Section I – INTRODUCTION

A. RISK FACTORS

STANDARD RISK FACTORS

- Mutual Funds and securities investments are subject to market risks and there can be no assurance or guarantee that the objectives of the Scheme will be achieved.
- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down depending on the various factors and forces affecting capital markets and money markets.
- Past performance of the Sponsor / AMC / Mutual Fund does not guarantee future performance of the Scheme and may not necessarily provide a basis of comparison with other investments.
- Aditya Birla Sun Life Nifty SDL Apr 2027 Index Fund is the name of the Scheme and does not, in any manner, indicate either the quality of the Scheme or its future prospects and returns.
- The Sponsors are not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs.1,00,000 made by it towards setting up the Fund.
- The present scheme is not a guaranteed or assured return scheme.

SCHEME SPECIFIC RISK FACTORS

Tracking errors are inherent in any index fund and such errors may cause the scheme to generate returns which are not in line with the performance of Nifty SDL Apr 2027 Index or one or more securities covered by / included in the Nifty SDL Apr 2027 Index and may arise from a variety of factors including but not limited to:

- Any delay in the purchase or sale of shares due to illiquidity in the market, settlement and realisation of sales proceeds, delay in credit of securities or in receipt and consequent reinvestment of IDCW, etc.
- The index reflects the prices of securities at a point in time, which is the price at close of business day on National Stock Exchange of India Limited (NSE). The Scheme, however, may trade the securities at different points in time during the trading session and therefore the prices at which the scheme trades may not be identical to the closing price of each scrip on that day on the NSE. In addition, the scheme may opt to trade the same securities on different exchanges due to price or liquidity factors, which may also result in traded prices being at variance from NSE closing prices.
- NSE Indices Limited (formerly known as India Index Services & Products Limited ("IISL")) undertakes periodic reviews of the fifty securities that are represented in the Nifty SDL Apr 2027 Index and from time to time may exclude existing securities or include new ones. In such an event, the scheme will endeavor to reallocate its portfolio to mirror the changes. However, there allocation process may not occur instantaneously and may not permit precise mirroring of the Nifty SDL Apr 2027 Index during this period.
- The potential of trades of ail may result in the scheme not having acquired the security at the price necessary to mirror the index.
- Transaction and other expenses, such as but not limited to brokerage, custody, trustee and investment management fees.
- Being an open ended scheme, the scheme may hold appropriate levels of cash or cash equivalents to meet on going redemptions.

7. The scheme may not be able to acquire or sell the desired number of securities due to conditions prevailing in the securities market, such as, but not restricted to circuit filters in the securities, liquidity and volatility in security prices.
- Due to the reasons mentioned above and other reasons that may arise, it is expected that the scheme may have a tracking error not to exceed by of 2% per annum from its Benchmarks.
 - However, it needs to be clearly understood that this is just an indicative range and that the actual tracking error can be higher or lower than the range given.
 - In the event the Nifty SDL Apr 2027 Index is dissolved or is withdrawn by NSE Indices Limited or is not published due to any reason whatsoever, the Trustee reserves the right to modify the scheme so as to track a different and suitable index or to suspend tracking the Nifty SDL Apr 2027 Index till such time it is dissolved/withdrawn or not published and appropriate intimation will be sent to the Unit holders of the scheme. In such a case, the investment pattern will be modified suitably to match the composition of the securities that are included in the new index to be tracked and the scheme will be subject to tracking errors during the intervening period.

Passive Investments:

The Scheme is not actively managed. Since the Scheme is linked to index, it may be affected by a general decline in the Indian markets relating to its underlying index. The Scheme as per its investment objective invests in Securities which are constituents of its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

Risk Factors associated with investments in Fixed Income Securities:

- **Price-Risk or Interest-Rate Risk:** Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.
- **Credit Risk:** In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit

rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in Government securities, there is no credit risk to that extent.

- **Liquidity or Marketability Risk:** This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today's characteristic of the Indian fixed income market.
- **Reinvestment Risk:** Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.
- **Pre-payment Risk:** Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.
- Different types of securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the Scheme's risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively riskier than bonds, which are AAA rated.
- The above are some of the common risks associated with investments in fixed income and money market securities. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis.

Tracking Error Risk:

The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance and changes to the underlying index and regulatory restrictions, lack of liquidity which may result in Tracking Error. Hence it may affect AMC's ability to achieve close correlation with the underlying index of the Scheme. The Scheme's returns may therefore deviate from its underlying index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the Scheme. The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index.

