A debt fund that aims to enhance portfolio returns by investing predominantly in a corporate bond portfolio using the accrual as well as duration strategies,

depending on the fund manager's view on markets and interest rates.

Objective

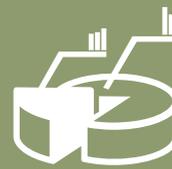

Why Short Term Opportunities Fund?

Where does the scheme invest?

The investment objective of the Scheme is to generate income and capital appreciation by investing 100% of the corpus in a diversified portfolio of debt and money market securities.

The scheme intends to run the portfolio on accrual basis which would involve buying a bond and holding it till maturity thereby earning from the accruing of interest. The portfolio will be inclined towards AAA rated corporate bonds having ~over 70% allocation. The fund may allocate the remaining assets towards securities that offer higher coupon rate, this may help the fund in generating higher returns over time.

Debt and Money Market securities such that that the Macaulay duration of the fund is in the range of 1-3yrs.
