 1.75% on 1y t-bill gives us a scope for further 25 bps rate cut. This provides a decent backdrop for the rates to decline from current levels. However risk to such a scenario comes from improving growth prospects which could lead investors to demand higher real rate above inflation from bonds. The 10y bond trading at around 250 bps above however is much higher than long term average and thus provides cushion.

We expect investors in bond funds to make further gains on account of closing supply demand gap, sustained fiscal discipline, good macroeconomic fundamentals and contained inflation.

Schemes

It is our constant endeavour to only offer you schemes that best suit your needs, thus we have classified our schemes under four broad solutions.

Wealth Creation Solutions

What are Wealth Creation Solutions?

Our Wealth Creation Solutions aim to grow your money through equity/gold investments and are available in a range of conservative to aggressive options.

Who can benefit from Wealth Creation Solutions?

These solutions can be ideal for investors who are planning for future expenses, like higher education of children, marriage, buying a home etc. These solutions are available in the range of aggressive to conservative options to suit the needs of the investor.

Tax Savings Solutions

What are Tax Savings Solutions?

Our Tax Savings Solutions help to reduce your tax burden and at the same time, aim to grow your money through equity investments.

Who can benefit from Tax Savings Solutions?

Tax saving is important, especially when investors can save up to ₹ 51,912 in taxes! Section 80C of the Income Tax Act, 1961 provides options to save tax by reducing the taxable income by up to ₹ 1.5 lakh. But, wealth creation is also important. Isn't it?

That's why this solution is ideal for investors who would like to create wealth along with tax saving.

Tax savings of ₹ 51,912 is calculated assuming qualifying amount of deduction is ₹ 1.5 lakh & investor falls in the top income tax slab of 34.608% & includes applicable cess & surcharge. Investors are advised to consult their tax advisor in view of individual nature of tax benefits. Further, Tax deduction(s) available u/s 80C of the Income Tax Act, 1961 is subject to conditions specified therein. Investors are requested to note that fiscal laws may change from time to time and there can be no guarantee that the current tax position may continue in the future.

The rates are applicable for the financial year 2015-16.

Regular Income Solutions

What are Regular Income Solutions?

Our Regular Income Solutions aim to preserve your money and provide regular income.

Who can benefit from Regular Income Solutions?

This is an ideal solutions for investors who are interested in alternative modes of regular income, either in present or after retirement stage, and have low propensity for risk. (Regular income is not assured & is subject to availability of distributable surplus.)

Savings Solutions

What are Saving Solutions?

Our Savings Solutions are aimed at preserving your money, providing you with liquidity and giving you tax-efficient returns.

Who can benefit from Saving Solutions?

This is an ideal solutions for investors who have low - medium propensity for risk and high liquidity. These can be ideal for first time investors in mutual funds.

The Financial Solution(s) stated above is ONLY for highlighting the many advantages perceived from investments in Mutual Funds but does not in any manner, indicate or imply, either the quality of any particular Scheme or guarantee any specific performance/returns.

Wealth Creation Solutions

What are Wealth Creation Solutions?

Our Wealth Creation Solutions aim to grow your money through equity/gold investments and are available in a range of conservative to aggressive options.

Who can benefit from Wealth Creation Solutions?

Equity may be considered as an ideal option to give attractive long term returns and hence may be used for funding long-term needs (like child's education, buying a home etc.)

Benefits of Wealth Creation Solutions:

Tax Free Returns: No capital gains tax (on withdrawal) if you stay invested for over a year as per current tax laws. Invest in the long-term to overcome short-term ups and downs.

Risk is lowered: Mutual funds invest in many companies and funds are managed by experts; which can be considered as an alternative to direct investment in shares.

Investors are requested to consult their tax advisor before investing for individual nature of tax benefit. The Financial Solution (Wealth Creation Solution) stated above is ONLY for highlighting the many advantages perceived from investments in Mutual Funds but does not in any manner, indicate or imply, either the quality of any particular Scheme or guarantee any specific performance/returns.

What is it?

A fund that seeks to achieve long-term growth of your investment at moderate levels of risk by striking a balance between potential growth of equity and relative safety of debt.

Total Amount Invested (₹)	1010000	600000	360000	120000
Market Value of amount Invested	2243751	1065579	563509	125489
Scheme Returns (CAGR)	18.36	23.19	31.44	8.63
CNX Midcap returns# (CAGR)	13.83	16.78	23.20	2.76
CNX Nifty returns## (CAGR)	9.53	10.18	10.42	-9.94

Date of First Installment: June 01, 2007 & Scheme Inception Date: May 31, 2007. Past Performance may or may not be sustained in future.

