Name of the Scheme	Aditya Birla Sun Life Dynamic Bond Fund																		
Type of the Scheme	An open ended dynamic debt scheme investing across duration																		
Inception Date	September 27, 2004																		
No. of Folios & AUM (as on March 31, 2021)	Folios: 23024 AUM (in crs.): Rs. 1,601.47 (Main Portfolio); Rs. 122.32 (Segregated Portfolio)																		
Investment Objective	The investment objective of the scheme is to generate optimal returns with high liquidity through active management of the portfolio by investing in Debt and Money Market Instruments.																		
Asset Allocation Pattern of the Scheme	<p>Under normal circumstances, the asset allocation of the Scheme will be as follows:</p> <p style="text-align: right;">(as a % of net assets)</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center;">Instruments</th> <th style="text-align: center;">Asset Allocation Range</th> <th style="text-align: center;">Normal Allocation*</th> <th style="text-align: center;">Risk Profile of the Instrument</th> </tr> </thead> <tbody> <tr> <td>Government of India Securities</td> <td style="text-align: center;">0% to 100%</td> <td style="text-align: center;">50% to 65%</td> <td style="text-align: center;">Sovereign</td> </tr> <tr> <td>Corporate Bonds</td> <td style="text-align: center;">0% to 100%</td> <td style="text-align: center;">25% to 35%</td> <td style="text-align: center;">Low to Medium</td> </tr> <tr> <td>Cash/liquid Instruments including Money Market Instruments & Short Term Debt Papers**</td> <td style="text-align: center;">0% to 100%</td> <td style="text-align: center;">0 to 25%</td> <td style="text-align: center;">Low</td> </tr> </tbody> </table> <p>*Since the intention of the Fund is to dynamically manage the asset allocation the percentages would change depending on view on interest rates as well as the level of corporate spreads prevailing at that point in time and also availability of different assets at different point of time. ** The short-term debt papers would have a maturity upto 1 year.</p> <p>The investments in securitised debt papers will normally not exceed 50% of the net assets of the Scheme.</p> <p>Pending deployment of funds of the scheme in securities in terms of the investment objectives of the scheme, the AMC may invest the funds of the scheme in short term deposits of scheduled commercial banks as per the guidelines given in SEBI circular dated April 16, 2007 and such other modifications as may be carried out by SEBI from time to time.</p> <p>The scheme may also invest upto 50% of the net assets of the scheme in such derivative instruments as may be introduced from time to time subject to framework specified by SEBI for the purpose of hedging and portfolio balancing and other uses as may be permitted under SEBI Regulations.</p> <p>The scheme may also invest a part of its net assets (not exceeding 50% of its net assets) in overseas markets in bonds and Mutual Funds and such other debt instruments as may be allowed under SEBI Regulations and RBI Regulations, from time to time.</p> <p>Risk Control Investments made by the scheme would be in accordance with the investment objectives of the scheme and provisions of SEBI Regulations. Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process. The AMC believes that this diversification would help achieve the desired level of consistency in returns. The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, rigorous in-depth credit evaluation of the securities proposed to be invested in will be carried out by the investment team of the AMC.</p> <p>The Scheme may also use various derivatives and hedging products from time to time, as would be available and permitted by RBI, in an attempt to protect the value of the portfolio and enhance unitholders' interest. It is proposed to manage the risks by placing limit orders for basket trades and other trades, proactive follow-up with the service providers for daily change in weights in the respective indices as well as closely monitor daily inflows and outflows to and from the Fund. While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.</p>			Instruments	Asset Allocation Range	Normal Allocation*	Risk Profile of the Instrument	Government of India Securities	0% to 100%	50% to 65%	Sovereign	Corporate Bonds	0% to 100%	25% to 35%	Low to Medium	Cash/liquid Instruments including Money Market Instruments & Short Term Debt Papers**	0% to 100%	0 to 25%	Low
Instruments	Asset Allocation Range	Normal Allocation*	Risk Profile of the Instrument																
Government of India Securities	0% to 100%	50% to 65%	Sovereign																
Corporate Bonds	0% to 100%	25% to 35%	Low to Medium																
Cash/liquid Instruments including Money Market Instruments & Short Term Debt Papers**	0% to 100%	0 to 25%	Low																

