Section I – INTRODUCTION

A. RISK FACTORS

STANDARD RISK FACTORS

- Mutual Funds and securities investments are subject to market risks and there can be no assurance or guarantee that the objectives of the Scheme will be achieved.
- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down depending on the various factors and forces affecting capital markets and money markets.
- Past performance of the Sponsor / AMC / Mutual Fund does not guarantee future performance of the Scheme and may not necessarily provide a basis of comparison with other investments.
- Aditya Birla Sun Life Nifty Next 50 ETF is the name of the Scheme and does not, in any manner, indicate either the quality of the Scheme or its future prospects and returns.
- The Sponsors are not responsible or liable for any loss resulting from the operation of the Schemes beyond the initial contribution of ₹ 1,00,000 made by it towards setting up the Fund.
- The present scheme is not a guaranteed or assured return scheme.

SCHEME SPECIFIC RISK FACTORS

Some of the scheme specific risk factors are included as below but are not limited to the following:

- **Liquidity Risk:** Trading in units of the scheme on the Exchange may be halted because of market conditions or for reasons that in view of the Exchange authorities or SEBI, trading in units of the scheme is not advisable. In addition, trading in units is subject to trading halts caused by extraordinary market volatility and pursuant to Stock Exchange(s) and SEBI "circuit filter" rules as applicable from time to time. There can be no assurance that the requirements of the exchange/s necessary to maintain the listing of units of the scheme will continue to be met or will remain unchanged.

- **Regulatory Risk:** Any changes in trading regulations by the stock exchange (s) or SEBI may affect the ability of Authorised Participant/ Large Investor to arbitrage resulting into wider premium/ discount to NAV.
- **Passive Management of Investments:** Scheme shall follow a passive investment strategy and shall provide exposure to constituents of the underlying index with an aim to track its performance and yield as closely as possible. The scheme's performance may be affected by the general price decline in the stock markets relating to the underlying Index. The scheme shall invest in constituents of the underlying index regardless of their investment merit. The scheme does not aim to take any defensive position in case of falling markets nor shall the scheme attempt to make individual stock selection. ETF being an passive management tool does not carry risk of active fund management. An actively managed mutual fund manager, on the other hand, can tailor portfolio holdings which are beyond the mandate of an ETF. ETFs are passively managed and hence the risk associated with the particular ETF corresponds closely to the risk of the underlying asset subclass the scheme is tracking.
- **Active Market:** Although the scheme is proposed to be listed on exchanges, there can be no assurance that an active secondary market will be developed or maintained. The AMC and the Trustees will not be liable for delay in trading of Units on Stock Exchange due to the occurrence of any event beyond their control. For an investor in less than creation unit size, exchange quotes may not be always available.
- **Tracking Error:** The Fund Manager may not be able to invest the entire corpus in the same proportion as in the underlying index due to various factors such as fees, expenses of the scheme, corporate action, cash balance, changes in underlying index and regulatory policies which may affect the AMC's/schemes ability to achieve close correlation with the underlying index. Tracking error may be accounted by the various reasons which includes expenses, cash balance to meet redemptions, dividend payout, time to reallocate the portfolio subsequent to changes in the underlying index etc. ABSLAMC will endeavor to keep the tracking error as low as possible.

Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the scheme. Tracking Error may arise including but not limited to the following reasons: -

- a. Expenditure incurred by the fund.
- b. The holding of a cash position and accrued income prior to distribution of income and payment of accrued expenses. The fund may not be invested at all times as it may keep a portion of the funds in cash to meet redemptions or for corporate actions.
- c. Securities trading may halt temporarily due to circuit filters.
- d. Corporate actions such as debenture or warrant conversion, rights, merger, change in constituents etc.
- e. Rounding off of quantity of shares in underlying index.
- f. Dividend payout.
- g. Disinvestments to meet redemptions, recurring expenses, dividend payouts etc.
- h. Execution of large buy / sell orders
- i. Transaction cost (including taxes and insurance premium) and recurring expenses
- j. Realisation of Unit holders' funds

It will be the endeavor of the fund manager to keep the tracking error as low as possible.

There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Index.

- **Redemption Risk:** Investors may note that even though this is an open ended scheme, the Scheme would repurchase units in creation unit size only. Thus, if the unit holding is less than the creation unit size then it can be sold only through the secondary market on the exchange where the units are listed, subject to rules and regulations of the Stock Exchange. The AMC will appoint Authorised Participant(s) to provide liquidity in secondary market on an ongoing basis. The Authorised Participant(s) would offer daily two-way quote in the market.
- The market price of the ETF unit like any other listed security is largely dependent on two factors viz. the intrinsic value of the unit (or NAV) and demand and supply of the units in the market. Sizeable demand or supply of the units in exchange may lead to market price of the units to quote at premium or discount to NAV. And hence the units of the scheme may trade above or below the NAV. However given that the investors can transact with AMC directly beyond the creation unit size of the scheme there should not be a significant variation (large premium or discount) and it may not sustain due to the arbitrage opportunity available.
- The index reflects the prices of securities at a point in time, which is the price at close of business day on National Stock Exchange of India Limited (NSE) and BSE Limited (BSE). The scheme, however, may trade these securities at different points in time during the trading session and therefore the prices at which the scheme trades may not be identical to the closing price of each scrip on that day on the NSE/BSE. In addition, the scheme may opt to trade the same securities on different exchanges due to price or liquidity factors, which may also result in traded prices being at variance from NSE/BSE closing prices.

- The performance of the index will have a direct bearing on the performance of the scheme. Hence, any composition change made by the index service provider in terms of weightage or stocks selection will have an impact on the scheme.
- The scheme may not be able to acquire or sell the desired number of securities due to conditions prevailing in the securities market, such as, but not restricted to circuit filters in the securities, liquidity and volatility in security prices.
- The units of the scheme will be compulsorily issued in dematerialised form through depositories. The records of the depository are final with respect to the number of Units available to the credit of Unit holder. Settlement of trades, repurchase of Units by the Mutual Fund will depend upon the confirmations to be received from depository (ies) on which the Mutual Fund has no control. Further, Investors may note that buying and selling units on stock exchange requires the investor to engage the services of a broker and are subject to payment of margins as required by the stock exchange/ broker, payment of brokerage, securities transactions tax and such other costs.

Risk specific to investing in companies forming part of Nifty Next 50 Index:

The Scheme will be a passively managed by providing exposure to Nifty Next 50 Index and tracking its performance and yield, before expenses as closely as possible. The scheme performance may be affected by a general decline in the Indian markets relating to its underlying Index. The scheme invests in the underlying Index regardless of its investment merit.

Risks associated with investment in Equity and Equity related instruments:

- Equity and Equity related securities by nature are volatile and prone to price fluctuations on a daily basis due to both macro and micro factors.
- The NAVs of schemes investing in equity will fluctuate as the daily prices of the individual securities in which they invest fluctuate and the units when redeemed may be worth more or less than their original cost.
- The value of the Scheme's investments, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or policies of any appropriate authority and other political and economic developments and closure of stock exchanges which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the units of the Scheme may fluctuate and can go up or down.
- In respect of investments in equity and equity-related instruments, there may be risks associated with trading volumes, settlement periods and transfer procedures that may restrict liquidity of investments in equity and equity-related securities. In the event of inordinately large number of redemptions or of a restructuring of the schemes' investment portfolio, there may be delays in the redemption of units.
- Within the regulatory limits, the Fund Manager may choose to invest in unlisted securities that offer attractive yields. Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. This may however increase the risk of the portfolio. The liquidity and valuation of the schemes' investments due to their holdings of unlisted securities may be affected if they have to be sold prior to their target date of disinvestments.
- Investment made in unlisted equity or equity-related securities may only be realizable upon listing of these securities. Settlement problems could cause the Scheme to miss certain investment opportunities.
- Investors may note that Fund Manager's investment decisions may not always be profitable, as actual market movements may be at variance with anticipated trends.
- Though the constituent stocks of most indexes are typically liquid, liquidity differs across stocks. Due to the heterogeneity in liquidity in the capital market segment, trades on this segment may not get implemented instantly.

Risk Factors associated with investments in Fixed Income Securities:

The Scheme intends to invest not less than 95% of its corpus in the securities representing Nifty Next 50 Index. As this Scheme endeavors to earn returns that closely correspond to the total returns represented by Nifty Next 50 Index, the Scheme will have insignificant cash or debt/ market investments. Therefore, the Scheme is not significantly susceptible to risks associated with debt/ money markets.

- **Price-Risk or Interest-Rate Risk:** Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.

- **Credit Risk:** In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in Government securities, there is no credit risk to that extent.
- **Liquidity or Marketability Risk:** This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today's characteristic of the Indian fixed income market.
- **Reinvestment Risk:** Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.
- **Pre-payment Risk:** Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.
- Different types of securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively more risky than bonds, which are AAA rated.
- The above are some of the common risks associated with investments in fixed income and money market securities. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis.