Risks factors associated with investments in Repo Transactions in Corporate Bond:

In repo transactions, also known as are poor sale repurchase agreement, securities are sold with the seller agreeing to buy them back at later date. The repurchase price should be greater than the original sale price, the difference effectively representing interest. A repo is economically similar to a secured loan, with the buyer receiving corporate debt securities as collateral to protect against default. The Scheme may invest in repo of corporate debt securities which are subject to the following risks:

- **Counter party Risk:** This refers to the inability of the seller to meet the obligation to buy back securities at the contracted price on the contracted date. The Investment Manager will endeavour to manage counterparty risk by dealing only with counterparties, having strong credit profiles, approved by our credit risk analysis team. The exposure to each counterparty will be within the overall approved credit limits. Also the counterparty risk is to an extent mitigated by taking collateral equivalent in value to the transaction after knocking off a minimum haircut on the intrinsic value of the collateral. In the event of default by the repo counterparty, the scheme shall have recourse to the corporate debt securities.
- **Collateral Risk:** Collateral risk arises when the market value of the securities is inadequate to meet the repo obligations. This risk is mitigated by restricting participation in repo transactions only in AA or equivalent and above rated money market and corporate debt securities. Any rating downgrade will tantamount to either an early termination of the repo agreement or a call for fresh margin to meet the minimum haircut requirement. In addition, the Investment manager may apply a higher haircut on the underlying security than mentioned above to adjust for the illiquidity and interest rate risk on the underlying instrument. The adequacy of the collateral will be monitored on a daily basis by considering the daily market value & applying the prescribed haircut. The fund manager shall then arrange for additional collateral from the counterparty, within a period of 1 business day. If the counterparty is not able to top-up either in form of cash / collateral, it shall tantamount to early termination of the repo agreement.

Risks Factors Associated with Creation of Segregated Portfolio:

Different types of securities in which the scheme would invest carry different levels and types of risk as given in the Scheme Information Document of the scheme. In addition to the same, unitholders are requested to also note the following risks with respect to Segregated Portfolio:

Liquidity Risk: A lower level of liquidity affecting an individual security (ies) or an entire market may have an adverse bearing on the value of the Segregated Scheme's assets. This may more importantly affect the ability to sell particular securities with minimal impact cost as and when necessary to meet requirement of liquidity or to sell securities in response to triggers such as a specific economic/corporate event. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of a few of the investments. This may impact the NAV of the segregated portfolio and could result into potential loss to the Unit holders.

Credit risk: The scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively riskier than bonds, which are AAA rated. Investment in unrated securities may be riskier compared to investment in rated instruments due to non-availability of third party assessment on the repayment capability of the issuer. As the securities are unrated, an independent opinion of the rating agency on the repayment capability of the issuer will not be available. The issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. This may impact the NAV of the segregated portfolio and resultant loss to the Unit holders.

Listing of units: Listing of units of segregated portfolio in recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further, trading price of units on the stock market may be significantly lower than the prevailing NAV.

C. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. However, if such limit is breached during the NFO of the Scheme, the Fund will endeavour to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

D. SPECIAL CONSIDERATIONS

- Changes in Government Policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Scheme. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Unitholder is advised to consult his / her own professional tax advisor.
- The NAV of the Scheme may be affected by changes in the general market conditions, factors and forces affecting capital market in particular, level of interest rates, various market related factors, settlement periods and transfer procedures.

- Mutual Funds are vehicles of securities investments that are subject to market and other risks and there can be no guarantee against loss resulting from investing in the Scheme. The various factors that impact the value of the Scheme's investments include, but are not restricted to, fluctuations in the bond markets, fluctuations in interest rates, prevailing political and economic environment,

changes in government policy, factors specific to the issuer of the securities, tax laws, liquidity of the underlying instruments, settlement periods, trading volumes etc.

Accordingly, Redemption of Units held by such funds may have an adverse impact on the value of the Units of the Scheme because of the timing of any such Redemption and may affect the ability of other Unit Holders to redeem their respective Units.
- A Unitholder may invest in the scheme and acquire a substantial portion of the scheme units. The repurchase of units by the Unitholder may have an adverse impact on the units of the scheme, because the timing of such repurchase may impact the ability of other Unit holders to repurchase their units.
- In respect of transaction in Units of the Scheme through Stock Exchange Platform for Mutual Funds, allotment and redemption of Units on any Business Day will depend upon the modalities of processing viz. collection of application form, the order processing / settlement by respective stock exchanges and their respective clearing corporations, on which the Fund has no control. Moreover, transactions conducted through the Stock Exchange Platform shall be governed by the guidelines and directives issued by respective recognised stock exchange(s).
- The Product labeling mandated by SEBI is to provide investors an easy understanding of the risk involved in the kind of product / scheme they are investing to meet their financial goals. The Riskometer categorizes the scheme of Fund under different levels of risk based on the respective scheme's investment objective, asset allocation pattern, investment strategy and typical investment time horizon of investors. Therefore, the scheme falling under the same level of risk in the Riskometer may not be similar in nature. Investors are advised before investing to evaluate a scheme not only on the basis of the Product labeling (including the Riskometer) but also on other quantitative and qualitative factors such as performance, portfolio, fund managers, asset manager, etc. and shall also consult their financial advisers, if they are unsure about the suitability of the scheme before investing. While the objective of the Scheme is to track the index, the performance may not be commensurate with the performance of the Nifty SDL Apr 2027 Index on any given day or over any given period. - The Nifty SDL Apr 2027 Index reflect the prices of securities at close of business hours.
- However, the Scheme may buy or sell the securities at different points of time during the trading session at the then prevailing prices which may not correspond to the closing prices on the NSE.
- NSE Indices Limited undertakes the periodical review of the scrips that comprise the Nifty SDL Apr 2027 Index and may either exclude or include new securities. In such an event, the Scheme will endeavour to reallocate its portfolio but the available investment/ disinvestment opportunities may not permit precise mirroring of the Nifty SDL Apr 2027 Index in a short period of time.
- The charging of expenses to the Scheme including investment management fees and custodian fees.
- The potential for trades to fail, which may result the Schemes not having acquired shares at a price necessary to track the index.

