Investment Strategy	 The Scheme seeks to track the Nifty G-Sec Jun 2027 Index subject to tracking errors. Accordingly, the Scheme will invest in debt instruments in line with the underlying Index of the scheme. The maturity of the Scheme will be June 30, 2027 ("Maturity Date") of the Scheme and will distribute all of its maturity proceeds (Net Assets) to the Unitholders within 10 (Ten) Business days from the date of maturity of the Scheme, in line with current regulatory timelines. The Scheme will follow Buy & Hold investment strategy in which existing bonds will be held till maturity unless sold for meeting redemptions, rebalancing requirement or optimizing portfolio construction process. The portfolio of eligible securities invested by the Scheme shall have, in aggregate, fundamental characteristics such as modified duration, weighted average maturity, aggregate credit ratings, aggregate Yield To Maturity (YTM) etc. along with other liquidity parameters in line with Nifty G-Sec Jun 2027 Index. The Scheme may or may not hold all of the eligible securities which are part of Nifty G-Sec Jun 2027 Index. The Scheme shall be a passively managed, index linked, open ended, exchange traded fund. It is therefore expected that there would be a number of subscriptions and redemptions on a daily basis through Authorised Participants and Large Investors. Generally, turnover will depend upon the extent of purchase and redemption of units and the need to rebalance the portfolio on account of change in the composition, if any, and corporate actions of securities included in the Index. The Scheme has no explicit constraints either to maintain or limit the portfolio turnover. It would also be difficult to have any reasonable accuracy in estimating the likely portfolio turnover, the fund manager intends to avoid any transactions in the portfolio unless there is any subscription, redemption or change in the underlying Index. Thus, given the structure and objective of the portfolio, the portfolio turnover i
Risk Profile of the Scheme	Mutual Fund Units involve investment risks including the possible loss of principal. Please read the Scheme Information Memorandum (SID) carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below: Investments in the Scheme are subject to various risk factors including but not limited to risks associated with: investing in companies forming part of NIFTY 6-SEC JUN 2027 Index, liquidity risk, regulatory risk, passive management of investments, lack of active market, tracking error, redemption risk, investments in Fixed Income Securities such as Price-Risk or Interest-Rate Risk, Credit Risk, Liquidity or Marketability Risk, Reinvestment Risk etc., risk associated with listing of units and risk associated with Creation Of Segregated Portfolio. Different types of securities in which the Scheme would invest as given in the Scheme Information Document/Key Information Memorandum carry different levels and types of risk. The above are some of the common risks associated with investments in various securities. There can be no assurance that a Scheme's investment bejective will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis. Further, the Fund/AMC is not guaranteeing on assuring any returns. Investors may, if they wish, consult their legal, tax, investment and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, i.e. before making a decision to invest/redeem Units. Investors in the Scheme are not being offered any guaranteed returns. Please refer to SID for detailed scheme specific risk factors .
Risk Control Strategies	The Scheme is passively managed and linked to the Nifty G-Sec Jun 2027 Index. The Mutual Fund has built adequate internal risk management controls and safeguards including ongoing oversight to ensure that the Scheme, which is passively managed is in line with the defined investment objectives as per the Scheme Information Document and in compliance with SEBI (MF) Regulations. While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be eliminated. TRACKING ERROR While the objective of the Scheme is to closely track the index, the performance may not be commensurate with the performance of the underlying Index on any given day or over any given period. Such variations are commonly referred to as the tracking error.