Risk Factors associated with investments in Derivatives:

As and when any Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives that investors should understand. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that loss may be sustained by the portfolio as a result of the failure of another party (usually referred as the "counter party") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value. Besides the price of the underlying asset, the volatility, tenor and interest rates affect the pricing of derivatives. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

- Derivative trades involve execution risks, whereby the rates seen on the screen may not be the rate at which ultimate execution takes place.
- The options buyer's risk is limited to the premium paid, while the risk of an options writer is unlimited. However, the gains of an options writer are limited to the premiums earned.
- The writer of a call option bears a risk of loss if the value of the underlying asset increases above the exercise price.
- Investments in index futures face the same risk as the investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks.
- Risk of loss in trading futures contracts can be substantial, because of the low margin deposits required, the extremely high degree of leverage involved in futures pricing and potential high volatility of the futures markets.
- The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

Risk Factors associated with Listing of units:

- Listing of units of the scheme on stock exchange(s) does not necessarily guarantee liquidity and there can be no assurance that an active secondary market for the units will develop or be maintained.
- Trading in the units of the Scheme on the Exchange may be halted because of market conditions, including any halt in the operations of Depository Participants or for reasons that in view of the Exchange Authorities or SEBI, trading in the units is suspended and / or restricted. In addition, trading in units is subject to trading

halts caused by extraordinary market volatility and pursuant to stock exchange rules of 'circuit filter'. There can be no assurance that the requirements of Stock Exchange necessary to maintain the listing of units of scheme will continue to be met or will remain unchanged

- Further, the Scheme being a close ended scheme and listed on stock exchange, as per SEBI guidelines, no redemption / repurchase / switches of units will be allowed prior to maturity of the scheme. The investors wishing to redeem their units may do so through stock exchange at prevailing listed price on such Stock Exchange;
- The Units of the scheme may trade above or below their face value / NAV. The NAV of the scheme will fluctuate with changes in the market value of schemes holdings. The trading prices of units of the scheme will fluctuate in accordance with changes in their NAV as well as market supply and demand which may even lead the units to quote at significant premium or discount to NAV.
- There is a possibility that the Unitholders find it difficult or uneconomical to liquidate their investments at any particular time. As a result, investors in the scheme must be prepared to hold the units until the maturity under the Scheme.
- Regulatory Risk: Any changes in trading regulations by the Stock Exchange or SEBI, inter alia, may also result in wider premium/ discount to the NAV of the Scheme. Although the Units are proposed to be listed on the Stock Exchange, the AMC and the Trustees will not be liable for any loss suffered by investors due to delay in listing of units of the Scheme on the Stock Exchange or due to connectivity problems with the depositories due to the occurrence of any event beyond their control.
- As the units of the scheme may be held in electronic (Demat) mode through depositories, the records of the depository shall be final with respect to the number of units available to the credit of unitholder. Settlement of trades, redemption/dividend payment, in lieu of such units held in electronic (demat) form, by the Mutual Fund will depend upon the confirmations to be received from depository(ies) on which the Mutual Fund has no control.

B. RISK CONTROL STRATEGIES

The Scheme is passively managed and linked to the Nifty Next 50 Index, which is well-diversified portfolio across sectors with relatively less concentrated exposure to any one sector. The Mutual Fund has built adequate internal risk management controls and safeguards including ongoing oversight to ensure that the Scheme, which is passively managed is in line with the defined investment objectives as per the Scheme Information Document and in compliance with SEBI (MF) Regulations. While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

TRACKING ERROR

While the objective of the Scheme is to closely track the index, the performance may not be commensurate with the performance of the underlying Index on any given day or over any given period. Such variations are commonly referred to as the tracking error.

Tracking errors are inherent in any index fund and such errors may cause the scheme to generate returns which are not in line with the performance of the Nifty Next 50 Index or one or more securities covered by / included in the Nifty Next 50 Index and may arise from a variety of factors including but not limited to:

- Any delay experienced in the purchase or sale of shares due to illiquidity of the market, settlement and realisation of sale proceeds and / or the registration of any securities transferred and / or any delays in receiving cash dividends and resulting delays in reinvesting them.
- The Nifty Next 50 Index reflects the prices of securities at close of business hours. However, the Fund may buy or sell the securities at different points of time during the trading session at the then prevailing prices which may not correspond to the closing prices on the NSE.
- The constituent stocks of the underlying index may be revised periodically by either excluding or including new securities listing. In such an event, the Fund will endeavour to reallocate its portfolio but the available investment/ disinvestment opportunities may not permit precise mirroring of the underlying index in a short period of time.
- The charging of expenses to the scheme including investment management fees and custodian fees.
- The potential for trades to fail, which may result the Schemes not having acquired shares at a price necessary to track the index.
- The holding of a cash position and accrued income prior to distribution and accrued expenses.
- Disinvestments to meet redemptions, recurring expenses, etc.

AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal circumstances, such tracking errors are not expected to exceed 2% per annum. However, this may vary due to the reasons mentioned above or any other reasons that

may arise and particularly when the markets are very volatile. However, there can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Underlying Index.

C. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

As per SEBI Circular SEBI/IMD/CIR No. 10/22701/03 dated December 12, 2003, the provisions with respect to minimum number of investors and maximum holding for single investor are not applicable to an exchange traded fund and accordingly, these provisions shall not be applicable to Aditya Birla Sun Life Nifty Next 50 ETF.

D. SPECIAL CONSIDERATIONS

- Changes in Government Policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Scheme. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each unitholder is advised to consult his / her own professional tax advisor.
- The NAV of the scheme may be affected by changes in the general market conditions, factors and forces affecting capital market in particular, level of interest rates, various market related factors, settlement periods and transfer procedures.
- Mutual Funds are vehicles of securities investments that are subject to market and other risks and there can be no guarantee against loss resulting from investing in the Scheme. The various factors that impact the value of the Scheme' investments include, but are not restricted to, fluctuations in the bond markets, fluctuations in interest rates, prevailing political and economic environment, changes in government policy, factors specific to the issuer of the securities, tax laws, liquidity of the underlying instruments, settlement periods, trading volumes etc.
- The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise, in the event that the Scheme is wound up for the reasons and in the manner provided in Statement of Additional Information (SAI) / Scheme Information Document.
- Redemptions due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustees, the Mutual Fund, the AMC, their directors or their employees shall not be liable for any tax consequences that may arise.
- Growth, appreciation, dividend, bonus, income, etc if any, referred to in this Document are subject to the tax laws and other fiscal enactments as they exist from time to time.
- Investors should study this Scheme Information Document carefully in its entirety and should not construe the contents hereof as advise relating to legal, taxation, investment or any other matters. Investors may, if they wish, consult their legal, tax, investment and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, before making a decision to invest/redeem Units.
- The AMC and its Registrar reserve the right to disclose/share investors' personal information with the following third parties:
 - Registrar, Banks and / or authorised external third parties who are involved in transaction processing, dispatches, etc., of investors' investment in the Scheme;
 - Distributors or Sub-brokers through whom applications of investors are received for the Scheme; or
 - Any other organisations for compliance with any legal or regulatory requirements or to verify the identity of investors for complying with anti-money laundering requirements. Account statements or financial information pertaining to the investor, if it is to be sent over the internet to the Unitholder, distributors or any other entity as indicated above, will be sent only through a secure means and /or through encrypted electronic mail.
- The Mutual Fund may disclose details of the investor's account and transactions there under to those intermediaries whose stamp appears on the application form. In addition, the Mutual Fund may disclose such details to the bankers / its agents, as may be necessary for the purpose of effecting payments to the investor. Further, the Mutual Fund may disclose details of the investor's account and transactions thereunder to any Regulatory/Statutory entities as per the provisions of law.
- The Product labeling mandated by SEBI is to provide investors an easy understanding of the risk involved in the kind of product / scheme they are investing to meet their financial goals. The Riskometer categorizes the schemes of Fund under different levels of risk based on the respective scheme's investment objective, asset allocation pattern, investment strategy and typical investment time horizon of investors. Therefore, the schemes falling under the same level of risk in the Riskometer may not be similar in nature. Investors are advised before investing to evaluate a scheme not only on the basis of the Product labeling (including the Riskometer) but also on other quantitative and qualitative factors such as performance, portfolio, fund

- managers, asset manager, etc. and shall also consult their financial advisers, if they are unsure about the suitability of the scheme before investing. The AMC shall monitor and review the Riskometer on annual basis and in view of this, current position of Riskometer as laid out for the Scheme is subject to change.
- Aditya Birla Sun Life Nifty Next 50 ETF (the Scheme) is not sponsored, endorsed, sold or promoted by India Index Services & Products Limited ("IISL"). IISL does not make any representation or warranty, express or implied, to the owners of the Scheme or any member of the public regarding the advisability of investing in securities generally or in the Scheme particularly or the ability of the Nifty Next 50 to track general stock market performance in India. The relationship of IISL to the Issuer is only in respect of the licensing of the Indices and certain trademarks and trade names associated with such Indices which is determined, composed and calculated by IISL without regard to the Issuer or the Scheme. Section II – INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

Aditya Birla Sun Life Nifty Next 50 ETF is an Open ended Scheme tracking Nifty Next 50 index.

B. INVESTMENT OBJECTIVE

The investment objective of the scheme is to provide returns that closely correspond to the total returns of securities as represented by Nifty Next 50, subject to tracking errors. **The Scheme does not guarantee/indicate any returns. There can be no assurance that the schemes' objectives will be achieved.**

C. ASSET ALLOCATION AND INVESTMENT PATTERN

Under normal circumstances, the asset allocation of the Scheme will be as follows:

Instrument	Normal Allocation (% of total Assets)	Risk Profile
Equities and Equity Linked instruments covered by the underlying Index	95% to 100%	Medium to High
Cash/Money Market Instruments* and Units of Liquid Mutual Fund	0% to 5%	Low

*Money Market Instruments include commercial papers, commercial bills, treasury bills, call or notice money, certificate of deposit, Tri-party Repo and any other like instruments as specified by the Reserve Bank of India from time to time with maturity of upto 91 days and Government securities having an unexpired maturity upto one year,. Exposure to equity derivatives of the index itself or its constituent stocks may be undertaken for hedging and portfolio rebalancing when equity shares are unavailable, insufficient or in case of corporate actions for a temporary period. Exposure to such derivatives will be restricted to 5% of net assets of the scheme.

The net assets of the scheme will be invested predominantly in stocks constituting the Nifty Next 50 Index. This would be done by investing in all the stocks comprising the Nifty Next 50 Index in the same weightage that they represent in the Nifty Next 50 Index. The scheme may take exposure through derivative transactions in the manner and upto the limit as may be specified by SEBI from time to time. A small portion of the net assets will be invested in money market instruments permitted by SEBI / RBI including call money market or in alternative investment for the call money market as may be provided by the RBI, to meet the liquidity requirements of the scheme. The cumulative gross exposure through equity, debt and derivative positions will not exceed 100% of the net assets of the scheme.

The scheme will not invest in Securitized Debt and repo / reverse repo in corporate debt securities. Credit Default Swaps and ADR/ GDR/ Foreign Securities. The scheme shall not engage in securities lending / short selling.

Change in Asset Allocation

The Scheme, in general, will hold all the securities that comprise of underline Index in the same proportion as the index. Expectation is that, over a period of time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low.

The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal circumstances, such tracking errors are not expected to exceed 2% per annum. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Underlying Index.

If the investments fall outside the asset allocation range given above, the portfolio of the scheme will be rebalanced within a period of one week. The funds raised under the Scheme shall be invested only in securities as permitted by SEBI (Mutual Funds) Regulations, 1996.