- The holding of a cash position and accrued income prior to distribution and accrued expenses.
- Disinvestments to meet redemptions, recurring expenses, payout of IDCW etc.

Due to the reasons mentioned above the other reasons that may arise, it is expected that the schemes may have a tracking error in the range of 2% per annum from their respective Benchmarks. However, in case of events like, IDCW issuance by constituent members, rights issuance by constituent members, and market volatility during rebalancing of the portfolio following the rebalancing of the Underlying Basket, etc. or in abnormal market circumstances, the tracking error may exceed the above limits. However, it needs to be clearly understood that the actual tracking error can be higher or lower than the range given.

G. BENCHMARK

The performance of the scheme will be benchmarked to the performance of **Nifty SDL Apr 2027 Index**.

Benchmark Risk-o-meter as on December 31, 2021:

The index is computed using the total return methodology including price return and coupon return.

1) Methodology for SDL component

Eligibility Norms

SDL should not be a special security

State/UT Selection

Top 15 States/UTs are selected based on their outstanding amount maturing during the twelve months period ending April 30, 2027.

Security Selection

For every selected state/UT, most recently issued SDL maturing during the twelve months period ending April 30, 2027 is selected to be part of the index.

Weight Assignment

- Each state/UT that is part of the Index is given weight based on the total outstanding amount in eligible SDLs of the state/UT maturing during the twelve months period ending April 30, 2027 as on the September 30, 2021
- Single issuer weight is to be capped at 15% as on the base date of the index
- Subsequently, the weights may drift due to price movement.
- Any coupon amount received is assumed to be reinvested in the portfolio on the same date, in the proportion of the existing weights

Index Rebalancing and Reconstitution

- Index will be reviewed at the end of each calendar quarter.
- In case there is a breach of 15% in weight of any state/UT, excess weight will be redistributed in rest of the portfolio proportionally.
- Existing SDLs in the index to be continued if they continue to meet the eligibility criteria. Ineligible SDLs will be excluded from the next rebalancing date.
- Due to any reason (regulatory or otherwise), if the index is rebalanced and
 - If any state/UT gets excluded from the index, but the number of states/UTs is 8 and above, then the weight of the state/UT being excluded will be redistributed among the remaining states/UTs proportionally. This will be subject to 15% issuer limit.
 - If any state/UT gets excluded from the index and the number of states/UTs which are part of the index fall below 8, then new states/UTs will be included in the index based on the state/UT selection and security selection criteria mentioned in the index methodology document above, to take the state/UT count to 8 and the weight of each state/UT will be reset based on the total outstanding amount in eligible SDLs of the state/UT maturing during the twelve months period ending April 30, 2027 as on the data cut-off date subject to 15% issuer limit.
- As the index includes securities that shall mature during the twelve month period ending on the final maturity date of the index, any proceeds from the SDL redemption prior to the final maturity date of the index shall be re-invested using the following waterfall approach:
 - The proceeds from SDL redemption will be reinvested in the longest maturity outstanding SDL issued by the same state/UT and maturing on or just before the index maturity date. This will be subject to 15% single issuer limit
 - In case a replacement in the form of outstanding SDL of the same state/UT cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio of the SDL component on the same date in the proportion of the existing weights. This will be subject to compliance to the SEBI portfolio concentration norms (minimum 8 issuers and single issuer weight cap of 15%)
 - In case due to any reason it is not possible to meet the portfolio concentration norms as prescribed by SEBI, then the proceeds from such redemption shall be reinvested in a T-Bill that is part of the T-Bill component. This will be subject to 15% single issuer limit.
 - If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be assumed to be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate for any subsequent days till the maturity of the index.

Index Termination

The index shall mature on April 30, 2027.

- The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer, which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the SEBI Act, 1992. Considering the nature of the Scheme, investments in such instruments will be permitted upto 5% of its NAV. Provided that, such limit shall not be applicable for investments in government securities, treasury bills and Tri-Party Repos.
- Investment in unrated debt and money market instruments (other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc.) by the Scheme shall not exceed 5% of the net assets of the Scheme. However, all such investments shall be made with the prior approval of the Board of AMC and Trustees.
- The Scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instruments and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging. However, mutual fund schemes may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis. Provided further that, the Scheme shall comply with the norms under this clause within the time and in the manner as may be specified by the Board.
- All investments by the Scheme in CPs would be made only in CPs which are listed or to be listed.
- Pursuant to SEBI Circular no. SEBI/HO/IMD/DF3/CIR/P/2019/147 dated November 29, 2019, the following norms are prescribed for Debt Index Funds to be adopted by the AMC:
 - (a) The constituents of the index shall be aggregated at issuer level.