Scheme Benchmark, ## Additional Benchmark, * As on start of period considered above.
 For SIP calculations above, the data assumes the investment of ₹ 10000/- on 1st day of every month or the subsequent working day. Load & Taxes are not considered for computation of returns. Performance for dividend option would assume reinvestment of tax free dividends declared at the then prevailing NAV.
 CAGR returns are computed after accounting for the cash flow by using XIRR method (investment internal rate of return). Where Benchmark returns are not available, they have not been shown.
 Past performance may or may not be sustained in future. Returns greater than 1 year period are compounded annualized. Dividends are assumed to be reinvested and bonus is adjusted. Load is not taken into consideration. For SIP returns, monthly investment of equal amounts invested on the 1st day of every month has been considered.

Scheme Benchmark, ## Additional Benchmark, * As on start of period considered above.
 For SIP calculations above, the data assumes the investment of ₹ 10000/- on 1st day of every month or the subsequent working day. Load & Taxes are not considered for computation of returns. Performance for dividend option would assume reinvestment of tax free dividends declared at the then prevailing NAV.
 CAGR returns are computed after accounting for the cash flow by using XIRR method (investment internal rate of return). Where Benchmark returns are not available, they have not been shown.
 Past performance may or may not be sustained in future. Returns greater than 1 year period are compounded annualized. Dividends are assumed to be reinvested and bonus is adjusted. Load is not taken into consideration. For SIP returns, monthly investment of equal amounts invested on the 1st day of every month has been considered.

Scheme Benchmark, ## Additional Benchmark, * As on start of period considered above.

Past performance may or may not be sustained in future. Returns for dividend option would assume reinvestment of tax free dividends declared at the then prevailing NAV. Load and Taxes are not considered for computation of returns. Total Schemes managed by Mr. Anil Shah is 9. Refer annexure on page no. 96 to know more on performance of schemes managed by Fund Managers.

Direct Plan is only for investors who purchase /subscribe Units in a Scheme directly with the Mutual Fund and is not available for investors who route their investments through a Distributor. For further details, Investors are advised to refer to Addendum no. 44/2012 dated December 27, 2012 available on our website www.birlasunlife.com

Scheme Benchmark, ## Additional Benchmark, * As on start of period considered above.

For SIP calculations above, the data assumes the investment of ₹ 10000/- on 1st day of every month or the subsequent working day. Load & Taxes are not considered for computation of returns. Performance for dividend option would assume reinvestment of tax free dividends declared at the then prevailing NAV.

CAGR returns are computed after accounting for the cash flow by using XIRR method (investment internal rate of return). Where Benchmark returns are not available, they have not been shown.

Past performance may or may not be sustained in future. Returns greater than 1 year period are compounded annualized. Dividends are assumed to be reinvested and bonus is adjusted. Load is not taken into consideration. For SIP returns, monthly investment of equal amounts invested on the 1st day of every month has been considered.

Scheme Benchmark, ## Additional Benchmark, * As on start of period considered above.

Past performance may or may not be sustained in future. Returns for dividend option would assume reinvestment of tax free dividends declared at the then prevailing NAV. Load and Taxes are not considered for computation of returns. Total Schemes managed by Mr. Shravan Sreenivasula is 9. Refer annexure on page no. 96 to know more on performance of schemes managed by Fund Managers.

*'Direct Plan' is only for investors who purchase /subscribe Units in a Scheme directly with the Mutual Fund and is not available for investors who route their investments through a Distributor. For further details, Investors are advised to refer to Addendum no. 44/2012 dated December 27, 2012 available on our website www.birlasunlife.com

Scheme Benchmark, ## Additional Benchmark, * As on start of period considered above.

For SIP calculations above, the data assumes the investment of ₹ 10000/- on 1st day of every month or the subsequent working day. Load & Taxes are not considered for computation of returns. Performance for dividend option would assume reinvestment of tax free dividends declared at the then prevailing NAV.

CAGR returns are computed after accounting for the cash flow by using XIRR method (investment internal rate of return). Where Benchmark returns are not available, they have not been shown.

Past performance may or may not be sustained in future. Returns greater than 1 year period are compounded annualized. Dividends are assumed to be reinvested and bonus is adjusted. Load is not taken into consideration. For SIP returns, monthly investment of equal amounts invested on the 1st day of every month has been considered.

Date of First Installment: June 01, 2011 & Scheme Inception Date: May 09, 2011. Past Performance may or may not be sustained in future.			

