Such deviations shall normally be for a short-term purpose only, for defensive considerations and the intention being at all times to protect the interests of the Unit Holders. The Fund Manager shall rebalance the portfolio within 30 days from the date of deviation to bring it in line with the asset allocation pattern as indicated in this SID. Manufacturing Sector	<p>The manufacturing sector comprises of activities related to manufacturing processes, repair services, gas and water supply and cold storage.</p> <p>As per the National Industrial Classification 2004, the Manufacturing Sector comprises of 22 sectors which includes sectors such as Pharmaceuticals, Engineering, Consumer, Auto, Refiners, cement, Metals. The Investment Universe of ABSL Manufacturing Sector Fund excludes sectors like Financial Services. IT Services,</p>		

	Logistics, Travel & Leisure, Infrastructure Development.
Investment Strategy	The Scheme aims to maximize long-term capital appreciation by investing in equity and equity related securities of companies engaged in manufacturing sector. The Scheme may also invest a small portion of its corpus in money market instruments to manage its liquidity requirements. All companies selected will be analysed taking into account the business fundamentals like nature and stability of business, prospects of future growth and scalability, financial discipline and returns, valuations in relation to broad market and expected growth in earnings, the company's financial strength and track record.
Risk Profile of the Scheme	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the Scheme Information Memorandum (SID) carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:</p> <ul style="list-style-type: none"> Investing in a Sectoral fund is based on the premise that the Fund will seek to invest in companies belonging to specific sectors. This will limit the capability of the Fund to invest in other sectors. The scheme being sector specific will be affected by the risks associated with Manufacturing Sectors (in this case Manufacturing Sectors are sectors involved in Manufacturing activity and as defined in Investment Objective) and hence concentration risk is expected to be high. Also, as with all equity investing, there is the risk that companies in that specific sector will not achieve its expected earnings results, or that an unexpected change in the market (due to Government Policies or Macro Economic factors) or within the company may occur, both of which may adversely affect investment results. Thus investing in a sector specific fund could involve potentially greater volatility and risk.
Risk Control	<p>Investments made by the Scheme would be in accordance with the investment objectives of the scheme and provisions of SEBI (MF) Regulations. Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process. The Scheme will try and mitigate this risk by investing in sufficiently large number of companies within the BFSI space, so as to maintain optimum diversification and keep stock specific concentration risk relatively low. The AMC believes that this diversification would help achieve the desired level of consistency in returns. The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, the investment team of the AMC will carry out rigorous in-depth analysis of the securities proposed to be invested in. The Scheme may also use various derivatives products for the purpose of trading, hedging and portfolio balancing from time to time, with an attempt to protect the value of the portfolio and enhance Unitholders' interest.</p> <p>While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.</p>
Plans/Options	<p>The Scheme will have Regular Plan and Direct Plan** with a common portfolio and separate NAVs. Investors should indicate the Plan for which the subscription is made by indicating the choice in the application form. Each of the above (Regular and Direct) Plan under the scheme will have the following Options:</p> <p>(1) Dividend Option (Payout & Reinvestment Facility)</p> <p>(2) Growth Option</p> <p>**DIRECT PLAN:</p> <p>i.