 - a. The Scheme shall replicate the index completely.
 - b. In the event, if the condition laid down in para (a) above is not feasible due to non-availability of issuances of the issuer forming part of the index, the Scheme may invest in other issuances issued by the same issuer having deviation of +/- 10% from the weighted average duration of issuances forming part of the index, subject to single issuer limit of 15%. Further, at aggregate portfolio level, the duration of the Scheme shall not deviate +/- 5% from the duration of the index.
 - c. Value Systematic Transfer Plan (Value STP):

Value Systematic Transfer Plan, is a facility (hereinafter referred as 'Value STP') wherein Unit holder(s) of eligible open-ended Scheme(s) of Aditya Birla Sun Life Mutual Fund [hereinafter referred to as "Fund"] can opt to systematically transfer amount(s), which may vary based on the value of investments already made/transferred under this facility, on the date of transfer at pre-determined intervals from open-ended Scheme(s) of the Fund [hereinafter referred to as "Transferor Scheme"] to the Growth Option of open-ended equity Scheme(s) of the Fund [hereinafter referred to as "Transferee Scheme"].

The key features of Value STP are mentioned below:

- a. In Value STP (as per the Frequency opted by the Unitholder i.e. Monthly or Quarterly) Unitholders will be eligible to transfer fixed amount per installment OR the amount as determined by the following formula whichever is higher:

$[(\text{First installment amount}) \times (\text{Number of installments including the current installment})] \text{ less } (\text{Market Value of the investments through Value STP in the Transferee Scheme on the date of transfer}).$

If the amount of transfer as calculated by the above formula is less than Rs. 500, then the default amount of Rs. 500 will be transferred to the Transferee Scheme on the trigger date.

However, in case of redemption or switch-out of Units allotted under Value STP in the Transferee Scheme, the balance instalments under Value STP will be processed for the fixed instalment amount only as specified by the Unitholder at the time of enrolment.

On the date of transfer, if the market value of the investments in the Transferee Scheme through Value STP is higher than the Investment Value for that period $[(\text{first installment amount}) \times (\text{number of installments; including the current installment})]$, then there would be no STP on that trigger date effected from the Transferor Scheme.

- b. The first instalment under Value STP will be processed for the fixed instalment amount mentioned by the Unitholder at the time of enrolment.

From the second instalment onwards, the amount to be transferred shall be computed as per formula stated in (a) above.

- c. The minimum number of installments and amount for enrollment to avail Value STP are as below:

Frequency	Trigger Dates	Minimum Value STP amount (Rs.)
Monthly	1st, 7th, 10th, 14th, 20th, 21st, 28 th	For STP installments greater than Rs.500 but less than Rs. 999, Unitholders are required to instruct for minimum 12 transfers of Rs. 500 and in multiples of Re. 1 thereafter.
Quarterly		
		For STP installments of Rs.1000 and above, Unitholders are required to instruct for minimum 6 transfers of Rs 1000 and in multiples of Re.1 thereafter.

- d. The maximum amount of transfer under Value STP would be limited to twice the amount per instalment mentioned in the application form at the time of enrolment.

- e. In case none of the frequencies have been selected or in case of any ambiguity, Monthly frequency shall be treated as the default

	<p>Frequency. If STP date is not specified or in case of any ambiguity then 7th Business Day of the month will be treated as default date.</p> <ol style="list-style-type: none"> In case the date of transfer falls on a Non-Business Day, the immediate next Business Day will be considered for the purpose of determining the applicability of NAV. In case of a specific request received from the Unitholders, account statement shall be provided to the unitholders within 5 business days from the receipt of such request. • No account statements will be issued to unitholders opted to hold units in demat mode, since the statement of account furnished by depository participant periodically will contain the details of transactions. • SCAS sent within the time frame mentioned above is provisional and is subject to realisation of payment instrument and/or verification of documents, including the application form <p>Half Yearly Consolidated Account Statement:</p> <ul style="list-style-type: none"> ▪ A CAS detailing holding across all schemes of all mutual funds at the end of every six months (i.e. September/ March), shall be sent by mail/e-mail on or before 21st day of succeeding month, to all such Unitholders in whose folios no transaction has taken place during that period. Such Consolidated Account Statement shall reflect the latest closing balance and value of the Units prior to the date of generation of the consolidated account statement. ▪ The half yearly consolidated account statement will be sent by e-mail to the Unitholders whose e-mail address is available, unless a specific request is made to receive in physical. <p>COMMUNICATION BY EMAIL</p> <p>For those unitholders who have provided an e-mail address, the AMC will send the communication by email. <p>Creation of Segregated Portfolio</p>	<p>Segregated portfolio will be created, in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:</p> <ul style="list-style-type: none"> • Downgrade of a debt or money market instrument to 'below investment grade, or • Subsequent downgrades of the said instruments from 'below investment grade, or • Similar such downgrades of a loan rating. <p>In case of difference in rating by multiple CRAs, the most conservative rating will be considered. Creation of segregated portfolio will be based on issuer level credit events and as mentioned above implemented at the ISIN level.</p> <p>Further, segregated portfolio may also be created in case of unrated debt or money market instruments of an issuer that does not have any outstanding rated debt or money market instruments. However, such segregation may be done only in case of actual default of either the interest or principal amount by the issuer of such instruments. The Fund shall inform AMFI immediately about the actual default by the issuer. AMFI will disseminate the information about the actual default by the issuer to all AMCs post which the Fund may segregate the portfolio of debt or money market instruments of the said issuer.</p> <p><u>Process of creation of segregated portfolio:</u></p> <p>ABSLAMC will decide on creation of segregated portfolio on the day of credit event and will seek approval of ABSLTPL. Post that ABSLAMC will immediately issue a press release disclosing its intention to segregate such debt and money market instrument and its impact on the investors. ABSLAMC will also disclose in the press release that the segregation shall be subject to trustee approval. Additionally, the said press release will be prominently disclosed on the website of the AMC. ABSLAMC will ensure that till the time the trustee approval is received, which in no case shall exceed 1 business day from the day of credit event, the subscription and redemption in the scheme shall be suspended for processing with respect to creation of units and payment on redemptions.</p> <p>The segregated portfolio shall be effective from the day of credit event, post approval of Trustee.</p> <p>ABSLAMC will issue a press release immediately post approval of ABSLTPL with all relevant information pertaining to the segregated portfolio. The said information shall also be submitted to SEBI.</p> <p>An e-mail or SMS will be sent to all unit holders of the concerned Scheme. The NAV of both segregated and main portfolio will be disclosed from the day of the credit event. All existing unit holders in the Scheme as on the day of the credit event shall be allotted equal number of units in the segregated portfolio as held in the main portfolio.</p> <p>No redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, ABSLAMC will enable listing of units of segregated portfolio on recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer request.</p> <p>If the trustees do not approve the proposal to segregate portfolio, AMC shall issue a press release immediately informing investors of the same.</p>