Provided further and subject to the above, any change in the asset allocation affecting the investment profile of the Scheme shall be effected only in accordance with the provisions of sub regulation (15A) of Regulation 18 of the SEBI (MF) Regulations.

D. INVESTMENT BY SCHEME

The Scheme would invest in stocks comprising the underlying index and endeavour to track the benchmark index. The Scheme may also invest in money market instruments, in compliance with Regulations to meet liquidity requirements.

Subject to the SEBI (MF) Regulations, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities:

1. The Scheme will invest in Securities which are constituents of the Nifty Next 50 Index.
2. Money market instruments includes commercial papers, commercial bills, treasury bills, Government securities having an unexpired maturity upto one year, call or notice money, certificate of deposit, Tri-party Repo and any other like instruments as specified by the Reserve Bank of India from time to time.
3. Certificate of Deposits (CDs).
4. Commercial Paper (CPs).
5. Any other money market instruments as may be permitted by RBI/SEBI from time to time.
6. Derivative instruments like Stock Options, Index Options and such other derivative instruments as permitted by SEBI/RBI.

The securities mentioned above could be listed or unlisted, secured or unsecured, and of varying maturity, as enabled under SEBI Regulations/ circulars/ RBI. The securities may be acquired through Initial Public Offerings (IPOs), secondary market operations, private placement, rights offers or negotiated deals

The Scheme will track Nifty Next 50 Index and is a passively managed scheme. The investment decisions will be determined as per the Nifty Next 50 Index. In case of any change in the index due to corporate actions or change in the constituents of Nifty Next 50 Index, relevant investment decisions will be determined considering the composition of the Nifty Next 50 Index.

E. INVESTMENT STRATEGY

The Scheme would invest not less than 95% of its corpus in stocks comprising the underlying index and endeavour to track the benchmark index while minimizing the tracking error and therefore would follow a passive investment strategy. The scheme would aim to maintain least amount of cash & will also try & avoid investment in money market securities. This would only be for the purpose of redemption requirements

Portfolio Turnover

The Scheme shall be a passively managed, Index Linked, open ended, exchange traded fund. It is therefore expected that there would be a number of subscriptions and redemptions on a daily basis through Authorised Participants and Large Investors. Generally, turnover will depend upon the extent of purchase and redemption of units and the need to rebalance the portfolio on account of change in the composition, if any, and corporate actions of securities included in Index.

The scheme has no explicit constraints either to maintain or limit the portfolio turnover. It would be also difficult to have any reasonable accuracy in estimating the likely portfolio turnover. However, the fund manager intends to avoid any transactions in the portfolio unless there is any subscription, redemption or change in the underlying Index. Thus, given the structure and objective of the portfolio, the portfolio turnover is likely to be low.

Trading in Derivatives

SEBI has permitted Mutual Funds to participate in derivatives trading subject to observance of guidelines issued by it in this behalf. Accordingly, Mutual Funds may use various derivative products from time to time, as would be available and permitted by SEBI, in an attempt to protect the value of the portfolio and enhance Unitholders' interest.

The scheme intends to use derivative instruments stock options, stock futures, index options, index futures or other equity derivative instruments as may be introduced from time to time.

The Mutual Fund would comply with the provisions of SEBI Circular Ref. No. DNP/Cir-29/2005 dated September 14, 2005 and SEBI circular Ref. No. Cir/IMD/DF/11/ 2010 dated August 18, 2010 and such other amendments issued by SEBI from time to time while trading in derivatives.

Presently, the position limits for trading in derivatives by Mutual Fund specified by SEBI vide its circular Ref. No. DNP/Cir-29/2005 dated September 14, 2005, circular Ref. No. DNP/Cir-30/2006, dated January 20, 2006, September 22, 2006 and circular SEBI/HO/MRD/DP/CIR/P/2016/143 dated December 27, 2016 are as follows:

Position Limits

The position limits for Mutual Funds and its schemes shall be under:

(i) Position limit for Mutual Funds in index options contracts

- (a) The Mutual Fund position limit in all index options contracts on a particular underlying index shall be Rs 500 crore or 15% of the total open interest of the market in index options, whichever is higher, per Stock Exchange.
- (b) This limit would be applicable on open positions in all options contracts on a particular underlying index.

(ii) Position limit for Mutual Funds in index futures contracts

- (a) The Mutual Fund position limit in all index futures contracts on a particular underlying index shall be Rs 500 crore or 15% of the total open interest of the market in index futures, whichever is higher, per Stock Exchange.
- (b) This limit would be applicable on open positions in all futures contracts on a particular underlying index.

(iii) Additional position limit for hedging

- (a) In addition to the position limits at point (i) and (ii) above, Mutual Funds may take exposure in equity index derivatives subject to the following limits:
- (b) Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.
- (c) Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.

(iv) Position limit for Mutual Funds for stock based derivative contracts

- (a) The combined futures and options position limit shall be 20% of the applicable Market Wide Position Limit (MWPL).
- (b) The MWPL and client level position limits however would remain the same as prescribed.

(v) Position limit for each scheme of a Mutual Fund

The scheme-wise position limit requirements shall be:

- (a) For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a mutual fund shall not exceed the higher of:
 - (i) 1% of the free float market capitalization (in terms of number of shares). Or
 - (ii) 5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).
- (b) This position limits shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.
- (c) For index based contracts, Mutual Funds shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

Exposure to Derivatives

Further, the exposure limits for trading in derivatives by Mutual Fund specified by SEBI vide its circular Ref. No. Cir/IMD/DF/11/2010 dated August 18, 2010, is as follows:

1. The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme.
2. Mutual Funds shall not write options or purchase instruments with embedded written options.
3. The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.
4. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
5. Exposure due to hedging positions may not be included in the above mentioned limits subject to the following
 - Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.

- Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1
 - Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
6. Mutual Funds may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme.
7. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point (1) above.
8. Definition of Exposure in case of derivatives positions
Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	Option Premium Paid * Lot Size * Number of Contracts.

Example of a derivatives transaction

Derivatives can be traded over the exchange or can be structured between two counter-parties. Those transacted over the exchange are called Exchange Traded derivatives whereas the other category is referred to as OTC (Over the Counter) derivatives. Some of the differences of these two derivative categories are as under:

Some of the differences of these two derivative categories are as under:

Exchange traded derivatives: These are quoted on the exchanges like any other traded asset class. The most common amongst these are the Index Futures, Index Options, Stock Futures and Options on individual equities / securities. The basic form of the futures contract is similar to that of the forward contract, a futures contract obligates its owner to purchase a specified asset at a specified exercise price on the contract maturity date. Futures are cash-settled and are traded only in organised exchanges. Exchange traded derivatives are standardised in terms of amount and delivery date. Standardisation and transparency generally ensures a liquid market together with narrower spreads. On the other hand, for delivery dates far in the future, there may be insufficient liquidity in the futures market whereas an OTC price may be available.

OTC derivatives: OTC derivatives require the two parties engaging in a derivatives transaction to come together through a process of negotiation. It is a derivative that is customised in terms of structure, amount, tenor, underlying assets, collateral etc.

The Scheme may use derivatives instruments such as Stock Index Futures, Options on indices or such other derivative instruments as may be introduced / permitted, from time to time. To illustrate, an example of a Stock Index Future is given below:

Index Futures

Benefits

- Investment in stock index futures can give exposure to the index without directly buying the individual stocks. Appreciation in index stocks can be effectively captured through investment in Stock Index Futures.
- The Fund can sell futures to hedge against market movements effectively without actually selling the stocks it holds.

The stock index futures are instruments designed to give exposure to the equity market indices. The Stock Exchange, Mumbai and the National Stock Exchange have started trading in index futures of 1, 2 and 3 month maturities. The pricing of an index future is the function of the underlying index and interest rates.

Illustration

Spot Index: 1070

1 month Nifty Future Price on day 1: 1075

Fund buys 100 lots

Each lot has a nominal value equivalent to 200 Units of the underlying index

Situation 1

Let us say that on the date of settlement, the future price = closing spot price = 1085

Profits for the Fund = $(1085 - 1075) \times 100 \text{ lots} \times 200 = ₹ 200,000$

Situation 2

Let us say that on the date of settlement, the future price = Closing spot price = 1070

Loss for the Fund = $(1070 - 1075) \times 100 \text{ lots} \times 200 = (₹ 100,000)$

The net impact for the Fund will be in terms of the difference between the closing price of the index and cost price (ignoring margins for the sake of simplicity). Thus, it is clear from the example that the profit or loss for the Fund will be the difference of the closing price (which can be higher or lower than the purchase price) and the purchase price. The risks associated with index futures are similar to the one with equity investments. Additional risks could be on account of illiquidity and hence mispricing of the future at the time of purchase.

Buying Options

Benefits of buying a call option

Buying a call option on a stock or index gives the owner the right, but not the obligation, to buy the underlying stock / index at the designated strike price. Here the downside risks are limited to the premium paid to purchase the option.

Illustration

If the Fund buys a 1 month call option on Hindustan Lever at a strike of ₹ 190, the current market price being say ₹ 191. The Fund will have to pay a premium of say ₹ 15 to buy this call. If the stock price goes below ₹ 190 during the tenure of the call, the Fund avoids the loss it would have incurred had it straightaway bought the stock instead of the call option. The Fund gives up the premium of ₹ 15 that has to be paid in order to protect the Fund from this probable downside. If the stock goes above ₹ 190, it can exercise its right and own Hindustan Lever at a cost price of ₹ 190, thereby participating in the upside of the stock.

Benefits of buying a put option

Buying a put option on a stock originally held by the buyer gives him / her the right, but not the obligation, to sell the underlying stock at the designated strike price. Here the downside risks are limited to the premium paid to purchase the option.

Illustration

If the Fund owns Hindustan Lever and also buys a three-month put option on Hindustan Lever at a strike of ₹ 190, the current market price being say ₹ 191. The Fund will have to pay a premium of say ₹ 12 to buy this put.

If the stock price goes below ₹ 190 during the tenure of the put, the Fund can still exercise the put and sell the stock at ₹ 190, avoiding therefore any downside on the stock below ₹ 190. The Fund gives up the fixed premium of ₹ 12 that has to be paid in order to protect the Fund from this probable downside. If the stock goes above ₹ 190, say to ₹ 220, it will not exercise its option.