	<p>Portfolio Turnover</p> <p>The scheme has no explicit constraints either to maintain or limit the portfolio turnover. Portfolio turnover will depend upon the circumstances prevalent at any time and would also depend on the extent of volatility in the market and inflows/outflows in the scheme.</p> <p>It is expected that there would be a higher churning of the portfolio of the scheme as compared to a passive debt fund. A higher churning of the portfolio could attract high transactions of the nature of brokerage, custody charges etc.</p>
<p>Investment Strategy</p>	<p>The investment objective of this Scheme is to optimise returns for the investors by designing a portfolio, which will dynamically track interest rate movements in the short term by reducing duration in a rising rate environment while increasing duration in a falling interest rate environment. The investment strategy would revolve around structuring the portfolio so as to capture positive price movements and minimise the impact of adverse price movements.</p> <p>Since active debt management strategies require an in depth knowledge of and ability to accurately track interest rate movements taking into account various micro and macro factors, it is difficult for an individual investor to adopt such a strategy. Whereas, the investment team of Aditya Birla Sun Life Mutual Fund, through its research and process driven investment strategy, would endeavour to capitalise on the available opportunities in a timely manner. The fund would seek to fulfill the needs of a large number of individual, HNIs as well as large institutional investors who are susceptible to interest rate risks.</p> <p>In order to maximise returns the fund managers may look at curve spreads both on the gilt as well as the corporate bond markets to gain maximum value out of any security/s.</p>
<p>Risk Profile of the Scheme</p>	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the Scheme Information Document carefully for details on risk factors before investment. Scheme Specific Risk Factors are summarized below:</p> <p>Investments in the Scheme are subject to various risk factors including but not limited to risks associated with: investments in Fixed Income Securities such as Price-Risk or Interest-Rate Risk, Credit Risk, Liquidity or Marketability Risk, Reinvestment Risk etc., risks associated with creation of segregated portfolios, investments in REITs and InvITs, investments in unrated securities, investments in Derivatives, including Interest rate swaps, (The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments), investments in Securitised Debt assets which would be in the nature of Mortgage backed securities (MBS) and Asset backed securities (ABS) with underlying pool of assets and receivables like Housing Loans, Auto loans and corporate loans. The various risks associated with securitised assets include Prepayment Risk, Credit Risk, Liquidity Risk, Conversion risk, Price risks etc. The Scheme shall also be subject to risks associated with investments in repo transactions in corporate bond. Different types of securities in which the Scheme would invest as given in the Scheme Information Document/Key Information Memorandum carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher amount of risk than Government securities. The above are some of the common risks associated with investments in various securities. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis. Further, the Fund/AMC is not guaranteeing or assuring any returns. Further, it should be noted that the actual distribution of IDCWs and the frequency thereof are indicative and will depend, inter-alia, on availability of distributable surplus. IDCW payouts will be entirely at the discretion of the Trustee.</p> <p>Investors may, if they wish, consult their legal, tax, investment and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, i.e. before making a decision to invest/redeem Units.</p> <p>Investors in the Scheme are not being offered any guaranteed returns. Please refer to SID for detailed scheme specific risk factors.</p>
<p>Risk Control Strategies</p>	<p>Investments made by the scheme would be in accordance with the investment objectives of the scheme and provisions of SEBI Regulations. Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process. The AMC believes that this diversification would help achieve the desired level of consistency in returns. The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, rigorous in-depth credit evaluation of the securities proposed to be invested in will be carried out by the investment team of the AMC.</p> <p>The Scheme may also use various derivatives and hedging products from time to time, as would be</p>

Also, in case ARN No/ Broker Code is mentioned in the application form, but "Direct Plan" is indicated, the ARN No/ Broker Code will be ignored and the application will be processed under Direct Plan, subject to it being complete in all other aspects. Further, where application is received for Regular Plan without Distributor code or "Direct" mentioned in the ARN Column, the application will be processed under Direct Plan.

- b. Employee Unique Identification Number (EUN) is a unique number allotted to Sales personnel i.e. employee/ relationship manager/ sales person of the distributor interacting with the investor for the sale of mutual fund products. Such sales personnel associated with Distributor, should also be holding a valid NISM certificate. Thus, in case of applications routed through distributors, in addition to the AMFI Registration Number (ARN) of the distributor, investors are requested to also provide the EUN of the individual ARN holder or of employee/relationship manager/sale person of the Distributor interacting with the investor. Providing appropriate EUN in the application/transaction forms would assist in tackling the problem of mis-selling even if the Sales personnel on whose advice the transaction was executed by investor leaves the employment of the distributor or his/her sub broker. If the distributor has not given any advice pertaining to the investment (i.e. transaction is 'execution only'), then the EUN box may be left blank, but it would be mandatory for the investor to provide confirmation as mentioned in the application form.
