A. Details regarding Banking and Utilization of Funds: Banking and Utilization of Funds A) Banking of Funds Following are the various modes of payments for Purchase/Additional purchases and SIP transactions for Aditya Birla Sun Life Gold Fund (1) Electronic mode: Real Time Gross Settlement (RTGS) Any investor can transfer funds through RTGS for amounts exceeding ` 2 Lacs (the current limit as specified by RBI) within the stipulated cut off time prescribed by the Bank and investor should ensure that the remitting bank/branch are RTGS enabled. In this mode as per instructions of investors, the funds get transferred to the scheme account (beneficiary's account) on the same day. National Electronic Funds Transfer (NEFT) Any investor can transmit funds through NEFT Mode as well. NEFT has 11 settlement cycles and the funds get transferred in batch mode. If the funds are transferred after 5 p.m. on any working day then the funds are moved to the beneficiary's account invariably only on the next day. Electronic Clearing System (ECS) This mode is generally used for SIP (Systematic Investment Plan) for small ticket size Investor. After getting a mandate from the Investor, funds are cleared from the respective account of the investors bank to the scheme account i.e. beneficiary's account. Funds are usually settled within 2 days and for few locations beyond 2 days depending on the clearing cycle of the respective locations. This is also one of the safest modes of transfer of funds through electronic clearing introduced by RBI.

Auto Debit

This is generally used for SIP type of transactions, where there is a small ticket size and Investor wants to continue his Investment at specific intervals. ABSLAMC may enter into arrangements with different banks from time to time, whereby, in case an Investor is having account with such bank, and Scheme is also having account, the Fund Transfer can happen through Auto Debit mode. The Funds get credited to Scheme account on the same day. This facility is carried out on the basis of mandate given by the Investor.

(2) All categories of Investors - for Physical mode
Magnetic Ink Character Recognition (MICR) instrument:

Any cheques/DD deposited in MICR clearing generally take 2 (two) days time and for certain locations beyond 2 (two) days depending on the clearing cycle, for credit to happen to beneficiary account. In some locations, it may even take 3 (three) to 7 (seven) days.

Post Dated Cheque (PDC)

PDC is nothing but postdated cheques, which is generally obtained from the investors for SIP transactions mostly at remote locations not covered by ECS. The cheques are banked on the respective cycle dates for realisation of funds.

Transfer instrument

An Investor maintaining an account with the bank, where the scheme is also maintaining account, the transfer of funds takes place simultaneously and the Fund movement takes place in a seamless manner.

2	NEFT	If before 5 pm then same day, otherwise next day
3	ECS	1 to 7 days (Depending on the clearing cycle of that particular location)

Why Invest in Gold?

Historically, Gold has been perceived as a store of value. Globally, its appeal as an investment option however has grown significantly in this decade, as institutional and retail investors have recognized this as a key portfolio diversifier and started allocating a part of the portfolio.

Key benefits and reasoning for investing in gold can be summarized as follows:

- **Safe Haven:** Gold is one of the financial assets that do not rely on an issuer's promise to pay, offering shelter from default risk. It is considered to be a store of value during volatile & uncertain times. 2008 was a case in point. During 2008, when most asset classes like equity, credit and real estate gave negative returns between 10% to 70%, gold gave 30% positive returns
- **Portfolio Diversification:** By investing in different asset classes with diverse correlations, investors expect to optimize the risk adjusted returns. Gold has low correlation with other asset classes such as Debt & Equity. Low co-relation indicates

that gold is driven by unique economic and market dynamics. Due to this, its price responds to various trends and developments like inflation, money supply very differently. Thus, gold is a good portfolio diversifier.

- **Inflation hedge:** The value of gold, in terms of the real goods and services that it can buy, has remained largely stable for many years. The real price of gold has endured a century characterized by sweeping change and repeated geopolitical shocks and more than retained its purchasing power. In contrast, the real value of most currencies has generally declined. (Source: World Gold Council's website www.gold.org)
- **Demand & Supply** - As is true of all asset prices, gold's price moves in response to the changing balance between supply and demand. Mine production is relatively inelastic due to the long lead times that exist in gold mining, which explains why the rally in the gold price since 2001 has still not engendered an increase in production levels. Meanwhile, demand has shown sustained growth, due at least in part to rising income levels in gold's key markets. This has created the foundation for the most positive outlook the precious metal has known for a quarter of a century.