Scheme Benchmark, ## Additional Benchmark, * As on start of period considered above.

For SIP calculations above, the data assumes the investment of ₹ 10000/- on 1st day of every month or the subsequent working day. Load & Taxes are not considered for computation of returns. Performance for dividend option would assume reinvestment of tax free dividends declared at the then prevailing NAV.

CAGR returns are computed after accounting for the cash flow by using XIRR method (investment internal rate of return). Where Benchmark returns are not available, they have not been shown.

Past performance may or may not be sustained in future. Returns greater than 1 year period are compounded annualized. Dividends are assumed to be reinvested and bonus is adjusted. Load is not taken into consideration. For SIP returns, monthly investment of equal amounts invested on the 1st day of every month has been considered.

Tax Savings Solutions

What are Tax Savings Solutions?

Our Tax Savings Solutions help to reduce your tax burden and at the same time, aim to grow your money through equity investments.

Who can benefit from Tax Savings Solutions?

Tax saving is important, especially when investors can save up to ₹ 51,912 in taxes! Section 80C of the Income Tax Act, 1961 provides options to save tax by reducing the taxable income by up to ₹ 1.5 lakh.

But, wealth creation is also important. Isn't it?

That's why this solution is ideal for investors who would like to create wealth along with tax saving.

Tax savings of ₹ 51,912 is calculated assuming qualifying amount of deduction is ₹ 1.5 lakh & investor falls in the top income tax slab of 34.608% & includes applicable cess & surcharge. Investors are advised to consult their tax advisor in view of individual nature of tax benefits. Further, Tax deduction(s) available u/s 80C of the Income Tax Act, 1961 is subject to conditions specified therein. Investors are requested to note that fiscal laws may change from time to time and there can be no guarantee that the current tax position may continue in the future.

The rates are applicable for the financial year 2015-16.

Benefits of Tax Savings Solutions:

Low lock-in period: Your money is locked-in for just 3 years, as against the much longer lock-in periods in other options.

Potential to earn dividends: While your money is locked-in for 3 years, you may opt for the dividend option and can receive returns in the form of tax-free dividends during this time. This feature is unique only to tax saving solutions from mutual funds.

Earn market linked returns: Since investments are made in stocks of Indian companies, the value of your investment moves with the stock market. Although it comes with market related risks, your money is diversified i.e. spread out across stocks of multiple companies and is being monitored by an investment expert with an aim to minimize such risks.

Tax-free returns: When you withdraw your investment after 3 years, the returns are totally tax free. Yes, you save taxes on both, your initial investment and also on the returns.

Tax deduction(s) available u/s 80C of the Income Tax Act, 1961 is subject to conditions specified therein.

Investors are requested to note that fiscal laws may change from time to time and there can be no guarantee that the current tax position may continue in the future.

Investors are advised to consult their tax advisor in view of individual nature of tax benefits.

The Financial Solution (Savings Solution) stated above is ONLY for highlighting the many advantages perceived from investments in Mutual Funds but does not in any manner, indicate or imply, either the quality of any particular Scheme or guarantee any specific performance/returns.

What is it?

A fund that provides an opportunity to save tax while growing your money through Equity investments.

Regular Income Solutions

What are Regular Income Solutions?

Our Regular Income Solutions aim to preserve your money and provide regular income.

Who can benefit from Regular Income Solutions?

This is an ideal solution for investors who are interested in alternative modes of regular income, either in present or after retirement stage, and have low propensity for risk.

(Regular income is not assured & is subject to availability of distributable surplus.)

Benefits of Regular Income Solutions:

They aim to preserve your money & provide regular income: These schemes generally invest in instruments like bonds of reputed Indian companies and securities (bonds) issued by the Government of India which are considered relatively safe in order to generate regular income for you.

They aim to fight Inflation: A small part is invested in equity i.e. stocks of Indian companies to help you stay ahead of inflation.

Tax-efficient Returns: You may opt for a monthly dividend option where, in addition to the growth of your invested amount, a portion of the same comes to you as monthly income which is given in the form of dividends. These dividends are completely tax-free in your hands!

A dividend distribution tax of 28.325% is applicable and is deducted by the fund house.

The DDT rate of 28.325% is effective June 01, 2013 and further, upto May 31, 2013 DDT rate applicable shall be 14.1625% as amended by Finance Bill/Act 2013.

Investors are requested to note that fiscal laws may change from time to time and there can be no guarantee that the current tax position may continue in the future.