Valuation and processing of subscriptions and redemptions

The valuation will take into account the credit event and the portfolio will be valued based on the principles of fair valuation (i.e. realizable value of the assets) in terms of the relevant provisions of SEBI (Mutual Funds) Regulations, 1996 and Circular(s) issued thereunder.

All subscription and redemption requests for which NAV of the day of credit event or subsequent day is applicable will be processed as per the existing circular on applicability of NAV. However, in case of segregated portfolio, applicability of NAV will be as under:

1. Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.
2. Investors subscribing to the Scheme will be allotted units only in the main portfolio based on its NAV.

In case ABSLTPL does not approve the above valuation process, all subscription and redemption applications will be processed based on the NAV of total portfolio.

Disclosure requirements

A statement of holding indicating the units held by the investors in the segregated portfolio along with the NAV of both segregated portfolio and main portfolio as on the day of the credit event will be communicated to the investors within 5 working days of creation of the segregated portfolio. Further, adequate disclosure of the segregated portfolio will also appear in all scheme related documents, in monthly and half-yearly portfolio disclosures and in the annual report of the mutual fund and the Scheme. Further, the NAV of the segregated portfolio will be declared on daily basis.

The information regarding number of segregated portfolios created in a scheme shall appear prominently under the name of the scheme at all relevant places such as SID, KIM-cum-Application Form, advertisement, AMC and AMFI websites, etc. The scheme performance required to be disclosed at various places will include the impact of creation of segregated portfolio. The scheme performance will clearly reflect the fall in NAV to the extent of the portfolio segregated due to the credit event and the said fall in NAV along with recovery (ies), if any, will be disclosed as a footnote to the scheme performance. These disclosures regarding the segregated portfolio will be carried out for a period of atleast 3 years after the investments in segregated portfolio are fully recovered/ written-off.

The investors of the segregated portfolio will be duly informed of the recovery proceedings of the investments of the segregated portfolio and status update will be provided to the investors at the time of recovery and also at the time of writing-off of the segregated securities.

Total Expense Ratio ("TER") for the Segregated Portfolio

ABSLAMC will not charge investment and advisory fees on the segregated portfolio. However, TER (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio. The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence. The legal charges related to recovery of the investments of the segregated portfolio will be charged to the segregated portfolio in proportion to the amount of recovery. However, the same will be within the maximum TER limit as applicable to the main portfolio. The legal charges in excess of the TER limits, if any,

will be borne by ABSLAMC. The costs related to segregated portfolio will in no case be charged to the main portfolio.

Monitoring by Trustees

In order to ensure timely recovery of investments of the segregated portfolio, Trustees will ensure that, the ABSLAMC puts in sincere efforts to recover the investments of the segregated portfolio. Upon recovery of money, whether partial or full, it will be immediately distributed to the investors in proportion to their holding in the segregated portfolio. Any recovery of amount of the security in the segregated portfolio even after the write off shall be distributed to the investors of the segregated portfolio. Further, an Action Taken Report (ATR) on the efforts made by the ABSLAMC to recover the investments of the segregated portfolio will be placed in every Trustee meeting till the investments are fully recovered/ written-off.

The Trustees will monitor the compliance of this circular and disclose in the half-yearly trustee reports filed with SEBI, the compliance in respect of every segregated portfolio created.

In order to avoid mis-use of segregated portfolio, trustees will ensure that there is a mechanism in place to negatively impact the performance incentives of Fund Managers, Chief Investment Officers (CIOs), etc. involved in the investment process of securities under the segregated portfolio, mirroring the existing mechanism for performance incentives of the AMC, including claw back of such amount to the segregated portfolio of the scheme.

Creation of segregated portfolio will be optional and at the discretion of ABSLAMC.

