Section I – INTRODUCTION

A. RISK FACTORS

STANDARD RISK FACTORS

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuate, the value of your investment in the scheme may go up or down.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the scheme.
- Aditya Birla Sun Life Global Real Estate Fund does not in any manner indicate either the quality of the scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs. 100,000/- made by it towards setting up the Fund.
- The present scheme is not a guaranteed or assured return scheme.

SCHEME SPECIFIC RISK FACTORS

1. The Scheme intends to predominantly invest in Global mutual funds that invest in real estate securities , Under normal market conditions, Global mutual funds that invest in real estate securities invests in a diversified portfolio of equities and/or other transferable securities (warrants on transferable securities – up to a maximum of 10% of the Sub-Fund's net assets – and convertible bonds) issued by companies established, listed or traded in any country worldwide and operating in the real estate sector. The Investment Manager will select companies whose main revenue or activity is linked to property, real estate management and/or development.
2. The Sub-Fund may also invest, on an ancillary basis, in other transferable securities (including warrants on transferable securities up to 10% of the Sub-Fund's net assets), money market instruments, units of UCITS and other UCIs and deposits as described in Part III of the prospectus. However, Investments in UCITS and UCIs may not exceed a total of 10% of the net assets. Where the Sub-Fund invests in warrants on transferable securities, note that the Net Asset Value may fluctuate more than if the Sub-Fund were invested in the underlying assets. All risks associated with such scheme, including performance of their underlying equity portfolio, derivative instruments, off-shore investments etc., will therefore be applicable in the case of the Scheme. Investors who intend to invest in the Scheme are required to and deemed to have understood the risk factors of the underlying scheme.
3. To the extent that the underlying scheme invest in corporate debt securities, they are subject to the risk of an issuer's inability to meet interest and principal payments on its debt obligations (credit risk). Debt securities may also be subject to price volatility due to factors such as changes in credit rating, interest rates, general level of market liquidity and market perception of the creditworthiness of the issuer, among others (market risk).
4. To the extent that the underlying scheme are invested in fixed income securities, the NAV of the Units issued under the Scheme is likely to be affected by changes in the general level of interest rates. When interest rates decline, the value of a portfolio of fixed income securities can be expected to rise. Conversely, when interest rates rise, the value of a portfolio of fixed income securities can be expected to decline.
5. The liquidity of the Scheme' investments may be inherently restricted by the liquidity of the underlying scheme in which it has invested.
6. The Investors shall bear the recurring expenses of the Scheme in addition to those expenses (recurring expenses and load) of the underlying scheme. The load and the recurring expenses charged by the underlying scheme may change from time to time. Therefore, the returns that they may receive may be materially impacted or may, at times, be lower than the returns that the investors directly investing in the underlying scheme could obtain.

7. The disclosures of portfolio for the Scheme will be limited to the particulars of the underlying scheme and money market instruments/ liquid funds / money market mutual funds where the Scheme has invested. Investors may, therefore, not be able to obtain specific details of the investments of the underlying scheme.
8. Any change in the investment policies or fundamental attributes of any underlying scheme is likely to affect the performance of the Scheme.
9. **Currency Risk** – Investments in Global mutual funds that invest in real estate securities are subject to currency risk. Returns to investors are the result of a combination of returns from investments and from movements in exchange rates. For example, if the Rupee appreciates vis-à-vis the US\$, the extent of appreciation will lead to reduction in the yield to the investor. However, if the Rupee appreciates against the US Dollar by an amount in excess of the interest earned on the investment, the returns can even be negative. Again, in case the Rupee depreciates vis-à-vis the US\$, the extent of depreciation will lead to a corresponding increase in the yield to the investor. Going forward, the Rupee may depreciate (lose value) or appreciate (increase value) against the currencies of the countries where the Scheme will invest.
10. **Country Risk** – Country risk arises from the inability of a country to meet its financial obligations. It is the risk encompassing economic, social and political conditions in a foreign country which might adversely affect the interests of the Scheme.