Investors are advised to consult their tax advisor in view of individual nature of tax benefits

Wherever mentioned, Regular Income / Second Income / Monthly Dividend is not assured and is subject to availability of distributable surplus. The Financial Solution (Regular Income Solution) stated above is ONLY for highlighting the many advantages perceived from investments in Mutual Funds but does not in any manner, indicate or imply, either the quality of any particular Scheme or guarantee any specific performance/returns.

Birla Sun Life Monthly Income

(An open-ended income scheme. Monthly income is not assured and is subject to availability of distributable surplus.)

Regular Income Solutions

What is it?

A fund that seeks to provide you regular income with an opportunity to grow your money through fixed income investments and a limited exposure to the equity markets.

Savings Solutions

What are Saving Solutions?

Our Savings Solutions are aimed at preserving your money, providing you with liquidity and giving you tax - efficient returns.

Who can benefit from Saving Solutions?

This is an ideal solution for investors who have low - medium propensity for risk and high liquidity. These can be ideal for first time investors in mutual funds.

Benefits of Savings Solutions:

Make Inflation work in your favour: Inflation affects your returns from any investment including mutual funds. But, in case of savings solutions, you can use it to your advantage - through indexation - which can help you reduce the amount on which you have to pay tax. You can benefit from indexation, if investing for more than 1 year. Please consult your tax advisor on how to take advantage of indexation.

Aim to preserve your money: These schemes generally invest in instruments like bonds of reputed Indian companies and securities (bonds) issued by the Government of India which are considered relatively safe.

Aim to provide Liquidity: If you need to withdraw your money, all you have to do is submit a redemption slip and your money is normally credited to your bank account within one working day. You may also opt for an online redemption facility offered by many fund houses for added convenience.

Tax-efficient returns: You can earn returns in the form of monthly / quarterly dividends etc. which are completely tax-free in your hands. A dividend distribution tax of 28.325% is applicable and is deducted by the fund house.

There are various savings solutions available depending on the time period that you would like to invest for: a. 1 day to 3 months b. 3 to 6 months c. 6 months to 1 year d. 1 year +

The DDT rate of 28.325% is effective June 01, 2013 and further, upto May 31, 2013 DDT rate applicable shall be 14.1625% as amended by Finance Bill/Act 2013.

Investors are requested to note that fiscal laws may change from time to time and there can be no guarantee that the current tax position may continue in the future.

Investors are advised to consult their tax advisor in view of individual nature of tax benefits

The Financial Solution (Savings Solution) stated above is ONLY for highlighting the many advantages perceived from investments in Mutual Funds but does not in any manner, indicate or imply, either the quality of any particular Scheme or guarantee any specific performance/returns. stated above is ONLY for highlighting the many advantages perceived from investments in Mutual Funds but does not in any manner, indicate or imply, either the quality of any particular Scheme or guarantee any specific performance/returns.

What is it?

A fund that aims to provide the convenience of a savings account with the opportunity to earn higher post-tax returns. (Investors are advised to consult their tax advisor in view of individual nature of tax benefits.)

The Fund Manager-wise Scheme Details appearing above are As on October 30, 2015.

Schemes mentioned in order of performance for the period September 30, 2014 - September 30, 2015. Due to inherent difference in nature of schemes above (i.e. equity, hybrid, debt schemes) as may be managed by Fund Manager, performance of such schemes may not be strictly comparable. Further, for the schemes in existence for less than a year, the past performance details have not been provided. Further, performance of Fixed Term Plans (FTPs) / Fixed Maturity Plans (FMP) / Interval Income Schemes are not considered above, as FMPs / FTPs / Interval Income Schemes are close ended / interval schemes of varying maturities and performance of such schemes may not be strictly comparable with open ended schemes managed by Fund Managers.

*Direct Plan under the Schemes is only for investors who purchase /subscribe Units in a Scheme directly with the Mutual Fund and is not available for investors who route their investments through a Distributor.

**Default Plan: In case Distributor code is mentioned in the application form, but "Direct Plan" is indicated against the Scheme name, the Distributor code will be ignored and the application will be processed under Direct Plan. Further, where application is received for Regular Plan without Distributor code or "Direct" mentioned in the ARN Column, the application will be processed under Direct Plan. The default option under the Regular or Direct Plan of the Scheme, as the case maybe, shall be applied accordingly. The Financial Solution(s) stated above is ONLY for highlighting the many advantages perceived from investments in Mutual Funds but does not in any manner, indicate or imply, either the quality of any particular Scheme or guarantee any specific performance/returns.