The Fund will participate in the upside of the stock, since it can now sell the stock at the prevailing market price of ₹ 220.

The Scheme intends to participate in derivatives trading within the equity component of their portfolios. Some of the strategies involving derivatives that may be used by the Investment Manager, with an aim to protect capital and enhance returns include:

Strategy Number 1: Hedging against an anticipated rise in equity prices. The scheme has a corpus of ₹ 100 crores and has invested ₹ 65 crores in equity and still has a cash of ₹ 15 crores available to invest in the equity component. The Fund may buy index futures of a value of ₹ 15 crores. The scheme may reduce the exposure to the future contract by taking an offsetting position as investments are made in the equities the scheme wants to invest in. Here, if the market rises, the scheme gains by having invested in the index futures.

Aditya Birla Sun Life Nifty Next 50 ETF

Event	Gain/(Loss) from Derivatives position	Gain/(Loss) from Cash Market position	Overall Gain/(Loss) to Equity Component of Scheme
5% rise in equity price	$15 * 5\% = ₹0.75 \text{ crs}$	$65 * 5\% = ₹3.25 \text{ crs}$	₹ 4 Crores
5% fall in equity price	$15 * 5\% = ₹ (0.75) \text{ crs}$	$65 * 5\% = ₹ (3.25) \text{ crs}$	₹ (4) Crores

Strategy Number 2 Hedging against anticipated fall in equity prices. If the Fund has a negative view on the market and would not like to sell stocks, as the market might be weak, the scheme of the Fund can go short on index/stock futures. Later, the scheme can sell the stocks and unwind the future positions. A short position in the future would offset the long position in the underlying stocks and this can curtail potential loss in the portfolio. For instance: The scheme has a corpus of ₹100 crores and is 65% invested in equities. If the fund manager wishes to reduce the equity exposure to ₹ 30 crores, he would sell index/stock future contracts of ₹ 35 crores.

Event	Gain/(Loss) from Derivatives position	Gain/(Loss) from Cash Market position	Overall Gain/(Loss) to Scheme
5% fall in equity price	$35 * 5\% = ₹1.75 \text{ crs.}$	$65 * 5\% = ₹ (3.25) \text{ crs}$	₹ (1.5) Crores
5% rise in equity price	$35 * 5\% = ₹ (1.75) \text{ crs.}$	$65 * 5\% = ₹ 3.25 \text{ crs}$	₹ 1.5 Crores

Strategy Number 3: Using Index Futures to increase percentage investment in equities. This strategy will be used for the purpose of generating returns on idle cash, pending its investment in equities. The Scheme being open ended in nature upon conversion and maybe subject to daily inflows. There may be a time lag between the inflow of funds and their deployment in equities. If so desired, the AMC would be able to take immediate exposure to equities via index futures. The position in index futures may be reversed in a phased manner, as the funds are deployed in the equity markets.

The scheme has a corpus of ₹ 75 crore and there is an inflow of ₹ 5 crore in a day. The AMC may buy index futures contracts of a value of ₹ 5 crore. Later as the money is deployed in the underlying equities, the value of the index futures contracts can be suitably reduced.

Equity Allocation	Event	Equity Portfolio Gain/(Loss) (₹ in crore)	Derivative Gain / (Loss) (₹ in crore)	Total Portfolio Gain / (Loss) (₹ in crore)
₹ 50 Crore Equity exposure	10% rise in equity prices	5	Nil	5
₹ 50 Crore Equity exposure + ₹ 5 Crore long position index futures	10% rise in equity prices	5	0.5	5.5
₹ 50 Crore Equity exposure	10% fall in equity prices	(5)	Nil	(5)
₹ 50 Crore Equity exposure + ₹ 5 Crore long position index futures	10% fall in equity prices	(5)	(0.5)	(5.5)

RISKS

- The strategy of taking a long position in index futures increases the exposure to the market. The long position is positively correlated with the market. However, there is no assurance that the stocks in the portfolio and the index behave in the same manner and thus this strategy may not be provide gains perfectly aligned to the movement in the index.
- The long position will have as much loss as a gain in the underlying index. e.g. if the index appreciates by 10%, the future value rises by 10%. However, this is true only for futures contracts held till maturity. In the event that a futures contract is closed out before its expiry, the quoted price of the futures contract may be different from the gain / loss due to the movement of the underlying index. This is called the basis risk.
- While futures markets are typically more liquid than the underlying cash market, there can be no assurance that ready liquidity would exist at all points in time, for the Scheme to purchase or close out a specific futures contract.

Strategy Number 4: Using Index Futures to decrease percentage investment in equities.

Similarly, in the case of a pending outflow of funds the AMC, in order to reduce exposure in equities may enter into futures contracts to sell the Index at a future date. This position can be unwound over a period in time by simultaneously selling the equity shares from the investment portfolio of the Scheme. Since the price of the

Aditya Birla Sun Life Nifty Next 50 ETF

futures contracts is expected to be positively correlated with the index, the value of a short position will move in the direction opposite to the movement in the index. The strategy of taking a short position in the index future would reduce the market exposure, in line with the reduced net assets, in case of a significant redemption.

Example:

Assume a scheme has an equity exposure of ₹ 50 crore. If the Fund Manager wishes to reduce the equity exposure to ₹ 40 crore in a short time, he would sell index futures contracts of a value of ₹ 10 crore.

Portfolio	Event	Equity Portfolio Gain / (Loss) (₹ in Crore)	Derivative Gain / (Loss) (₹ in Crore)	Total Portfolio Gain / (Loss) (₹ in Crore)
₹ 50 Crore Equity exposure	10% fall in equity prices	(5)	Nil	(5)
₹ 50 Crore Equity exposure + ₹ 10 Crore short position index futures	10% fall in equity prices	(5)	1	(4)
₹ 50 Crore Equity exposure	10% rise in equity prices	5	Nil	5
₹ 50 Crore Equity exposure + ₹ 10 Crore short position index futures	10% rise in equity prices	5	(1)	4

RISKS

- The strategy of taking a short position in index futures reduces the market exposure. The short position is negatively correlated with the market. However, there is no assurance that the stocks in the portfolio and the index behave in the same manner and thus this strategy may not be a perfect hedge.
- The short position will have as much loss as a gain in the underlying index. e.g. if the index appreciates by 10%, the future value falls by 10%. However, this is true only for futures contracts held till maturity. In the event that a futures contract is closed out before its expiry, the quoted price of the futures contract may be different from the gain / loss due to the movement of the underlying index. This is called the basis risk.
- While futures markets are typically more liquid than the underlying cash market, there can be no assurance that ready liquidity would exist at all points in time, for the Scheme to purchase or close out a specific futures contract.

Strategy Number 5: Portfolio Protection Using Index Put

The purchase of an index put option gives the scheme the option of selling the index to the writer of the put at a predetermined level of the index, called the strike price. If the index falls below this level, the scheme benefits from the rise in the value of the put option.

Similarly, as a stock hedging strategy, the purchase of a put option on the underlying stock would give the scheme the option to sell the stock to the writer of the option at the predetermined strike price. This would lead to a capping of the loss in value of a stock.

Example:

Let us assume a scheme with a corpus of ₹ 75 crore. Let us also assume an index level of 1000. The scheme is invested 50 crore in equities. The scheme purchases a put option on the index with a strike price of ₹950 for an assumed cost of ₹ 50 lakhs.

The following table illustrates the portfolio returns:

% change in Index	Index Value	Equity Portfolio Value ₹ in crore (A)	Option Value ₹ in crore (B)	Cost of the Put Option ₹ in crore (C)	Portfolio Value ₹ in crore (A+B+C)	% Returns from portfolio
10	1100	55.00	0	(0.5)	54.50	9
5	1050	52.50	0	(0.5)	52.00	4
(5)	950	47.50	0	(0.5)	47.00	(6)
(10)	900	45.00	2.5	(0.5)	47.00	(6)
(15)	850	42.50	5	(0.5)	47.00	(6)

A similar put option can be purchased on any individual stock and the downside may be capped.

RISKS

- The table shows that the portfolio value will not fall below ₹ 47 crore, while the scheme benefits from any increase in stock prices. The table assumes perfect correlation between the equity portfolio and the index. However, this may not be the case. Therefore, the minimum portfolio value cannot be assured, but the loss is expected to be lower in a portfolio with a put option on the index, as compared to a normal portfolio.

- The put option would lead to a gain based on the difference between the strike price and the index level at expiration date, if positive. However, in case the option is reversed before the expiration date, the market price received on the sale of the option may be different from the price calculated.
- While options markets can be more liquid than the underlying cash market, there can be no assurance that ready liquidity would exist at all points in time, for the scheme to purchase or close out a specific options contract.
- In the case of purchase of a stock put, the strategy is a perfect hedge on the expiration date of the put option. On other days, there may be (temporary) imperfect correlation between the share price and the put option, which can potentially take the stock value below the minimum under the hedge.

Investment Process and Recording of Investment Decisions

The AMC through its various policies and procedures defines prudential and concentration limits to de-risk the portfolio. The investment management team is allowed full discretion to make sale and purchase decisions within the limits established. The responsibility for the investment decisions is with the portfolio managers and the CEO of the AMC does not have any role in the day to day decision making process. All the decisions will be recorded alongwith their justifications. The AMC and Trustee will review the performance of the scheme in their Board meetings. The performance would be compared with the performance of the benchmark index and with peer group in the industry.

Investment in other Schemes

The Scheme may, in line with its investment objectives, invest in another Scheme under the management of ABSLAMC or of any other Asset Management Company. The aggregate Interscheme investment by Aditya Birla Sun Life Mutual Fund under all its Schemes, other than fund of fund schemes, taken together, in another Scheme managed by ABSLAMC or in any other Scheme of any other Mutual Fund, shall not be more than 5% of the net asset value of the Fund. No fee shall be charged by the AMC on any investment in another Scheme under the management of ABSLAMC or of any other Asset Management Company.

Investments in the Scheme by the AMC, Sponsor or their affiliates

Under Regulation 28(4) of the SEBI (MF) Regulations, 1996 inserted by Gazette Notification No. LADNRO/Gn/2014-15/01 dated May 06, 2014, the AMC shall invest in the Scheme and such investment will not be redeemed unless the Scheme is wound up.