SPECIAL RISK CONSIDERATIONS RELATED TO GLOBAL MUTUAL FUNDS THAT INVEST IN REAL ESTATE SECURITIES

Investors should note that investments in the Sub-Fund are exposed to the financial and market risks that accompany investments in equities and these have been set out in greater detail below. While equities may offer the potential for greater long-term growth than most debt securities, equities generally have higher volatility. The Sub-Fund is focused on a particular industry sector, namely the real estate sector, and concentrates its investments in real estate securities and real estate investment trusts (REITs) which are listed on recognized stock exchanges. This concentration may lead to higher price volatility. Risks of investing in the Sub-Fund are similar to those associated with direct ownership of real estate, including changes in real estate values and property taxes, interest rates, cash flow of underlying real estate assets, supply and demand, and the management skill and creditworthiness of the issuer. REITs may also be affected by tax and regulatory requirements. The Sub-Fund invests in foreign securities, which involve special risks, including currency fluctuations, lower liquidity, political and economic uncertainties, and differences in accounting standards. The Sub-Fund may invest in small and medium capitalized companies, which may be more susceptible to price swings and less liquidity than larger capitalized companies. Investors should note that the Sub-Fund may invest in real estate investment trusts that have not been authorized by the relevant Regulator and may not be directly available to the residents.

• Real Estate Risk

Investment in issuers that are principally engaged in real estate may subject the Sub-Fund to risks similar to those associated with the direct ownership of real estate including, terrorist attacks, war or other acts that destroy real property (in addition to securities market risks). These companies are sensitive to factors such as changes in real estate values and property taxes, interest rates, cash flow of underlying real estate assets, supply and demand, and the management skill and credit worthiness of the issuer. REITs may also be affected by tax and regulatory requirements. The above should not be considered to be an exhaustive list of the risks which potential investors should consider before investing into the Sub-Fund. Potential Investors in Aditya Birla Sun Life Global Real Estate Fund should be aware that an investment in the Sub-Fund may be exposed to other risks from time to time and should consult their financial advisor, banker, accountant or lawyer.

• Risk Relating To Distributions

Investors should be aware that the Manager may make distributions from both the capital and/or the income of the Sub-Fund. Where an investor has elected to receive distributions, in the event the Manager determines to make a distribution from the capital of the Sub-Fund investors should be aware that any distributions made from the capital of the Sub-Fund may have the effect of reducing the investor's original investment in the Sub-Fund and that the net asset value of the Sub-Fund may decrease. Investors should also understand that any

declaration of a distribution may not indicate whether the Sub-Fund has made profit whether of a capital or income nature.

- **Political and/or Regulatory Risks**

The value of the Sub-Fund's investments may be affected by uncertainties such as international political developments, changes in government policies, changes in taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investment may be made. Furthermore, the legal infrastructure and accounting, auditing and reporting standards in certain countries in which investment may be made may not provide the same degree of investor protection or information to investors as would generally apply in major securities markets. Foreign ownership restrictions in some markets may mean that corporate actions entitlements in relation to any collective investment scheme or other investments the Fund is invested into may not always be secured or may be restricted.

- **Portfolio Management Risk**

The Manager may engage in various portfolio strategies on behalf of the Sub-Fund by the use of futures and options for efficient portfolio management purposes only. Due to the nature of futures, cash to meet initial and future margin deposits may be held by a broker with whom the Fund has an open position. On execution of the option the Sub-Fund may pay a premium to the counterparty. In the event of bankruptcy of the counterparty the option premium may be lost in addition to any unrealized gains where the contract is "in the money".

- **Foreign Exchange/Currency Risk**

The Sub-Fund may invest its assets in securities denominated in a wide range of currencies, some of which may not be freely convertible. The Net Asset Value of the investments of the Sub-Fund as expressed in USD will fluctuate in accordance with the changes in the foreign exchange rate between the USD and the currencies in which the sub-Fund's investments are denominated. The Sub-Fund may therefore be exposed to a foreign exchange/currency risk. It may not be possible or practicable to hedge against the consequent foreign exchange/ currency risk exposure.

