		SEBI, for the purpose of hedging and portfolio balancing and other uses as may be permitted under SEBI Regulations.	
3.	Overseas Securities	Under normal circumstances scheme shall not have an exposure of more than 25% of its net assets in foreign securities and ADR/GDR of India companies.	Para 12.19 of SEBI Master Circular .
4.	Debt instruments with special features	The Scheme will not invest in debt instruments with special features	N.A.

The Scheme is a growth scheme and aims primarily at capital appreciation. Given the expectation of substantial growth of the Indian economy (and hence, for Indian capital markets as well), normally at least 70% of the funds will be invested in equities or related instruments. The balance would be invested in debt and money market instruments, encompassing both short-term and long-term considerations. In a situation of extreme volatility in equity markets, the equity allocation may be reduced below 70%, in favour of debt instruments, money market instruments or cash. Short-term debt considerations for this open-end scheme include maintaining an adequate float to meet anticipated levels of redemptions, expenses, and other liquidity needs. A portion of funds may also be kept in cash or cash equivalents. Investments will be in listed securities from all Indian Stock Exchanges including the National Stock Exchange. Investments may also be made in listed or to be listed transferable securities. The securities would cover secondary market purchases, Initial Public Offers (IPOs), other public offers, placements, right offers, negotiated deals, etc. Investment policies of the Scheme shall reflect restrictions for mutual fund investments established by SEBI. In addition, certain investment parameters (such as limits on portfolio exposure to sectors, industries, business houses, etc.) may be adopted internally by ABSLAMC, and amended from time to time, to ensure appropriate diversification of the Scheme. AMC with a view to protecting the interests of the investors, may increase exposure in foreign securities as deemed fit from time to time

Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. SEBI vide letter dated November 3, 2021, has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities.

In line with para 12.24 of SEBI Master Circular on Mutual Funds, the cumulative gross exposure to equity, equity related instruments, Fixed Income Securities, money market instruments and such other securities/assets as may be permitted by the Board from time to time subject to regulatory approvals, if any should not exceed 100% of the net assets of the Scheme.

Portfolio Rebalancing

Rebalancing due to Short Term Defensive Consideration

Aditya Birla Sun Life Large & Mid Cap Fund

	Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations as per para 1.14.1.2 of SEBI Master Circular on Mutual Funds, and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation. <u>Rebalancing due to Passive Breach:</u> Further, as per para 2.9 of SEBI Master Circular on Mutual Funds, as may be amended from time to time, in the event of deviation from passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in para 2.9 of SEBI Master Circular on Mutual Funds .
Investment Strategy	Stock Selection Strategy: The investment emphasis of the Scheme would be on identifying companies with sound corporate managements and prospects of good future growth. Past performance will also be a major consideration. Essentially, the focus would be on long-term fundamentally driven values. However, short-term opportunities would also be seized, provided they are supported by underlying values. Derivatives The Scheme may have prudent exposure to Futures & Options (F&O) to capture opportunities arising out of market imperfection and to hedge the portfolio, whenever necessary. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. For detailed derivative strategies, please refer to SAI. Portfolio Turnover The scheme has no explicit constraints either to maintain or limit the portfolio turnover. Portfolio turnover will depend upon the circumstances prevalent at any time and would also depend on the extent of volatility in the market and inflows/outflows in the scheme. The Fund Manager will however endeavour to maintain a low portfolio turnover rate. A higher churning of the portfolio could attract high transactions of the nature of brokerage, custody charges etc.
Risk Profile of the Scheme	Mutual Fund Units involve investment risks including the possible loss of principal. Please read the Scheme Information Memorandum (SID) carefully