In addition to investments as mandated under Regulation 28(4) of the Regulations as mentioned above, the AMC, may invest in the scheme during the continuous offer period subject to the SEBI (MF). As per the existing SEBI (MF) Regulations, the AMC will not charge investment management and advisory fee on the investment made by it in the scheme. The Sponsor, Trustee and their associates or affiliates may invest in the scheme on an ongoing basis subject to SEBI (MF) Regulations & circulars issued by SEBI and to the extent permitted by its Board of Directors from time to time.

Investment of Subscription Money

The AMC shall commence investment out of the NFO proceeds received in accordance with the investment objectives of the Scheme only on or after the closure of the NFO period. The Mutual Fund/ AMC can however deploy the NFO proceeds in Tri-party Repo before the closure of NFO period. However, AMCs shall not charge any investment management and advisory fees on funds deployed in Tri-party Repo during the NFO period. The appreciation received from investment in Tri-party Repo shall be passed on to investors.

Further, in case the minimum subscription amount is not garnered by the scheme during the NFO period, the interest earned upon investment of NFO proceeds in Tri-party Repo shall be returned to investors, in proportion of their investments, along-with the refund of the subscription amount.

Borrowing by the Mutual Fund

Under the SEBI (MF) Regulations, the Mutual Fund is allowed to borrow to meet the temporary liquidity requirements of its Scheme for the purpose of Redemption of Units or the payment of interest or dividend to the Unit holders. Further, as per the SEBI (MF) Regulations, the Mutual Fund shall not borrow more than 20% of the Net Assets of the scheme and the duration of such borrowing shall not exceed a period of six months. The Mutual Fund may raise such borrowings after approval by the Trustee from Sponsor or any of its Associate / Group Companies or Banks in India or any other entity at market related rates prevailing at the time and applicable to similar borrowings. The security for such borrowings, if required, will be as determined by the Trustee.

F. EXCHANGE TRADED FUND (ETF)

ETFs are innovative products that provide exposure to an index or a basket of securities that trade on the exchange like a single stock. ETFs have a number of advantages over traditional open-ended index funds as they can be bought and sold on the exchange at prices that are usually close to the actual intra-day NAV of the Scheme. ETFs are an innovation to traditional mutual funds as ETFs provide investors a fund that closely tracks the performance of an index with the ability to buy/sell on an intra-day basis. Unlike listed close ended funds, which trade at substantial premiums or more frequently at discounts to NAV, ETFs are structured in a manner which allows to create new units and redeem outstanding units directly with the fund, thereby ensuring that ETFs trade close to their actual NAVs.

ETFs are usually passively managed funds wherein subscription/redemption of units work on the concept of exchange with underlying securities. In other words, large investors/institutions can purchase units by depositing the underlying securities with the mutual fund/AMC and can redeem by receiving the underlying shares in exchange of units. Units can also be bought and sold directly on the exchange.

ETFs have all the benefits of indexing such as diversification, low cost and transparency. As ETFs are listed on the exchange, costs of distribution are much lower and the reach is wider. These savings in cost are passed on to the investors in the form of lower costs. Furthermore, exchange traded mechanism helps reduce minimal collection, disbursement and other processing charges. The structure of ETFs is such that it protects long-term investors from inflows and outflows of short-term investor. This is because the fund does not bear extra transaction cost when buying/selling due to frequent subscriptions and redemptions.

Tracking Error of ETFs is likely to be low as compared to a normal index fund. Due to the Creation/Redemption of units through the in-kind mechanism the mutual fund can keep lesser funds in cash. Also, time lag between buying/selling units and the underlying shares is much lower.

ETFs are highly flexible and can be used as a tool for gaining instant exposure to the equity markets, equitising cash or for arbitraging between the cash and futures market.

Benefits of ETFs

- a. Can be easily bought / sold like any other stock on the exchange through terminals spread across the country.
- b. Can be bought / sold anytime during market hours at prices that are expected to be close to actual NAV of the Scheme. Thus, investor invests at real-time prices as opposed to end of day prices.
- c. No separate form filling for buying / selling units. It is just a phone call to your broker or a click on the net.
- d. Ability to put limit orders.
- e. Minimum investment for an ETF is one unit.
- f. Protects long-term investors from the inflows and outflows of short-term investors.
- g. Flexible as it can be used as a tool for gaining instant exposure to the equity markets, equitising cash, hedging or for arbitraging between the cash and futures market.
- h. Helps in increasing liquidity of underlying cash market.
- i. Aids low cost arbitrage between futures and cash market.

Risks of ETFs

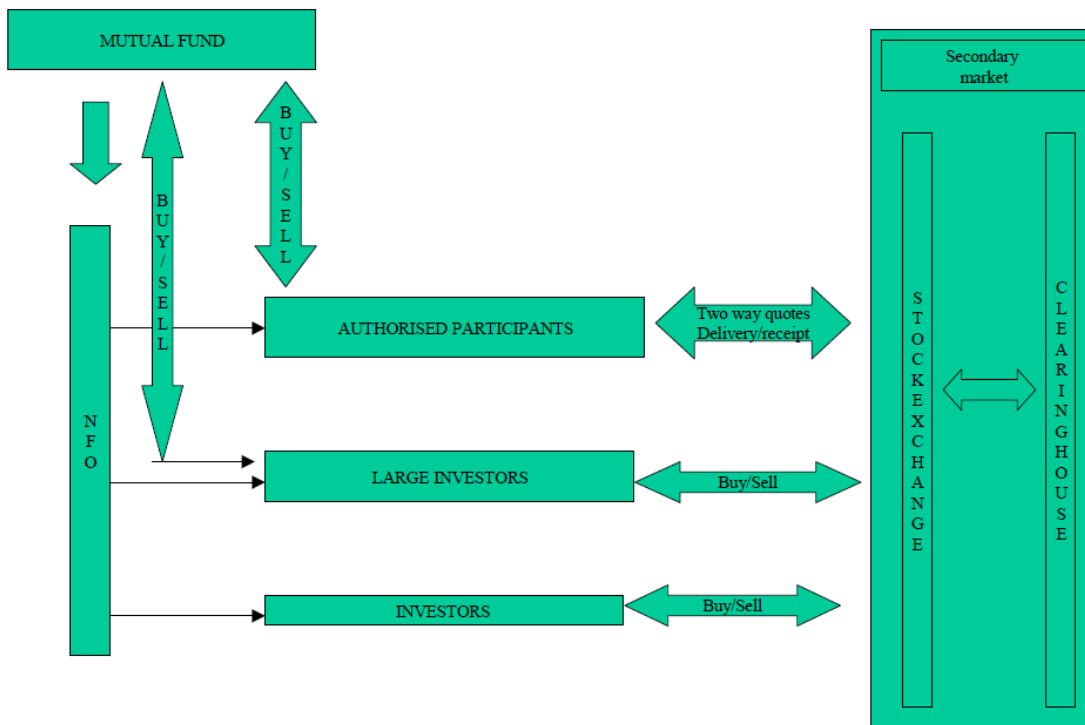

a. Absence of Prior Active Market: Although the units of ETFs are listed on the Stock Exchange for trading, there can be no assurance that an active secondary market will develop or be maintained.

b. Lack of Market Liquidity: Trading in units of ETFs on the Stock Exchange on which it is listed may be halted because of market conditions or for reasons that, in the view of the concerned Stock Exchange or Market Regulator, trading in the ETF Units is inadvisable. In addition, trading in the units of ETFs is subject to trading halts caused by extraordinary market volatility pursuant to 'circuit filter' rules. There can be no assurance that the requirements of the concerned Stock Exchange necessary to maintain the listing of the units of ETFs will continue to be met or will remain unchanged.

c. Units of Exchange Traded Funds May Trade at Prices Other than NAV: Units of ETFs may trade above or below their NAV. The NAV of Units of ETFs may fluctuate with changes in the market value of a Scheme's holdings.

The trading prices of units of ETF will fluctuate in accordance with changes in their NAVs as well as market supply and demand. However, given that ETFs can be created/ redeemed in Creation Units, directly with the fund, large discounts or premiums to the NAVs will not sustain due to arbitrage possibility available.

ILLUSTRATION OF WORKING OF ADITYA BIRLA SUN LIFE NIFTY NEXT 50 ETF

Procedure for creation of units in Creation Unit size:

- The Fund/AMC allows cash/exchange of Portfolio Deposit for Purchase of Units of the Scheme in Creation Unit size by Large Investors/Authorised Participants.
- Purchase request for Creation Unit shall be made by such Investor to the Fund/AMC where upon the Fund/AMC will arrange to buy the underlying portfolio Securities. The Portfolio Deposit and/or Cash Component will be exchanged for units of the Scheme in Creation Unit size.

Creation of Units in exchange of Portfolio Deposit: The requisite Securities constituting the Portfolio Deposit have to be transferred to the Fund's Depository Participant account while the Cash Component has to be paid to the Custodian/AMC. On confirmation of the same by the Custodian/AMC, the AMC will create and transfer the equivalent number of Units of the Scheme into the Investor's Depository Participant account and pay/ recover the Cash Component and transaction handling charges, if any.

Creation of Units in Cash: For subscription of Units of the Scheme in Creation Unit Size will be made by payment of requisite Cash, as determined by the AMC equivalent to the cost incurred towards the purchase of predefined basket of securities that represent the underlying index (i.e. portfolio deposit), Cash Component and transaction handling charges, if any, only by means of payment instruction of Real Time Gross Settlement (RTGS) / National Electronic Funds Transfer (NEFT) or Funds Transfer Letter / Transfer Cheque of a bank where the Scheme has a collection account.

- The Creation Unit will be subject to transaction handling charges incurred by the Fund/AMC. Such transaction handling charges shall be recoverable from the transacting Authorized Participant or Large Investor.
- The Portfolio Deposit and/or Cash Component for units of the Scheme may change from time to time due to changes in the Underlying Index on account of corporate actions and changes to the index constituents.

The investors are requested to note that the Units of the Scheme will be credited into the Investor's Depository Participant account only on receipt of Cash Component and transaction handling charges, if any.