- **Premium Risk**

Where the Sub-Fund acquires or values securities in the over-the-counter market there is no guarantee that the Sub-Fund will be able to realise such securities at a premium due to the nature of the over the-counter market. Subject to the interests of investors and/or the Sub-Fund, the Manager shall make reasonable efforts to reduce the Sub-Fund's exposure to such premium risk.

- **Counterparty and Settlement Considerations**

The Sub-Fund will be exposed to credit risk on the counterparties with which it trades particularly in relation to options, futures, contracts and other derivative financial instruments that are not traded on a recognised market. Such instruments are not afforded the same protections as may apply to participants trading futures or options on organised exchanges, such as the performance guarantee of an exchange clearing house. The Sub-Fund will be subject to the possibility of the insolvency, bankruptcy or default of a counterparty with which the Sub-Fund trades, which could result in substantial losses to the Sub-Fund. The Sub-Fund will also be exposed to a credit risk on parties with whom it trades securities, and may also bear the risk of settlement default, in particular in relation to debt securities such as bonds, notes and similar debt obligations or instruments. Investors should also note that settlement mechanisms in emerging markets are generally less developed and reliable than those in more developed countries and that this therefore increases the risk of settlement default, which could result in substantial losses for the Sub-Fund in respect to investments in emerging markets. Investors should also note that the securities of small capitalisation companies as well as the securities of companies domiciled in emerging markets are less liquid and more volatile than more developed stock markets and this may result in fluctuations in the price of the Units.

- **Emerging Markets Risk**

The Sub-Fund may invest in equity securities of companies in emerging markets. Such securities may involve a high degree of risk and may be considered speculative. Risks include (i) greater risk of expropriation, confiscatory taxation, nationalization, and social, political and economic stability; (ii) the small current size of

the markets for securities of emerging markets issuers and the currently low or non-existent volume of trading, resulting in lack of liquidity and in price volatility, (iii) certain national policies which may restrict the Sub-Fund's investment opportunities including restrictions on investing in issuers or industries deemed sensitive to relevant national interests; and (iv) the absence of developed legal structures governing private or foreign investment and private property.

- **Price Volatility**

The value of the Sub-Fund changes as the prices of its investments go up and down. Equity securities face market, issuer and other risks, and their values may go up or down. Equity securities face market, issuer and other risks, and their values may go up or down, sometimes rapidly and unpredictably. Market risk is the risk that securities may decline in value due to factors affecting securities market generally or particular industries. Issuer risk is the risk that the value of a security may decline for reasons relating to the issuer, such as changes in the financial condition of the issuer. While equities may offer the potential for greater long-term growth than most debt securities, they generally have higher volatility. The Sub-Fund may invest in small-and mid-sized companies, which may be more susceptible to greater price swings than larger companies because they have fewer financial resources, more limited product and market diversification and may be dependent on a few key managers.

- **Market Trend**

From time to time, the stock market may not favour the securities in which the Sub-Fund invests. Rather, the market could favour stocks in industries to which the Sub-Fund is not exposed, or may not favour equities at all.

- **Industry Concentration**

As a result the Sub-Fund concentrating its assets in securities related to a particular industry, the Sub-Fund may be subject to greater market fluctuation than a fund which has securities representing a broader range of investment alternatives.

RISK FACTORS ASSOCIATED WITH INVESTMENTS IN FIXED INCOME SECURITIES

- **Price-Risk or Interest-Rate Risk:** Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.
- **Credit Risk:** In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in Government securities, there is no credit risk to that extent.
- **Liquidity or Marketability Risk:** This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.
- **Reinvestment Risk:** Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.
- Different types of securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively more risky than bonds, which are AAA rated.

ADDITIONAL RISK FACTORS

There can be temporary illiquidity of the securities that are lent out and the Fund may not be able to sell such lent-out securities, resulting in an opportunity loss. In case of a default by counterparty, the loss to the fund can be equivalent to the securities lent.

