#### 8. ELECTRONIC PAYOUT OF REDEMPTION/DIVIDEND

ABSLAMC will endeavor to credit the redemptions/dividend payouts directly to the designated Bank A/c of the unitholders of Aditya Birla Sun Life Mutual Fund schemes through any of the available electronic mode (i.e. RTGS/ NEFT/ Direct Credit/ NECS/ ECS). The Mutual Fund, however, reserves the right to issue a cheque / demand draft inspite of an investor opting for Electronic Payout.

#### 9. DIRECT APPLICATIONS AND EUIN

- a. Investment in Direct Plan: Investors applying under Direct Plan, are advised to write the word 'DIRECT' in the column 'ARN No' or 'Broker Code' in their applications for purchases/additional purchases/switches in all such cases where applications are not routed through any distributor/agent/broker. In cases where unit holder uses a pre-printed transactionslip/application form where details in the 'ARN No' or 'Broker Code' column is already printed, unit holder should cancel the ARN No/ Broker Code, write 'DIRECT' in the said column. Also, in case ARN No/ Broker Code is mentioned in the application form, but "Direct Plan" is indicated, the ARN No/ Broker Code will be ignored and the application will be processed under Direct Plan without Distributor code or "Direct" mentioned in the ARN Column, the application will be processed under Direct Plan.
- b. Employee Unique Identification Number (EUIN) is a unique number allotted to Sales personnel i.e. employee/ relationship manager/ sales person of the distributor interacting with the investor for the sale of mutual fund products. Such sales personnel associated with Distributor, should also be holding a valid NISM certificate. Thus, in case of applications routed through distributors, in addition to the AMFI Registration Number (ARN) of the distributor, Investors are requested to also provide the EUIN of the individual ARN holder or of employee/relationship manager/sale person of the Distributor interacting with the investor. Providing appropriate EUIN in the application/transaction forms would assist in tackling the problem of mis-selling even if the Sales personnel on whose advice the transaction was executed by investor leaves the employment of the distributor or his/her sub broker. If the distributor has not given any advice pertaining to the investment (i.e. transaction is 'execution only'), then the EUIN box may be left blank, but it would be mandatory for the investor to provide confirmation as mentioned in the application form.

Different types of securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly the scheme's risk may increase or

decrease depending upon its investment pattern. e.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively more risky than bonds, which are AAA rated.

#### Risk Factors associated with Listing of units:

- Listing of units of the scheme on stock exchange(s) does not necessarily guarantee liquidity and there can be no assurance that an active secondary market for the units will develop or be maintained.
- Trading in the units of the Scheme on the Exchange may be halted because of market conditions, including any halt in the operations of Depository Participants or for reasons that in view of the Exchange Authorities or SEBI, trading in the units is suspended and / or restricted. In addition, trading in units is subject to trading halts caused by extraordinary market volatility and pursuant to stock exchange rules of 'circuit filter'. There can be no assurance that the requirements of Stock Exchange necessary to maintain the listing of units of scheme will continue to be met or will remain unchanged.
- Further, the Scheme being a close ended scheme and listed on stock exchange, as per SEBI guidelines, no redemption / repurchase / switches of units will be allowed prior to maturity under the scheme. The investors wishing to redeem their units may do so through stock exchange mode.
- The Units of the scheme may trade above or below their face value / NAV. The NAV of the scheme will fluctuate with changes in the market value of schemes holdings. The trading prices of units of the scheme will fluctuate in accordance with changes in their NAV as well as market supply and demand which may even lead the units to quote at significant premium or discount to NAV.
- There is a possibility that the unitholders find it difficult or uneconomical to liquidate their investments at any particular time. As a result, investors in the scheme must be prepared to hold the units until the maturity under the Scheme.
- Regulatory Risk: Any changes in trading regulations by the Stock Exchange or SEBI, inter alia, may also result in wider premium/ discount to the NAV of the Schemes. Although the Units are proposed to be listed on the Stock Exchange, the AMC and the Trustees will not be liable for any loss suffered by investors due to delay in listing of units of the Schemes on the Stock Exchange or due to connectivity problems with the depositories due to the occurrence of any event beyond their control.
- As the units of the scheme may be held in electronic (demat) mode through depositories, the records of the depository shall be final with respect to the number of units available to the credit of unitholder. Settlement of trades, redemption/dividend payment, in lieu of such units held in electronic (demat) form, by the Mutual Fund will depend upon the confirmations to be received from depository (ies) on which the Mutual Fund has no control.