Procedure for Redemption in Creation Unit size

- The requisite number of Units of the Scheme equivalent to the Creation Unit has to be transferred to the Fund's Depository Participant account and the Cash Component to be paid to the AMC/Custodian.
- On confirmation of the same by the AMC, the AMC will transfer the Portfolio Deposit to the Investor's Depository Participant account and pay/recover the Cash Component and transaction handling charges, if any.
- The Fund may allow cash Redemption of the Units of the Scheme in Creation Unit size by Large Investors/ Authorized Participant.
- Such Investors shall make Redemption request to the Fund/AMC whereupon the Fund/AMC will arrange to sell underlying portfolio Securities on behalf of the Investor.

Accordingly, the sale proceeds of portfolio Securities, after adjusting the Cash Component and transaction handling charges will be remitted to the Investor.

Note:

1. The Creation Unit size may be changed by the AMC at their discretion and the notice of the same shall be published on AMC's website.
2. Transaction handling charges include brokerage, Securities transaction tax, regulatory charges if any, depository participant charges, uploading charges and such other charges that the mutual fund may have to incur in the course of cash subscription/redemption or accepting the Portfolio Deposit or for giving a portfolio of securities as consideration for a redemption request. Such transaction handling charges shall be recoverable from the transacting Authorized Participant or Large Investor.
3. The Portfolio Deposit and / or Cash Component for the Scheme may change from time to time due to change in NAV.
4. The Fund may from time to time change the size of the Creation Unit in order to equate it with marketable lots of the underlying securities.

Exit opportunity for investors other than Authorised Participants and Large Investors

Investors, other than Authorised Participants, can sell units in less than Creation Unit Size of the Scheme directly to the Mutual Fund without any exit load in the following cases if:

- a. Traded price of the ETF units is at a discount of more than 3% for continuous 30 days or
- b. Discount of bid price to applicable NAV over a period of 7 consecutive days is greater than 3% or
- c. No quotes available on exchange for 3 consecutive trading days or
- d. Total bid size on the exchange(s) is less than half of the creation units size daily, averaged over a period of 7 consecutive trading days.

Under these circumstances, investors, as specified above, can redeem units of the Scheme directly with the fund house without any exit load. In case of redemptions by NRIs, requisite TDS will be deducted from the respective redemption proceeds. The mutual fund will track the aforesaid liquidity criteria and display it on website www.mutualfund.adityabirlacapital.com if the same is triggered and no exit load would be applicable in such cases.

G. FUNDAMENTAL ATTRIBUTES

Following are the fundamental attributes of the scheme, in terms of Regulation 18 (15A) of the SEBI Regulations

- **Type of Scheme:** An Open ended Scheme tracking Nifty Next 50 index
- **Investment objective:** The investment objective of the scheme is to provide returns that closely correspond to the total returns of securities as represented by Nifty Next 50, subject to tracking errors. There can be no assurance or guarantee that the scheme objective will be achieved.
- **Asset Allocation Pattern:**
Please refer to 'Section II - C. Asset Allocation and Investment Pattern' of this SID for details.
- **Terms of Issue: Listing/Redemption Of Units:**
As mentioned in Section III B of this SID
- **Aggregate Fees and Expenses**
Please refer to 'Section IV. Fees and Expenses' of this SID.
- **Any Safety Net or Guarantee provided:**
This Scheme does not provide any guaranteed or assured return to its Investors

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations, the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plan(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Plan(s) / Option(s) thereunder and affect the interests of Unitholders is carried out unless:

- A written communication about the proposed change is sent to each Unitholders and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- The Unitholders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.

H. BENCHMARK

The performance of the scheme will be benchmarked to the performance of **Nifty Next 50 Index**

ABOUT THE INDEX:

NIFTY Next 50 is an index that represents the performance of 'next' 50 stocks which come after the top 50 in order of free float market capitalization, subject to index criteria. NIFTY Next 50 thus represents companies which are presently below the NIFTY 50 index constituents and may be potential candidates for inclusion in NIFTY 50 in future, subject to index criteria. NIFTY Next 50 has a well-diversified portfolio across sectors with relatively less concentrated exposure to any one sector. For instance, Top 5 sectors in NIFTY Next 50 accounts for 76% exposure as compared to 84% in case of NIFTY 50 (Weight considered are as on October 31, 2018).

Methodology

- The index has a base date of November 03, 1996 and a base value of 1000
- Index aims to measure the performance of 50 large-cap companies after the top 50 companies forming part of the NIFTY 50.
- The selection of securities and weights are based on free float market capitalization
- The NIFTY Next 50 Index represents about 9.9% of the free float market capitalization of the stocks listed on NSE as on October 31, 2018.
- As on October 2018, total six months traded value of all index constituents (Nifty Next 50) is approximately 13.3% of traded value of all stocks on NSE

Index Service Provider

India Index Services & Products Limited (IISL), a subsidiary of NSE Strategic Investment Corporation Limited was setup in May 1998 to provide a variety of indices and index related services and products for the Indian capital markets.

Rationale for adoption of benchmark:

The Benchmark Index is Nifty Next 50 ETF as the scheme will be invested predominantly in stocks constituting the NIFTY NEXT 50 Index and hence, it is most suitable for evaluating performance of the scheme.

The fund reserves the right to change the said benchmark and/or adopt one/more other benchmarks to compare the performance of the Scheme. The performance of this scheme will be compared with its peers in the Industry. The performance will be placed before the Investment Committee as well as the Board of Directors of the AMC and the Trustee Company in each of their meetings.

J. INVESTMENT RESTRICTIONS FOR THE SCHEME

All investments by the Scheme and the Mutual Fund will be within the investment restrictions as specified in the SEBI (MF) Regulations. Pursuant to the SEBI (MF) Regulations, the following investment and other restrictions are presently applicable to the scheme:

- The Scheme shall not own more than 10% of any company's paid up capital carrying voting rights.
Provided, for investments in asset management company or trustee company of other mutual fund, collective investment of sponsor of a mutual fund, its associate and/or its group company, and its AMC through Schemes should be considered for calculating 10% voting rights
- The Scheme may invest in other schemes under the same AMC or any other Mutual Fund without charging any fees, provided the aggregate inter-scheme investment made by all the Schemes under the same management or in schemes under management of any other Asset Management Company shall not exceed 5% of the Net Asset Value of the Fund. No investment management fees shall be charged for investing in other schemes of the fund or in the schemes of any other Mutual Fund.
- Transfer of investments from one scheme to another scheme in the Mutual Fund is permitted provided:
 - Such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and
 - The securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.
- The Mutual Fund shall get the securities purchased or transferred in the name of the Mutual fund on account of the concerned Scheme, wherever investments are intended be of a long-term nature.
- The Mutual fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities. Further the Mutual fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by the Board. Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.
- Pending deployment of the funds of the Scheme in securities in terms of investment objective, the Scheme may invest its funds in short term deposits of scheduled commercial banks subject to the following guidelines for parking of funds in short term deposits of scheduled commercial banks laid down by SEBI vide its Circulars; SEBI/IMD/CIR No. 1/91171/ 07 dated April 16, 2007 and SEBI/IMD/CIR No.7/129592/08 dated June 23, 2008 and such other guidelines as may be specified by SEBI from time to time will be adhered to.
 - “Short Term” for parking of funds shall be treated as a period not exceeding 91 days. Such short-term deposits shall be held in the name of the Scheme.
 - The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with the approval of the Trustee.
 - Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.

- iv. The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- v. The Scheme shall not park funds in short-term deposit of a bank which has invested in the Scheme.
- vi. The AMC will not charge any investment management and advisory fees for funds under the Scheme parked in short term deposits of scheduled commercial banks.

The above norms do not apply to term deposits placed as margins for trading in cash and derivatives market. However, all term deposits placed as margins shall be disclosed in the half yearly portfolio statements under a separate heading. Details such as name of bank, amount of term deposits, duration of term deposits, percentage of NAV should be disclosed

- The Scheme shall not make any investment in:
 - Any unlisted security of an associate or group company of the Sponsor; or
 - Any security issued by way of private placement by an associate or group company of the Sponsor; or
 - The listed securities of group companies of the Sponsor, which is in excess of 25% of the net assets
- The Mutual Fund shall not borrow except to meet temporary liquidity needs of the Mutual Fund for the purpose of repurchase / redemption of Units or payment of interest and dividend to the Unitholders.
- The scheme shall not invest more than 5% of its NAV in the unlisted equity shares or equity related instruments.
- Provided that the Mutual Fund shall not borrow more than 20% of the net assets of any individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.
- The entire Scheme's investments will be in transferable securities (whether in capital markets or money markets) or in privately placed debenture or securitised debt, or bank deposits (pending deployment in securities in line with the investment objectives of the scheme) or in money at call.
- Debentures, irrespective of any residual maturity period (above or below 1 year), shall attract the investment restrictions as applicable for debt instruments as specified under Clause 1 and 1A of the Seventh Schedule to the SEBI (MF) Regulations or as may be specified by SEBI from time to time.
- Save as otherwise expressly provided under SEBI (MF) Regulations, the Mutual Fund shall not advance any loans for any purpose.
- The Scheme shall not invest in a fund of funds scheme.
- The scheme shall not invest in Credit default swaps
- The Scheme shall not invest in foreign securities.
- The Scheme shall not invest in Securitised Debt.
- The Scheme shall not engage in short selling of securities.
- The Scheme will comply with any other regulations applicable to the investments of mutual funds from time to time.

The Trustees may alter the above restrictions from time to time to the extent that changes in the SEBI (MF) Regulations may allow and as deemed fit in the general interest of the unit holders.

These investment restrictions shall in the ordinary course apply as at the date of the most recent transaction or commitment to invest, and changes do not have to be effected merely because, owing to appreciations or depreciations in value, or by reason of the receipt of any rights, bonuses or benefits in the nature of capital or of any Scheme of arrangement or for amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, AMC shall as soon as possible take appropriate corrective action, taking into account the interests of the Unitholders.

In addition, certain investment parameters (like limits on exposure to Sectors, Industries, Companies, etc.) may be adopted internally by AMC, and amended from time to time, to ensure appropriate diversification / security for the Fund. The Trustee Company / AMC may alter these above stated limitations from time to time, and also to the extent the SEBI (Mutual Funds) Regulations, 1996 change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for Mutual Funds to achieve its investment objective.