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME:

The Scheme/Plan shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme/Plan(s). In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (Mutual Funds) Regulations 1996, as amended from time to time would become applicable automatically without any reference from SEBI and accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. SPECIAL CONSIDERATIONS:

- Neither this Scheme Information Document nor the Units have been registered in any jurisdiction. The distribution of this Scheme Information Document in certain jurisdictions may be restricted or totally prohibited and accordingly, persons who come into possession of this Scheme Information Document are required to inform themselves about, and to observe, any such restrictions and / or legal requirements.
- Investors should study this Scheme Information Document carefully in its entirety and should not construe the contents hereof as advice relating to legal, taxation, investment or any other matters. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of investment in the Scheme will endure indefinitely. Investors may, if they wish, consult their legal, tax, investment and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, before making a decision to invest/redeem Units. Investors who intend to invest in the Scheme are required to and deemed to have understood the risk factors associated with the scheme.
- From time to time, funds managed by the affiliates / associates of the Sponsor may+ invest either directly or indirectly in the Scheme. The funds managed by these affiliates/associates may acquire a substantial portion of the Scheme's Units and collectively constitute a major investment in the Scheme. Accordingly, Redemption of Units held by such funds may have an adverse impact on the value of the Units of the Scheme because of the timing of any such Redemption and may affect the ability of other Unit Holders to redeem their respective Units.
- Changes in Government Policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Scheme.
- The NAV of the scheme may be affected by changes in the general market conditions, factors and forces affecting capital market in particular, level of interest rates, various market related factors, settlement periods and transfer procedures.
- A Unitholder may invest in the scheme and acquire a substantial portion of the scheme units. The repurchase of units by the Unitholder may have an adverse impact on the units of the scheme, because the timing of such repurchase may impact the ability of other Unit holders to repurchase their units.
- Mutual Funds are vehicles of securities investments that are subject to market and other risks and there can be no guarantee against loss resulting from investing in the Scheme. The various factors that impact the value of the Scheme' investments include, but are not restricted to, fluctuations in the bond markets, fluctuations in interest rates, prevailing political and economic environment, changes in government policy, factors specific to the issuer of the securities, tax laws, liquidity of the underlying instruments, settlement periods, trading volumes etc.
- Within the regulatory limits, the AMC may choose to invest in unlisted securities that offer attractive yields. Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. This may however increase the risk of the portfolio.
- The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise, in the event that the Scheme is wound up for the reasons and in the manner provided in Statement of Additional Information (SAI) / Scheme Information Document.
- Redemptions due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustees, the Mutual Fund, the AMC, their directors or their employees shall not be liable for any tax consequences that may arise.

- There is no guarantee or assurance on the frequency or quantum of dividends, which shall be subject to availability of distributable surplus.
- Execution of investment strategies depends upon the ability of the fund manager to identify such opportunities which may not be available at all times and that the decisions made by the fund manager may not always be profitable. Investors may note that AMC/Fund Manager's investment decisions may not always be profitable, as actual market movements may be at variance with anticipated trends.
- Growth, appreciation, dividend, bonus, income, etc if any, referred to in this Document are subject to the tax laws and other fiscal enactments as they exist from time to time
- In respect of transaction in Units of the Scheme through Stock Exchange Platform for Mutual Funds, allotment and redemption of Units on any Business Day will depend upon the modalities of processing viz. collection of application form, the order processing / settlement by respective stock exchanges and their respective clearing corporations, on which the Fund has no control. Moreover, transactions conducted through the Stock Exchange Platform shall be governed by the guidelines and directives issued by respective recognised stock exchange(s).

The investors under the Scheme shall bear the recurring expenses of the scheme in addition to the expenses of underlying scheme in which the scheme makes investment.