Illustration of portfolio segregation

The below illustration explains the impact of portfolio segregation on account of the credit event on the Scheme and its investors.

Total Portfolio	Regular Plan	Direct Plan
Net Assets (A)	200.00	110.00
Units (B)	20.000	10.000
NAV per unit (A)/(B)	10.0000	11.0000

Assuming, the above portfolio has a security with market value of Rs. 20 which has got impacted by a credit event. Based on Trustees approval for segregation of portfolio, total portfolio would be split into main portfolio and segregated portfolio as given below:

Main Portfolio	Regular Plan	Direct Plan
Net Assets before Segregation (A)	200.00	110.00
Value of impacted security (B)	12.90	7.10
Net Assets after segregation (C) = (A) – (B)	187.10	102.90
Units (D)	20.000	10.000
NAV per unit (C)/(D)	9.3548	10.2903

Segregated Portfolio	Regular Plan	Direct Plan
Value of impacted security segregated from Total portfolio	12.90	7.10
Haircut @ 25%	3.23	1.77
Net Assets after Haircut (A)	9.68	5.32

	Units (B)	20.000	10.000
	NAV per unit (A)/(B)	0.4839	0.5323
	Investor Holding	Regular Plan	Direct Plan
	Net Assets in Total Portfolio	200.00	110.00
	Net Assets in Main Portfolio	187.10	102.90
	Net Assets in Segregated Portfolio after Haircut*	9.68	5.32
	*Market value of investor holding will come down to the extent of haircut on the impacted security.		
	Impact on investors:		
	Existing Investors: All existing investors in the scheme as on the day of the credit event will be allotted equal number of units in the segregated portfolio as held in the main portfolio.		
	New Investors: Investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV.		
	Exiting Investors: Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.		
IDCW	The IDCW warrants shall be dispatched to the unitholders within 15 days from the record date. In the event of failure of dispatch of IDCW payments within the stipulated 15 day period, the AMC shall be liable to pay interest @ 15 per cent per annum to the unit holders for the period of such delay. AMC will endeavor to credit the payouts of IDCW directly to the designated Bank A/c of the unitholders of Aditya Birla Sun Life Mutual Fund schemes through any of the available electronic mode (i.e. RTGS / NEFT / Direct Credit / NACHS). AMC reserves the right to use any of the above mode of payment as deemed appropriate for all folios where the required information is available.		
Redemption	Redemption or repurchase proceeds shall be dispatched to the unitholders within 10 working days from the date of redemption or repurchase. The Scheme is an open ended target maturity Index Fund tracking Nifty SDL Apr 2027 Index. A relatively high interest rate risk and relatively low credit risk. As a function of the underlying investments of the Scheme, the maturity of the Scheme is expected to be no greater than 6 years from the date of allotment of the Scheme ("Maturity Date"). The maturity of the Scheme will therefore decline over time up to the Maturity Date. The Scheme will distribute all of its maturity proceeds (Net Assets) to the Unitholders within 10 (Ten) Business days from the date of maturity of the Scheme, in line with current regulatory timelines. The Units can be Redeemed (i.e. sold back to the Mutual Fund) or Switched-out on every Business Day at the Redemption Price. The Redemption / Switch-out request can be made by way of a written request / pre-printed form / relevant tear off section of the Transaction Slip enclosed with the Account Statement, which should be submitted at / may be sent by mail to any of the ISCs. In case an investor has purchased Units of the Scheme on more than one Business Day (either during the New Fund Offer Period, or on an ongoing basis), the Units purchased prior in time will be redeemed/switched-out first. Thus, in case of valid application for redemption/switch-out is made by the investor, those Units of the scheme which have been held for the longest period of time will be redeemed/switched-out first i.e. on a First-in-First-Out basis. However, where Units under a Scheme are held under both Regular and Direct Plans and the redemption / Switch request pertains to the		