As such investments by the Scheme will be made in accordance with SEBI (MF) Regulations, including Schedule VII thereof.

K. SCHEME PERFORMANCE

This scheme is a new scheme and does not have any performance track record.

Section III - UNITS AND OFFER

This Section provides details you need to know for investing in the scheme

A. NEW FUND OFFER

New Fund Offer Period This is the period during which a new scheme sells its units to the investors.	NFO opens on: Tuesday, December 11, 2018 NFO closes on: Monday, December 17, 2018 The subscription list may be closed earlier by giving at least one day's notice in one daily newspaper. The Trustee reserves the right to extend the closing date of the New Fund Offer Period, subject to the condition that the subscription list of the New Fund Offer Period shall not be kept open for more than 15 days.
New Fund Offer Price This is the price per unit that the investors have to pay to invest during the NFO.	The units being offered will have a face value of Rs. 10/- each and will be issued at a premium, if any, approximately equal to the difference between face value and allotment price. The Allotment price for the NFO shall be approximately equal to 1/100th of the value of Nifty Next 50 Index on the date of allotment.
Minimum Amount for Application during the NFO	Minimum of ₹ 5,000/- and in multiples of ₹ 1000/- thereafter during the NFO period.
Minimum Target amount This is the minimum amount required to operate the scheme and if this is not collected during the NFO period, then all the investors would be refunded the amount invested without any return. However, if AMC fails to refund the amount within 5 Business days, interest as specified by SEBI (currently 15% p.a.) will be paid to the investors from the expiry of 5 Business days from the date of closure of the NFO period.	The minimum subscription (target) amount under the Scheme shall be ₹10,00,00,000/- (Ten crore) during the New Fund Offer Period. Therefore, subject to the applications being in accordance with the terms of this offer, full and firm allotment will be made to the Unit holders.
Maximum amount to be raised (if any)	N.A.
Plans / Options offered	Not Available. The AMC/Trustee reserve the right to introduce Plan(s)/Option(s) as may be deemed appropriate at a later date.
Dividend Policy	There is no Dividend Policy as the Scheme currently does not offer any Dividend Option.
Allotment	All Applicants whose payment towards purchase of Units have been realised will receive a full and firm allotment of Units, provided that the applications are complete in all respects and are found to be in order. Allotment to NRIs will be subject to RBI approval, if required. All allotments will be provisional, subject to realisation of payment instrument and subject to the AMC having been reasonably satisfied about receipt of clear funds. The process of allotment of Units will be completed within 5 (five) business days from the date of closure of the New Fund Offer Period. Subject to the SEBI (MF) Regulations, the AMC / Trustee may reject any application received in case the application is found invalid/incomplete or for any other reason in their sole discretion. Following is an example of Units allotted during the NFO Period (based on the assumption that the allotment price, as calculated by the AMC is Rs. <u>277.59</u>): Amount of Investment = Rs. 5000 Allotment Price = Rs. 277.59 Number of Units allotted = 5,000 / 277.59 = 18 Units* Value of Units allotted = Rs. 277.59*18= Rs. 4996.62 Amount refunded = Rs. 5000-Rs. 4996.62 = Rs. 3.38

	<p>* Units would be allotted in whole numbers and no fractional Units will be allotted. Excess amount, if any, would be refunded to the Investor</p> <p>Units in fractions</p> <p>The Units will be computed and accounted for up to whole numbers (complete integers) only and no fractional units will be allotted. If any fractional units are calculated as a result of the application money/switch units received during the NFO from the investors not in multiple of ₹ 10/-, the Units would be allotted to the extent of whole numbers (complete integers) only and the excess of application money/units corresponding to the fractional Units shall be refunded to the investor.</p> <p>Allotment Confirmation / Consolidated Account Statement (CAS) Single Consolidated Account Statement (SCAS):</p> <p>AMC shall send allotment confirmation specifying the number of units allotted to the investor by way of email and/or SMS's to the investors' registered email address and/or mobile number not later than 5 (five) business days from the date of closure of the New Fund Offer Period. Thereafter, a Consolidated Account Statement (CAS) shall be sent to the unitholder in whose folio transactions have taken place during that month, on or before 10th of the succeeding month by e-mail/mail. In case of specific request received from investors, Mutual Fund will issue an account statement to the investors within 5 (five) Business Days from the date of receipt of such request.</p> <p>No Account Statements will be issued to investors opted to hold units in electronic (demat) mode, since the statement of account furnished by depository participant periodically will contain the details of transactions.</p>
Refund	<p>If application is rejected, full amount will be refunded within 5 Business days of closure of NFO. If refunded later than 5 Business days, interest @ 15% p.a. for delay period will be paid and charged to the AMC.</p>

<p>Accounts Statements</p> <p>The Account Statement shall not be construed as a proof of title and is only a computer generated statement indicating the details of transactions under the Scheme and is a non-transferable document. The Account Statement will be issued in lieu of Unit Certificates.</p> <p>Normally no Unit certificates will be issued. However, if the applicant so desires, the AMC shall issue a non-transferable Unit certificate to the applicant within 5 business days of the receipt of request for the certificate. Unit certificate if issued must be duly discharged by the Unit holder(s) and surrendered alongwith the request for Redemption / Switch or any other transaction of Units covered therein.</p> <p>Units held, either in form of account statement or Unit Certificates, are nontransferable. The Trustee reserves the right to make the units transferable at a later date subject to SEBI (MF) Regulations issued from time to time.</p>	<p>The depository participant with whom the unitholder has a depository account will send a statement of transactions in accordance with the byelaws of the depository which will contain the details of transaction of units. Allotment of units and dispatch of Allotment Advice will be subject to RBI approval, if required.</p> <p>Units allotted under this scheme are transferable subject to the provisions of the Depositories Act, SEBI (Depository and Depository Participant) Regulations, 1996 and other applicable provisions.</p> <p>Note: The fund house may not furnish separate accounts statement to the unitholders since the statement of accounts furnished by depository participant will contain the details of transactions in these units</p> <p>Single Consolidated Account Statement (SCAS)</p> <ul style="list-style-type: none"> On acceptance of the application for subscription, an allotment confirmation specifying the number of units allotted to the investor shall be send by way of email and/or SMS's to the investors' registered email address and/or mobile number not later than 5 (five) days from the date of receipt of transaction request. Thereafter, Single Consolidated Account Statement (SCAS), based on PAN of the holders, shall be sent by Depositories, for each calendar month within 10th day of the succeeding month to the unitholders in whose folio(s)/demat account(s) transactions have taken place during that month. SCAS shall be sent by Depositories every half yearly (September/ March), on or before 10th day of succeeding month, detailing holding at the end of the sixth month, to all such unitholders in whose folios and demat accounts there have been no transactions during that period. In case of demat accounts with nil balance and no transactions in securities and in mutual fund folios, the depository shall send account statement in terms of regulations applicable to the depositories. Consolidation shall be done on the basis of Permanent Account Number (PAN). In the event the folio / demat account has more than one registered holder, the first named Unit holder / Account holder shall receive the SCAS. For the purpose of SCAS, common investors across mutual funds / depositories shall be identified on the basis of PAN. Consolidation shall be based on the common sequence / order of investors in various folios / demat accounts across mutual funds / demat accounts across depository participants. In case of multiple accounts across two depositories, the depository with whom the demat account has been opened earlier will be the default depository which will consolidate the details across depositories and Mutual Fund investments and dispatch the SCAS to the unitholders. Unitholders whose folio(s)/demat account(s) are not updated with PAN shall not receive SCAS. Unitholders are therefore requested to ensure that their folio(s)/demat account(s) are updated with PAN. For Unitholders who have provided an e-mail address in KYC records, the SCAS will be sent by e-mail. The Unitholders may request for account statement for mutual fund units held in physical mode. In case of a specific request received from the Unitholders, account statement shall be provided to the unitholders within 5 business days from the receipt of such request. No account statements will be issued to unitholders opted to hold units in demat mode, since the statement of account furnished by depository participant periodically will contain the details of transactions. SCAS sent within the time frame mentioned above is provisional and is subject to realisation of payment instrument and/or verification of documents, including the application form.

	<p>COMMUNICATION BY EMAIL</p> <p>For those unitholders who have provided an e-mail address, the AMC will send the communication by email. Unitholders who receive e-mail statements may download the documents after receiving e-mail from the Mutual Fund. Should the Unitholder experience any difficulty in accessing the electronically delivered documents, the Unitholder shall promptly advise the Mutual Fund to enable the Mutual Fund to make the delivery through alternate means. D. COMPUTATION OF NET ASSET VALUE

The Net Asset Value (NAV) per Unit of the scheme will be computed by dividing the net assets of the scheme by the number of Units outstanding under the scheme on the valuation date. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time.

NAV of Units under the scheme shall be calculated as shown below:

$$\begin{aligned} & \text{Market or Fair Value of the scheme's Investments} \\ & + \text{Current Assets (including accrued income)} \\ & - \text{Current Liabilities and Provisions (including accrued expenses)} \end{aligned}$$

$$\text{NAV (₹) per Unit} = \frac{\text{NAV of Units under the scheme}}{\text{No. of Units outstanding under the scheme}}$$

The AMC will calculate and disclose the NAV of the scheme on every business day. The NAVs of the Scheme will be calculated upto four decimals.

Section IV – FEES AND EXPENSES

This section outlines the expenses that will be charged to the scheme and also about the transaction charges, if any, to be borne by the investors. The information provided under this Section seeks to assist the investor in understanding the expense structure of the Scheme and types of different fees / expenses and their percentage the investor is likely to incur on purchasing and selling the Units of the Scheme.

A. NEW FUND OFFER EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc. All the NFO expenses of the Scheme shall be borne by the AMC.

The entire amount subscribed by the investor subject to deduction of transaction charges, if any, in the scheme during the New Fund Offer will be available to the scheme for investments.

B. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table related to maximum permissible expense below.

Within the limits specified under the SEBI (MF) Regulations, the AMC has estimated that the following will be charged to the scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund. Further, any change in the expense ratio will be updated on our website and the same will be communicated to investor via SMS / e-mail 3 working days prior to the effective date of change.