Current Methods of investing in Gold

Currently, one can invest in Gold in India by the following modes:

1. Buying Jewellery, coins & bars from a Jeweller
2. Buying coins or bars from Banks
3. Buying Gold ETFs

Let's observe how the three compare on different parameters cited below:

Criteria	Physical (From Jeweller)	Physical (From Bank)	Gold ETFs
Availability of Standard Pricing	No; may differ from jeweller to jeweller	No; may differ from bank to bank	Yes; linked to International (as per the regulatory norm*) prices
Premium paid over gold price	High (making charges and fat margins)	High (coin design / denomination and fat margins)	Low - only brokerage charges for trading account
Risk of purity of Gold	High	Low	Virtually no risk
Storage Requirements	High, as it is in physical form; locker or safe	High, as it is in physical form; locker or safe	Low; for the investor, it is stored in a demat account
Convenience	Low; Physical movement and transfer is involved	Low; Physical movement and transfer is involved	High; the assets are held in a demat account
Security of the asset	Investor is responsible	Investor is responsible	ETF manager takes care of this
Resale Value	At a high discount; making charges are deducted again	As per current regulations, banks can't buy back gold	Easily traded on the listed exchange at a value close to the prevailing price of gold. Only brokerage to be deducted
Wealth Tax	Yes	Yes	No
Long Term Capital Gains Tax	If held for more than 3 Years	If held for more than 3 Years	If held for more than 1 year

	*as per the regulatory norms <i>The above information is provided for general information purposes only. For individual nature of tax implications, investors are advised to refer to his/her tax consultant.</i> What is evident from the above is that there is a huge retail investment demand for Gold in India. However, investors so far have not preferred Gold ETF, despite it being the most convenient and cost efficient form of gold investment. This is primarily because 1. ETF is relatively a new concept in India. Retail investors have hardly started understanding Mutual Funds after almost 2 decades of existence. 2. There is no advisory available therefore only well informed investors invest through this route. 3. Investors cannot avail of systematic investment plan which could let them small amounts every month in a disciplined way & benefit from cost averaging. 4. Investors without demat account can't participate. This further restricts the potential investor base for Gold ETF. 5. Less than 1% people in India have Demat account. The precondition for Demat restricts the addressable market. Solution – Aditya Birla Sun Life Gold Fund, a Fund of Funds scheme While keeping all the above benefits of Gold ETFs intact, the Fund will be able to offer the following additional benefits to its investors. • Ease of investing/Liquidity: Since investor deals directly with the fund house, investor can avail of the benefit of primary liquidity at applicable NAV, rather than depending on the secondary market liquidity at market price in case of ETFs. Given the size and liquidity for Gold ETFs in India, a Fund investing in Gold ETF can help reduce the liquidity risk substantially. • Facility of Systematic Investment Plan (SIP): By opting for Systematic Investment Plan (SIP), as a facility, investors can invest small amounts of money at the prevailing NAV in Aditya Birla Sun Life Gold Fund on a regular basis. With SIP, investors can avail of several benefits as explained below: – Discipline in investment: Investing through an SIP helps investors to develop a discipline in investment, since investor will be actively planning to set aside that much money at regular intervals. – Rupee cost averaging: The advantage of investing small amounts regularly over a long period is that the investor can ride out the ups and downs of the market. Here's how: since investment is made on regular basis, regardless of the market, investor may be able to get a better overall price for investment, and therefore, better returns. This is the rupee cost averaging i.e. buying fewer units during rising markets and more units during falling markets, thereby reducing the average cost per unit. – The Power of compounding: Setting aside a small amount every month can, over time, add up to quite a large sum, thanks to the power of compounding. • Availability of Special Products/facilities: Investor may avail, add on, facilities like Systematic Transfer Plan/ Systematic Withdrawal Plan / Systematic Investment Plan as may be made available under Aditya Birla Sun Life Gold Fund from time to time etc. • Demat account is not a pre-requisite for investment in Aditya Birla Sun Life Gold Fund, thereby enhancing the addressable market. • Ease of understanding the Scheme offering: Investors relate much faster with the Mutual Funds than ETFs. Hence the understanding and acceptability of this mode of gold-investing could be much greater. For example, NAV is represented in rupee terms rather than in grams. This makes it more intuitive as a mode of financial investment to investors. • Cost Effective: Investing in gold through the Aditya Birla Sun Life Gold Fund through physical application under 'Direct mode' enables investor invest in a low cost manner as the investor does not have to incur the following charges applicable for investing through the dematerialized mode.

In cases where unit holder uses a pre-printed transaction slip/application form where details in the 'ARN No' or 'Broker Code' column is already printed, unit holder should cancel the ARN No/ Broker Code, write 'DIRECT' in the said column. **Also, in case ARN No/ Broker Code is mentioned in the application form, but "Direct Plan" is indicated, the ARN No/ Broker Code will be ignored and the application will be processed under Direct Plan, subject to it being complete in all other aspects. Further, where application is received for Regular Plan without Distributor code or "Direct" mentioned in the ARN Column, the application will be processed under Direct Plan.**