	<p>Direct Plan, the same must clearly be mentioned on the request (along with the folio number), failing which the request would be processed from the Regular Plan. However, where Units under the requested Option are held only under one Plan, the request would be processed under such Plan.</p> <p>The Redemption would be permitted to the extent of clear credit balance in the Unit holder's account. The Redemption request can be made by specifying the rupee amount or by specifying the number of Units to be redeemed. If a Redemption request is for both, a specified rupee amount and a specified number of Units, the specified number of Units will be considered the definitive request. If only the Redemption amount is specified by the Unit holder, the AMC will divide the Redemption amount so specified by the Redemption Price to arrive at the number of Units. The request for Redemption of Units could also be in fractions, upto three decimal places. However, in case of units held in electronic (demat) mode, the redemption request can be given only in number of Units. Also Switch transactions are currently not available in case of units held in electronic (demat) mode. In case the Units are held in the names of more than one Unit holder, where mode of holding is specified as "Joint", Redemption requests will have to be signed by all the joint holders. However, in cases of holding specified as 'Anyone or Survivor', any of the Unit holders will have the power to make Redemption request, without it being necessary for all the Unit holders to sign. However, in all cases, the Redemption proceeds will be paid only to the first named holder. AMC will endeavor to credit the redemptions payouts directly to the designated Bank A/c of the unitholder through any of the available electronic mode (i.e. RTGS / NEFT / Direct Credit). AMC reserves the right to use any of the above mode of payment as deemed appropriate for all folios where the required information is available. AMC/Mutual Fund, however, reserves the right to issue a cheque / demand draft inspite of an investor opting for Electronic Payout.</p> <p>Bank Details: In order to protect the interest of investors from fraudulent encashment of cheques, the current SEBI (MF) Regulations have made it mandatory for investors to mention in their application / Redemption request, the bank name and account number. Applications without these details are liable to be rejected.</p>
The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same.	<p>The Units can be repurchased/redeemed (i.e., sold back to the Fund) or Switched-out on every business day, at the Applicable NAV subject to payment of exit load, if any and lock-in period, if any. The Units so repurchased shall not be reissued. The Redemption / Switch-out request can be made by way of a written request / pre-printed form / relevant tear off section of the Transaction Slip enclosed with the Account Statement, which should be submitted at / may be sent by mail to any of the ISCs.</p> <p>In case the Units are held in the names of more than one Unit holder, where mode of holding is specified as "Joint", Redemption requests will have to be signed by all the joint holders. However, in cases of holding specified as 'Anyone or Survivor', any of the Unit holders will have the power to make Redemption request, without it being necessary for all the Unit holders to sign. However, in all cases, the Redemption proceeds will be paid only to the first named holder.</p> <p>For further details, please refer to "Redemptions".</p>
Restrictions, if any, on the right to freely retain or dispose of units being offered	<p>Suspension of Sale / Switching Options of The Units:</p> <p>The Mutual Fund at its sole discretion reserves the right to suspend sale and switching of Units in the Scheme temporarily or indefinitely when any of the following conditions exist. However, the suspension of sale and switching of Units either temporarily or indefinitely will be with the approval of the Trustee.</p>

	<ol style="list-style-type: none"> 1. When one or more stock exchanges or markets, which provide basis for valuation for a substantial portion of the assets of the Scheme are closed otherwise than for ordinary holidays. 2. When, as a result of political, economic or monetary events or any circumstances outside the control of the Trustee and the AMC, the disposal of the assets of the Scheme are not reasonable, or would not reasonably be practicable without being detrimental to the interests of the Unit holders. 3. In the event of breakdown in the means of communication used for the valuation of investments of the Scheme, without which the value of the securities of the Scheme cannot be accurately calculated. 4. During periods of extreme volatility of markets, which in the opinion of the AMC are prejudicial to the interests of the Unit holders of the Scheme. 5. In case of natural calamities, strikes, riots and bandhs. 6. In the event of any force majeure or disaster that affects the normal functioning of the AMC or the ISC. 7. If so directed by SEBI. <p>The AMC reserves the right in its sole discretion to withdraw the facility of Sale and Switching option of Units into the Scheme [including any one Plan/Option of the Scheme], temporarily or indefinitely, if AMC views that changing the size of the corpus further may prove detrimental to the existing Unit holders of the Scheme.</p>
Right To Limit Redemptions	<p>Subject to the approval of the Board of Directors of Aditya Birla Sun Life AMC Limited ("ABSLAMC") and the Aditya Birla Sun Life Trustee Private Limited ("Trustee") and also subject to necessary communication of the same to SEBI, the redemption of / switch-out of Units of Scheme(s) of the Fund, may be temporarily suspended/ restricted under the following circumstances that leads to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets:</p> <p>a) Liquidity issues - When markets at large becomes illiquid affecting almost all securities rather than any issuer specific security.</p> <p>b) Market failures, exchange closures - When markets are affected by unexpected events which impact the functioning of exchanges or the regular course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies.</p> <p>c) Operational issues - When exceptional circumstances are caused by <i>force majeure</i>, unpredictable operational problems and technical failures (e.g. a black out). Under the aforesaid circumstances, ABSLAMC / Trustee may restrict redemption for a specified period of time not exceeding 10 working days in any 90 days period. For redemption requests placed during the restriction period the following provisions will be applicable:</p> <p>(iii) For redemption requests upto Rs. 2 lakh the above-mentioned restriction will not be applicable and</p> <p>(iv) Where redemption requests are above Rs. 2 lakh, AMCs shall redeem the first Rs. 2 lakh without such restriction and remaining part over and above Rs. 2 lakh shall be subject to such restriction.</p> <p>ABSLAMC / Trustee reserves the right to change / modify the provisions of right to limit Redemption / switch-out of units of the Scheme(s) pursuant to direction/ approval of SEBI.</p>
Delay in payment of redemption / repurchase	<p>The Asset Management Company shall be liable to pay interest to the unitholders at such rate as may be specified by SEBI for the period of such delay (presently @ 15% per annum).</p>

proceeds and despatch of IDCW warrants	
Transfer of Units	<p>Units are freely transferable, the Asset Management Company shall on production of instrument of transfer together with the relevant documents, register the transfer within thirty days from the date of such production. Further, On listing, the Units of the scheme held in electronic (demat) form would be transferable. Transfers should be only in favour of transferees who are eligible for holding Units under the Scheme. The AMC shall not be bound to recognise any other transfer. For effecting the transfer of Units held in electronic form, the Unitholders would be required to lodge delivery instructions for transfer of Units with the DP in the requisite form as may be required from time to time and the transfer will be effected in accordance with such rules/regulations as may be in force governing transfer of securities in electronic (demat) mode.</p> <p>If a person becomes a holder of the Units consequent to operation of law, or upon enforcement of a pledge, the Fund will, subject to production of satisfactory evidence, effect the transfer, if the transferee is otherwise eligible to hold the Units. Similarly, in cases of transfers taking place consequent to death, insolvency etc., the transferee's name will be recorded by the Fund subject to production of satisfactory evidence.</p> <p>Transfer of units will be subject to payment of applicable stamp duty by the Unitholder(s)</p>