As per Regulation 52(6)(b) of SEBI (MF) Regulations, the total expenses of an exchange traded fund including the investment and advisory fees shall not exceed 1.50% of the daily net assets of the Scheme.

In addition to total expense permissible within limits of Regulation 52 (6)(b) of SEBI (MF) Regulations as above, the AMC may charge the following to the scheme in terms of Regulation 52(6A) of SEBI (MF) Regulations:

- (a) Additional expenses not exceeding of 0.30% of daily net assets may be charged to the Scheme, if the new inflows from beyond top 30 cities* are at least (i) 30% of gross new inflows in the scheme or (ii) 15% of the average assets under management (year to date) of the scheme, whichever is higher.
In case inflows from beyond such cities is less than the higher of (i) or (ii) mentioned above, such additional expense on daily net assets of the scheme shall be charged on proportionate basis in accordance with SEBI Circular no. CIR/IMD/DF/21/2012 dated September 13, 2012.
Inflows from corporates and institutions from B-30 cities will not be considered for computing the inflows from B-30 cities for the purpose of additional TER of 30 basis points.
The expense so charged shall be utilised for distribution expenses incurred for bringing inflows from such cities.
However, the amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.
**Beyond Top 30 (B30) cities shall mean beyond top 30 cities based on Association of Mutual Funds in India (AMFI) data on 'AUM by Geography - Consolidated Data for Mutual Fund Industry' as at the end of the previous financial year.*
- (b) Brokerage and transaction costs incurred for the execution of trades and included in the cost of investment, not exceeding 0.12 per cent of the value of trades in case of cash market transactions and 0.05 per cent of the value of trades in case of derivatives transactions. Thus, in terms of SEBI circular CIR/IMD/DF/24/2012 dated November 19, 2012, it is hereby clarified that the brokerage and transaction costs incurred for the execution of trades may be capitalized to the extent of 0.12 per cent of the value of trades in case of cash market transactions and 0.05 per cent of the value of trades in case of derivatives transactions. Any payment towards brokerage and transaction costs (including Goods & Service Tax (GST), if any) incurred for the execution of trades, over and above the said 0.12 per cent and 0.05 per cent for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (MF) Regulations.

The AMC has estimated the following recurring expenses, as detailed in table related to maximum permissible expense below. The expenses are estimated on a corpus size of ₹ 100 crores and have been made in good faith as per the information available to the AMC based on past experience and are subject to change inter se. **The purpose of the below table is to assist the investor in understanding the various costs and expenses that an investor in the scheme will bear directly or indirectly.**

Note:

- (a) ^ In terms of SEBI Circular No. CIR/IMD/DF/21/2012 dated September 13, 2012, the AMC / Mutual Fund shall annually set apart at least 2 basis points (i.e. 0.02%) on daily net assets of the scheme within the maximum limit of Total Expense Ratio as per Regulation 52 of the SEBI (MF) Regulations for investor education and awareness initiatives.
- (b) In terms of SEBI Circular No. CIR/IMD/DF/21/2012 dated September 13, 2012, AMC may charge the following Fees and expenses as mentioned below:
 - a. **Investment Management and Advisory Fees:** AMC may charge GST on investment management and advisory fees to the scheme in addition to the maximum limit of Total Expense Ratio as prescribed under Regulation 52 of the SEBI (MF) Regulations.
 - b. **Other than Investment Management and Advisory Fees:** AMC may charge GST on expenses other than investment management and advisory fees to the scheme within the maximum limit of Total Expense Ratio as prescribed under Regulation 52 of the SEBI (MF) Regulations. Further, GST on Brokerage and transaction cost incurred for execution of trades, will be within the maximum limit of Total Expense Ratio as prescribed under Regulation 52 of the SEBI (MF) Regulations
- (c) **Fungibility of Maximum Permissible expense:** The maximum total expense ratio (TER) that can be charged to the scheme will be subject to such limits as prescribed under the SEBI (MF) Regulations. The said maximum TER shall either be apportioned under various expense heads as enumerated above, without any sub limit or allocated to any of the said expense head(s) at the discretion of AMC. Also, the types of expenses charged shall be as per the SEBI (MF) Regulations

Investors should note that the total recurring expenses of the scheme excluding issue or redemption expenses, whether initially borne by the Mutual Fund or by the AMC, but including the investment management and advisory fee, shall not exceed the limits as prescribed under Regulation 52 of the SEBI (MF) Regulations. Subject to the SEBI (MF) Regulations, expenses over and above the prescribed ceiling will be borne by the AMC.

C. TRANSACTION CHARGES

SEBI has, with the intent to enable investment by people with small saving potential and to increase reach of Mutual Fund products in urban areas and in smaller towns, wherein the role of the distributor is considered vital, allowed AMCs vide its circular No. Cir/ IMD/ DF/13/ 2011 dated August 22, 2011 to deduct transaction charges for subscription of ₹ 10,000/- and above.

In accordance with the said circular, ABSLAMC / Mutual Fund will deduct the transaction charges from the subscription amount and pay to the distributors as shown below (who have opted-in to receive the transaction charges on basis of type of product). Thereafter, the balance of the subscription amount shall be invested.

1. Transaction charges shall be deducted for Applications for purchase/ subscription relating to new inflows and routed through distributor / agent:

Investor Type	Transaction charges^
First Time Mutual Fund Investor (across Mutual Funds)	₹ 150 for subscription application of ₹ 10,000 and above.
Investor other than First Time Mutual Fund Investor	₹ 100 for subscription application of ₹ 10,000 and above.

2. ^The transaction charge, if any, shall be deducted by the ABSLAMC from the subscription amount and paid to the distributor; and the balance shall be invested and accordingly units allotted. The statement of account shall clearly state the net investment as gross subscription less transaction charge and depict the number of units allotted against the net investment amount.

3. **Transaction charges shall not be deducted/applicable for:**

- (a) purchases / subscriptions for an amount less than ₹ 10,000/-;
- (b) Transaction other than purchases / subscriptions relating to new inflows such as Switches, STPs, Dividend Reinvestment, etc.
- (c) **Purchases / subscriptions made directly with the Mutual Fund (i.e. not routed through any distributor / agent).**
- (d) Transactions carried out through the Stock Exchange Platforms for Mutual Funds.

4. Investor should note that, as per SEBI circular no. SEBI/IMD/CIR No. 4/ 168230/09, dated June 30, 2009, the upfront commission, if any, on investment made by the investor shall continue to be paid by the investor directly to the Distributor by a separate cheque, based on his assessment of various factors including the service rendered by the Distributor.

Illustration of impact of expense ratio on scheme's returns:

Expense ratio, normally expressed as a percentage of Average Assets under Management, is calculated by dividing the permissible expenses under the Regulations by the average net assets.

To further illustrate the above, for the Scheme under reference, suppose an Investor invested Rs. 10,000/- the impact of expenses charged will be as under:

	Amount (Rs.)	Units	NAV (Rs.)
Invested on March 31, 2017 (A)	10,000.00	950.299	10.523
Value of above investment as on March 31, 2018 (post all applicable expenses) (B)	10,902.89	950.299	11.473
Expenses charged during the year (C)	150.00		
Value of above investment as on March 31, 2018 (after adding back all expenses charged) (D) [D= B+C]	11,052.89	950.299	11.631
Returns (%) (post all applicable expenses) (E) [E= (B-A)/A]		9.03%	
Returns (%) (without considering any expenses) (F) [F= (D-A)/A]		10.53%	

Note(s):

- The purpose of the above illustration is to purely explain the impact of expense ratio charged to the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments.
- It is assumed that the expenses charged are evenly distributed throughout the year.
- Calculations are based on assumed NAVs, and actual returns on your investment may be more, or less.
- Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to consult his or her own financial advisor.

D. LOAD STRUCTURE

Load is an amount that is paid by the investor to subscribe to the units or to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.mutualfund.adityabirlacapital.com) or may call at 1-800-22-7000/1-800-270-7000 or your distributor.

Type of Load	Load Chargeable (as %age of NAV) during NFO Period and Ongoing Offer Period
Entry Load*	Nil.
Exit Load	Nil. The units of the scheme shall be compulsorily traded in dematerialized form, and hence, there shall be no exit load for the units purchased or sold through stock exchanges. However, the investor shall have to bear costs in form of bid/ask spread and brokerage or such other cost as charged by the broker for transacting in units of the Scheme through secondary market.

*In terms of SEBI circular no. SEBI/IMD/CIR No.4/ 168230/09 dated June 30, 2009, no entry load will be charged by the Scheme to the investor effective August 01, 2009. The upfront commission, if any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor.

The investor is requested to check the prevailing load structure of the scheme before investing.

AMC reserves the right to change / modify the Load structure under the scheme if it so deems fit in the interest of smooth and efficient functioning of the Mutual Fund. AMC reserves the right to introduce / modify the Load depending upon the circumstances prevailing at that time subject to maximum limits as prescribed under the SEBI (MF) Regulations.

Any imposition or enhancement of Load in future as may be permitted under SEBI (MF) Regulations shall be applicable on prospective investments only. However, AMC shall not charge any load on issue of bonus units and units allotted on reinvestment of dividend for existing as well as prospective investors. At the time of changing the Load Structure following measures would be undertaken to avoid complaints from investors about investment in the schemes without knowing the loads:

- I. The addendum detailing the changes would be attached to Scheme Information Document and Key Information Document. The addendum will be circulated to all the distributors / brokers so that the same can be attached to all Scheme Information Documents and Key Information Documents already in stock.
- II. Arrangements will be made to display the addendum in the Scheme Information Document in the form of a notice in all the Investor Service Centres and distributors / brokers office.
- III. The introduction of the Exit Load alongwith the details would be stamped in the acknowledgement slip issued to the investors on submission of the application form and would also be disclosed in the statement of accounts issued after the introduction of such load.
- IV. A public notice would be given in respect of such changes in one English daily newspapers having nationwide circulation as well as in a newspaper published in the language of region where the head office of the mutual fund is situated.
- V. Any other measure which the AMC/Mutual Fund may feel necessary.

For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres.

Unitholder Transaction Expenses and Load

In accordance with SEBI (MF) Regulations, the repurchase price shall not be lower than 93% of the NAV and the sale price shall not be higher than 107% of the NAV and the difference between the repurchase price and sale price shall not exceed 7% on the sale price.