- The Product labeling mandated by SEBI is to provide investors an easy understanding of the risk involved in the kind of product / scheme they are investing to meet their financial goals. The Riskometer categorizes the schemes of Fund under different levels of risk based on the respective scheme's investment objective, asset allocation pattern, investment strategy and typical investment time horizon of investors. Therefore, the schemes falling under the same level of risk in the Riskometer may not be similar in nature. All investments by the Scheme and the Mutual Fund will always be within the investment restrictions as specified in the SEBI (MF) Regulations. Pursuant to the Regulations, the following investment and other restrictions are presently applicable to the scheme.

- The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the SEBI Act, 1992. Such investment limit may be extended to 12% of the NAV of the Scheme with the prior approval of the Board of Trustees and the Board of the AMC. Provided that, such limit shall not be applicable for investments in government securities, treasury bills and collateralized borrowing and lending obligations. Provided further that investment within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with the Board.
- The Scheme does not intend to invest in unrated debt instruments. For this purpose, unrated securities shall exclude instruments such as CBLO, Reverse Repo, short term deposits to which rating is not applicable.
- Pending deployment of the corpus of the Scheme in securities in terms of investment objective, the Fund can invest the corpus of the Scheme in short term deposits of scheduled commercial banks in accordance with the guidelines issued by SEBI. Accordingly, as presently prescribed, the requirements of SEBI Circulars; SEBI/IMD/CIR No. 1/91171/ 07 dated April 16, 2007 and SEBI/IMD/CIR No.7/129592/08 dated June 23, 2008, will be adhered to.
- The Scheme shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase / redemption of Units or payment of interest and dividend to the Unitholders.

Provided that the Fund shall not borrow more than 20% of the net assets of any individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.

- Save as otherwise expressly provided under SEBI (MF) Regulations, the Mutual Fund shall not advance any loans for any purpose.
- The Scheme shall be subject to the following investment restrictions:
 - a) It shall not invest in any other fund of funds scheme;
 - b) It shall not invest its assets other than in scheme of mutual funds, except to the extent of funds required for meeting the liquidity requirements for the purpose of repurchases or redemptions, as disclosed in the Scheme Information Document of fund of funds scheme.

The Trustees may alter the above restrictions from time to time to the extent that changes in the Regulations may allow and as deemed fit in the general interest of the unit holders.

These investment restrictions shall in the ordinary course apply as at the date of the most recent transaction or commitment to invest, and changes do not have to be effected merely because, owing to appreciations or depreciations in value, or by reason of the receipt of any rights, bonuses or benefits in the nature of capital or of any scheme of arrangement or for amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, AMC shall as soon as possible take appropriate corrective action, taking into account the interests of the Unitholders.

In addition, certain investment parameters may be adopted internally by AMC, and amended from time to time, to ensure appropriate diversification / security for the Fund. The Trustee Company / AMC may alter these above stated limitations from time to time, and also to the extent the SEBI (Mutual Funds) Regulations, 1996 change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for Mutual Funds to achieve its investment objective. As such all investments of the Scheme will be made in accordance with SEBI (Mutual Funds) Regulations, 1996, including Schedule VII thereof.

Value Systematic Transfer Plan (Value STP):

Value Systematic Transfer Plan, is a facility (hereinafter referred as 'Value STP') wherein Unit holder(s) of eligible open-ended Scheme(s) of Aditya Birla Sun Life Mutual Fund [hereinafter referred to as "Fund"] can opt to systematically transfer amount(s), which may vary based on the value of investments already made/transferred under this facility, on the date of transfer at pre-determined intervals from open-ended Scheme(s) of the Fund [hereinafter referred to as "Transferor Scheme"] to the Growth Option of open-ended equity Scheme(s) of the Fund [hereinafter referred to as "Transferee Scheme"].

The key features of Value STP are mentioned below:

- (a) In Value STP (as per the Frequency opted by the Unitholder i.e. Monthly or Quarterly) Unitholders will be eligible to transfer fixed amount per

installment OR the amount as determined by the following formula whichever is higher:

$$[(\text{First installment amount}) \times (\text{Number of installments including the current installment})] \text{ less } (\text{Market Value of the investments through Value STP in the Transferee Scheme on the date of transfer}).$$

If the amount of transfer as calculated by the above formula is less than Rs. 500, then the default amount of Rs. 500 will be transferred to the Transferee Scheme on the trigger date.

