Investment Strategy

The Scheme follows an active investment strategy. The investment objective of the Scheme is to generate long-term capital appreciation by investing in equity and equity related instruments of companies forming part of the Top Conglomerates of India (TCI). Top conglomerates will be selected based on market capitalization.

Equity & Equity Related Instruments

The Scheme shall follow a diversified theme and will focus on investing in companies from Top Conglomerates. The investment will be in equity and equity related securities of companies that are part of the conglomerate in India. Conglomerates will be identified as groups that are domiciled in India and are led/controlled by promoters and consist of a minimum of 2 listed companies in different sectors or industries. Top conglomerates will be classified based on market capitalization. Group shall mean a group as defined in clause (b) of the Explanation to Section 5 of the Competition Act, 2002 and shall include an entity, its subsidiaries, fellow subsidiaries, its holding company and its associates. The Scheme may invest in any of the listed companies of the identified conglomerates. The Scheme would invest in a minimum of 4 groups and the exposure would be restricted to 25% of the net asset per group. This 25% may also be invested in the holding companies forming part of the top conglomerate where the primary revenue is earned by dividends or the companies that are incubating other businesses with significant net worth in listed/unlisted space.

The Scheme would invest a substantial portion of its total assets (80% - 100%) in equity and equity related instruments of company forming part of the conglomerate theme. The Scheme can also invest up to 20% of equity and equity related securities of companies other than that of conglomerate theme. Remaining investment of the Scheme may be invested in debt & money market instruments and other liquid instruments or both.

The Scheme has flexibility in terms of allocation across market cap. The Scheme would adopt top-down and bottom-up approach of investing and will aim at being diversified across various industries and/ or market capitalization. The underlying emphasis of investment would be to identify companies with sound corporate managements and prospects of good future growth. Essentially, the focus would be on stocks driven by long-term fundamentals, however, short term opportunities would also be seized, provided underlying values support these opportunities. A portion of the Scheme may also be invested in IPOs, and other primary market offerings that meet our investment criteria

Debt & Money Market Instruments

The Scheme may also invest a small portion of its corpus in money market instruments to manage its liquidity requirements. The fund investment in debt securities and money market instruments issued by corporate and/or state and central government with the aim to controlling volatility and providing cash flows on a continuous basis. Rigorous in-depth credit evaluation of the securities proposed to be invested in will be carried out by the investment team of the AMC for its fixed income investments. In addition, the Investment Team of the AMC studies the macro-economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. Investments in debentures and bonds will usually be in instruments which have been assigned investment grade ratings by any approved rating agency.

REITs & InvITs

Investment in REITs or InvITs will be made based on the various factors such as liquidity, sector outlook and return expectations. The investment across asset class within the stated range will be based on opportunities available in the different asset classes and future outlook for the Markets.

Derivatives

The Scheme may have prudent exposure to Futures & Options (F&O) to capture opportunities arising out of market imperfection and to hedge the portfolio, whenever necessary. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

For detailed derivative strategies, please refer to SAI.

ABSLAMC may, from time to time, review and modify the Scheme's investment strategy if such changes are considered to be in the best interests of the unit holders and if market conditions warrant it.

Portfolio Turnover

The Scheme has no explicit constraints either to maintain or limit the portfolio turnover. Portfolio turnover will depend upon the circumstances prevalent at any time and would also depend on the extent of volatility in the market and inflows/outflows in the Scheme.

A higher churning of the portfolio could attract high transactions of the nature of brokerage, custody charges etc.

- a. Investment in Direct Plan: Investors applying under Direct Plan, are advised to write the word 'DIRECT' in the column 'ARN No' or 'Broker Code' in their applications for purchases/additional purchases/switches in all such cases where applications are not routed through any distributor/ agent/ broker. In cases where unit holder uses a pre-printed transaction slip/application form where details in the 'ARN No' or 'Broker Code' column is already printed, unit holder should cancel the ARN No/ Broker Code, write 'DIRECT' in the said column. Also, in case ARN No/ Broker Code is mentioned in the application form, but "Direct Plan" is indicated, the ARN No/ Broker Code will be ignored and the application will be processed under Direct Plan, subject to it being complete in all other aspects. Further, where application is received for Regular Plan without Distributor code or "Direct" mentioned in the ARN Column, the application will be processed under Direct Plan.
- b. Employee Unique Identification Number (EUIN) is a unique number allotted to Sales personnel i.e. employee/ relationship manager/ sales person of the distributor interacting with the investor for the sale of mutual fund products. Such sales personnel associated with Distributor, should also be holding a valid NISM certificate. Thus, in case of applications routed through distributors, in addition to the AMFI Registration Number (ARN) of the distributor, Investors are requested to also provide the EUIN of the individual ARN holder or of employee/relationship manager/sale person of the Distributor interacting with the investor. Providing appropriate EUIN in the application/transaction forms would assist in tackling the problem of mis-selling even if the Sales personnel on whose advice the transaction was executed by investor leaves the employment of the distributor or his/her sub broker. If the distributor has not given any advice pertaining to the investment (i.e. transaction is 'execution only'), then the EUIN box may be left blank, but it would be mandatory for the investor to provide confirmation as mentioned in the application form.