#### Risk Factors associated with Close Ended Schemes:

- A close ended Scheme endeavours to achieve the capital appreciation only at the scheduled maturity of the Scheme. However, there is no assurance that the said objective will be achieved at the scheduled maturity of the scheme and there is a risk that the capital invested may not be fully realisable upon maturity of the scheme.
- The scheme being close ended in nature does not allow redemption during the tenor of the scheme. Redemptions shall happen only at the time of maturity of the scheme, and hence returns generated by the scheme may be affected if the underlying markets are at unfavourable level at the time of maturity of the scheme.
- Investors who wish to exit/redeem before the scheduled maturity date may do so through the stock exchange mode. For the Units listed on the exchange, it is possible that the market price at which the Units are traded may be at a discount to the NAV of such Units. Hence, Unit Holders who sell their Units in a Scheme prior to maturity may not get the NAV returns.

# Risk Control Strategies

Investments made by the scheme would be in accordance with the investment objectives of the scheme and provisions of SEBI Regulations. Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process. The AMC believes that this diversification would help achieve the desired level of consistency in returns. The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, rigorous in-depth credit evaluation of the securities proposed to be invested in will be carried out by the investment team of the AMC.

#### Credit Risk

Every investment in Debt and Money Market Instruments of any issuer would be made in accordance with Credit policy as defined and established by AMC from time to time. The Credit Policy, which is reviewed and monitored on a regular basis by Investment Committee, inter alia, enumerates issuer

selection process, the various parameters to be considered for setting up credit exposure limits and Credit authorisation matrix for such limits, credit monitoring process etc.

The following parameters shall be considered for selection:

- The exposure to a counter party is based on the networth of the counterparty. The fund manager would do a risk assessment of the issuer before making the investments. Further, continuous monitoring of the networth of the company is done. The risk assessment by the fund manager includes the monitoring of the following:
  - I. Capital Structure
  - II. Debt Service coverage ratio
  - III. Interest coverage
  - IV. Profitability margin
  - V. Current ratio
- (ii) The fund managers determine the sector to which the counter party relates. The fund manager assigns risk weightages to sectors and shall not invest in sectors which carry a high credit risk. The risk weightages are based upon various factors like the nature of products/services of the sector, current state and future outlook for the sector, subsidies provided to the sector and government regulations for the sector.
- (iii) The fund manager shall also check the track record of the company in terms of its financials and any defaults to its creditors.
- (iv) The fund managers shall consider the track record of the sponsor/ parent of the counterparty. It includes the financials of the sponsor/ parent company and whether the parent/sponsor has defaulted in the past.
- (v) The fund manager can also have a call with the Management of the company as a part of its research of the company.
- (vi) The fund manager will also check for Credit Default Swaps spreads of the company in global market, if any available.

The above parameters are dependent upon the information available at the time of due diligence. The fund manager shall endeavour to include all these parameters but investors should note that these parameters are indicative and can change from time to time at the discretion of the fund manager.

### Price-Risk or Interest-Rate Risk

The fund will invest in a basket of debt and money market securities maturing on or before maturity of the fund with a view to hold them till the maturity of the fund. While the interim NAV will fluctuate in response to changes in interest rates, the final NAV will be more stable. To that extent the interest rate risk will be mitigated at the maturity of the scheme.

#### Reinvestment Risk

Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.

## **Concentration Risk**

The Fund Manager shall endeavor to mitigate the risk by taking exposure to high rated instruments and locking in at the point of investment to such issuance yields.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

## **Plans/Options**

The Scheme will have **Regular Plan and Direct Plan\*\*** with a common portfolio and separate NAVs. Investors should indicate the Plan for which the subscription is made by indicating the choice in the application form.

Each of the above Regular and Direct Plan under the scheme will have the following Options / Suboptions:

- (1) Growth Option and
- (2) **Dividend** Option with
  - (a) Normal Dividend sub-option (Payout Facility)
  - (b) Quarterly Dividend sub-option (Payout Facility).

#### \*\*DIRECT PLAN:

- Direct Plan is only for investors who purchase /subscribe Units in a Scheme directly with the Mutual Fund and is not available for investors who route their investments through a Distributor.
- ii. Eligible investors: All categories of investors (whether existing or new Unitholders) as permitted under the Scheme Information Document of the Scheme are eligible to subscribe under Direct Plan