Disclosure related to Risk-o-meter	<p>The Product labeling mandated by SEBI is to provide investors an easy understanding of the risk involved in the kind of product / scheme they are investing to meet their financial goals. The Riskometer categorizes the scheme of Fund under different levels of risk based on the respective scheme's investment objective, asset allocation pattern, investment strategy and typical investment time horizon of</p>

	<p>investors. Therefore, the scheme falling under the same level of risk in the Riskometer may not be similar in nature. Investors are advised before investing to evaluate a scheme not only on the basis of the Product labeling (including the Riskometer) but also on other quantitative and qualitative factors such as performance, portfolio, fund managers, asset manager, etc. and shall also consult their financial advisers, if they are unsure about the suitability of the scheme before investing. Further, pursuant to SEBI circular dated October 05, 2020, Risk-o-meters shall be evaluated on a monthly basis and Mutual Funds/AMCs shall disclose the Risk-o-meters along with portfolio disclosure for their schemes on AMCs website and on AMFI website within 10 days from the close of each month. Disclosure of Potential Risk Class (PRC) Matrix	<p>Pursuant to the provisions of SEBI Circular dated SEBI/HO/IMD/IMD-II DOF3/P/CIR/2021/573 dated June 07, 2021, all debt schemes are required to be classified in terms of a Potential Risk Class matrix consisting of parameters based on maximum interest rate risk (measured by Macaulay Duration (MD) of the scheme) and maximum credit risk (measured by Credit Risk Value (CRV) of the scheme). Mutual Funds are required to disclose the PRC matrix (i.e. maximum risk that a fund manager can take in a Scheme) along with the mark for the cell in which the Scheme resides on the front page of initial offering application form, SID, KIM, common application form and scheme advertisements in the manner as prescribed in the said circular. The scheme would have the flexibility to take interest rate risk and credit risk below the maximum risk as stated in the PRC matrix. Subsequently, once a PRC cell selection is done by the Scheme, any change in the positioning of the Scheme into a cell resulting in a risk (in terms of credit risk or duration risk) which is higher than the maximum risk specified for the chosen PRC cell, shall be considered as a fundamental attribute change of the Scheme in terms of Regulation 18(15A) of SEBI (Mutual Fund) Regulations, 1996.</p> <p>The Mutual Funds shall be required to inform the unitholders about the PRC classification and subsequent changes, if any, through SMS and by providing a link on their website referring to the said change.</p> <p>The Mutual Fund/ AMC shall also publish the PRC Matrix in the scheme wise Annual Reports and Abridged summary.</p>

D. COMPUTATION OF NET ASSET VALUE

The Net Asset Value (NAV) per Unit of the scheme will be computed by dividing the net assets of the scheme by the number of Units outstanding under the scheme on the valuation date. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time.

NAV of Units under the scheme shall be calculated as shown below:

$$\begin{aligned}
 & \text{Market or Fair Value of the scheme's Investments} \\
 & + \text{Current Assets (including accrued income)} \\
 & - \text{Current Liabilities and Provisions (including accrued expenses)}
 \end{aligned}$$

NAV (Rs.) per Unit = _____

No. of Units outstanding under the scheme

The AMC will calculate and disclose the NAV of the scheme on every business day. The NAVs of the Scheme will be calculated upto four decimals and units allotted upto three decimals. NAVs of the growth option and IDCW option will be different after the declaration of the first IDCW.

Particulars	Regular Plan	Direct Plan
	Amount (Rs.)	Amount (Rs.)
Invested at the beginning of the year i.e April 1, 2020 (A)	10,000.00	10,000.00
Value of above investment as on March 31, 2021 (without considering any expenses) (B)	10,748.53	10,748.52
Returns (%) (without considering any expenses) (C) [$C = (B - A) / A$]	7.49%	7.49%
Expenses charged during the year(D)	50.00	50.00
Distribution Expenses/Commission charged during the year (E)	50.00	0.00
Value of above investment as on March 31, 2021 (post all applicable expenses) (F) [$F = B - (D+E)$]	10,648.53	10,698.52
Returns (%) at the end of the year i.e as on March 31, 2021 (post all applicable expenses) (G) [$G = (F - A) / A$]	6.49%	6.99%

- It is assumed that the expenses charged are evenly distributed throughout the year.
- The expenses of the Direct Option under the Scheme will be lower to the extent of the above mentioned distribution expenses/ commission. The NAVs of Direct Plan and Regular Plan will be different.
- Calculations are based on assumed NAVs, and actual returns on your investment may be more, or less.
- Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to consult his or her own financial advisor.