However, in case of redemption or switch-out of Units allotted under Value STP in the Transferee Scheme, the balance instalments under Value STP will be processed for the fixed instalment amount only as specified by the Unitholder at the time of enrolment.

On the date of transfer, if the market value of the investments in the Transferee Scheme through Value STP is higher than the Investment Value for that period $[(\text{first installment amount}) \times (\text{number of installments; including the current installment})]$, then there would be no STP on that trigger date effected from the Transferor Scheme.

- (b) The first instalment under Value STP will be processed for the fixed instalment amount mentioned by the Unitholder at the time of enrolment.

From the second instalment onwards, the amount to be transferred shall be computed as per formula stated in (a) above.

(c) The minimum number of installments and amount for enrollment to avail Value STP are as below:

Frequency	Trigger Dates	Minimum Value STP amount (Rs.)
Monthly	1st, 7th, 10th, 14th, 20th, 21st, 28th	For STP installments greater than Rs. 500 but less than Rs.999, Unitholders are required to instruct for minimum 12 transfers of Rs. 500 and in multiples of Rs. 1 thereafter.
Quarterly		
		For STP installments of Rs.1000 and above, Unitholders are required to instruct for minimum 6 transfers of Rs.1000 and in multiples of Rs. 1 thereafter.

(d) The maximum amount of transfer under Value STP would be limited to twice the amount per instalment mentioned in the application form at the time of enrolment.

(e) In case none of the frequencies have been selected or in case of any ambiguity, Monthly frequency shall be treated as the default Frequency. If

STP date is not specified or in case of any ambiguity then 7th Business Day of the month will be treated as default date.

(f) In case the date of transfer falls on a Non-Business Day, the immediate next Business Day will be considered for the purpose of determining the applicability of NAV.

(g) In case of valid enrolment forms received, indicating choice of option other than the Growth Option in the Transferee Scheme, it will be deemed as the Growth Option in Transferee Scheme and processed accordingly.

(h) A Single Value STP Enrolment Form can be filled for transfer into only one Scheme/Plan/Option.

(i) Unitholder has the right to discontinue Value STP at any time he/she so desires by sending a written request at least 7 (seven) days in advance to any of the offices of the Fund or its Authorised Collection Centres.

(j) Value STP will be terminated/not processed under the following circumstances:

(i) On marking of lien or pledge of Units in the Transferor Scheme (ii) On receipt of intimation of death of the Unitholder.

Subsequent capital appreciation, if any, will be the capital appreciation between the previous CATP date (where CATP has been successfully processed and paid) and the immediate next CATP date.

The key features of CATP are mentioned below:

(a) CATP is offered at Monthly and Quarterly intervals. In case none of the frequencies have been selected or in case of any ambiguity, Monthly frequency shall be treated as the default Frequency. If STP date is not specified or in case of any ambiguity then 7th Business Day of the month will be treated as default date. In case the date of transfer falls on a Non-Business Day, the immediate next Business Day will be considered for the purpose of determining the applicability of NAV.

(b) The minimum amount required to trigger instalment under CATP is Rs. 1 and in multiples of Rs. 1 thereafter.

(c) A Single CATP Enrolment Form can be filled for transfer into only one Scheme/Plan/Option.

Value of above investment as on March 31, 2018 (post all applicable expenses) (B)	10,902.89	950.299	11.473
Expenses charged during the year (C)	150.00		
Value of above investment as on March 31, 2018 (after adding back all expenses charged) (D) [D= B+C]	11,052.89	950.299	11.631
Returns (%) (post all applicable expenses) (E) [E= (B-A)/A]		9.03%	
Returns (%) (without considering any expenses) (F) [F= (D-A)/A]		10.53%
