#### Section I - INTRODUCTION

#### A. RISK FACTORS

#### STANDARD RISK FACTORS

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuate, the value of your investment in the scheme may go up or down.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the scheme.
- Aditya Birla Sun Life Global Excellence Equity Fund of Fund does not in any manner indicate either the quality of the scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs. 100,000/- made by it towards setting up the Fund.
- The present scheme is not a guaranteed or assured return scheme.

#### SCHEME SPECIFIC RISK FACTORS

#### Risks associated with investing in Julius Baer Global Excellence Equity Fund

- 1. The underlying scheme invests in assets which are generally easy to trade and may therefore be sold at their market value under normal circumstances. However, it cannot be ruled out that in certain extreme situations (e.g. market turbulence) the tradability of the assets in the Fund may be limited. In such situations, it may be possible to sell the assets in the Fund only at a loss, which will reduce the value of the Fund.
- 2. The underlying scheme invests in debt securities which are exposed to the risk that the borrower may not be unable to meet its payment obligations.
- 3. To the extent that the underlying scheme are invested in fixed income securities, the NAV of the Units issued under the Scheme is likely to be affected by changes in the general level of interest rates. When interest rates decline, the value of a portfolio of fixed income securities can be expected to rise. Conversely, when interest rates rise, the value of a portfolio of fixed income securities can be expected to decline.
- 4. The political, legal and economic situation is often unstable in emerging economies and can be subject to rapid and unforeseen changes. This may have a negative impact on international investors as well as on the capital markets of such countries. Accordingly, the performance of Funds which invest in such countries may be negatively affected.
- 5. The liquidity of the Scheme' investments may be inherently restricted by the liquidity of the underlying scheme in which it has invested.
- 6. The Investors shall bear the recurring expenses of the Scheme in addition to those expenses (recurring expenses and load) of the underlying scheme. The load and the recurring expenses charged by the underlying scheme may change from time to time. Therefore, the returns that they may receive may be materially impacted or may, at times, be lower than the returns that the investors directly investing in the underlying scheme could obtain.
- 7. The disclosures of portfolio for the Scheme will be limited to the particulars of the underlying scheme and money market instruments/ liquid funds / money market mutual funds where the Scheme has invested. Investors may, therefore, not be able to obtain specific details of the investments of the underlying scheme.
- 8. Any change in the investment policies or fundamental attributes of any underlying scheme is likely to affect the performance of the Scheme.
- 9. Currency Risk Investments in Global mutual funds are subject to currency risk. Returns to investors are the result of a combination of returns from investments and from movements in exchange rates. For example, if the Rupee appreciates vis-à-vis the US\$, the extent of appreciation will lead to reduction in the yield to the investor. However, if the Rupee appreciates against the US Dollar by an amount in excess of the interest earned on the investment, the returns can even be negative. Again, in case the Rupee depreciates vis-à-vis the US\$, the extent of depreciation will lead to a corresponding increase in the yield to the investor. Going forward, the Rupee may depreciate (lose value) or appreciate (increase value) against the currencies of the countries where the Scheme will invest.
- 10. Country Risk Country risk arises from the inability of a country to meet its financial obligations. It is the risk encompassing economic, social and political conditions in a foreign country which might adversely affect the interests of the Scheme.

#### RISK FACTORS ASSOCIATED WITH INVESTMENTS IN FIXED INCOME SECURITIES

- Price-Risk or Interest-Rate Risk: Fixed income securities such as bonds, debentures and money
  market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of
  existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall
  or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in
  the level of interest rates.
- Credit Risk: In simple terms this risk means that the issuer of a debenture/ bond or a money market
  instrument may default on interest payment or even in paying back the principal amount on maturity.
  Even where no default occurs, the price of a security may go down because the credit rating of an issuer
  goes down. It must, however, be noted that where the Scheme has invested in Government securities,
  there is no credit risk to that extent.
- Liquidity or Marketability Risk: This refers to the ease with which a security can be sold at or near to its valuation Yield-to-Maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.
- Reinvestment Risk: Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.
- Different types of securities in which the scheme would invest as given in the Scheme Information
  Document carry different levels and types of risk. Accordingly, the scheme's risk may increase or
  decrease depending upon its investment pattern. e.g. corporate bonds carry a higher amount of risk than
  Government securities. Further even among corporate bonds, bonds, which are AA rated, are
  comparatively riskier than bonds, which are AAA rated.

#### RISKS FACTORS ASSOCIATED WITH CREATION OF SEGREGATED PORTFOLIO:

Different types of securities in which the scheme would invest carry different levels and types of risk as given in the Scheme Information Document of the scheme. In addition to the same, unitholders are requested to also note the following risks with respect to Segregated Portfolio:

Liquidity Risk: A lower level of liquidity affecting an individual security(ies) or an entire market may have an adverse bearing on the value of the Segregated Scheme's assets. This may more importantly affect the ability to sell particular securities with minimal impact cost as and when necessary to meet requirement of liquidity or to sell securities in response to triggers such as a specific economic/corporate event. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of a few of the investments. This may impact the NAV of the segregated portfolio and could result into potential loss to the Unit holders.

Credit risk: The scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively riskier than bonds, which are AAA rated. Investment in unrated securities may be riskier compared to investment in rated instruments due to non-availability of third party assessment on the repayment capability of the issuer. As the securities are unrated, an independent opinion of the rating agency on the repayment capability of the issuer will not be available. The issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. This may impact the NAV of the segregated portfolio and resultant loss to the Unit holders.

Listing of units: Listing of units of segregated portfolio in recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further, trading price of units on the stock market may be significantly lower than the prevailing NAV.

#### ADDITIONAL RISK FACTORS

There can be temporary illiquidity of the securities that are lent out and the Fund may not be able to sell such lentout securities, resulting in an opportunity loss. In case of a default by counterparty, the loss to the fund can be equivalent to the securities lent.

#### **B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME:**

The Scheme/Plan shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme/Plan(s). In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (Mutual Funds) Regulations 1996, as amended from time to time would become applicable automatically without any reference from SEBI and

accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

#### C. SPECIAL CONSIDERATIONS:

- Neither this Scheme Information Document nor the Units have been registered in any jurisdiction. The
  distribution of this Scheme Information Document in certain jurisdictions may be restricted or totally
  prohibited and accordingly, persons who come into possession of this Scheme Information Document are
  required to inform themselves about, and to observe, any such restrictions and / or legal requirements.
- Investors should study this Scheme Information Document carefully in its entirety and should not construe the contents hereof as advise relating to legal, taxation, investment or any other matters. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of investment in the Scheme will endure indefinitely. Investors may, if they wish, consult their legal, tax, investment and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, before making a decision to invest/redeem Units. Investors who intend to invest in the Scheme are required to and deemed to have understood the risk factors associated with the scheme.
- From time to time, funds managed by the associates of the Sponsor may+ invest either directly or indirectly in the Scheme. The funds managed by these associates may acquire a substantial portion of the Scheme's Units and collectively constitute a major investment in the Scheme. Accordingly, Redemption of Units held by such funds may have an adverse impact on the value of the Units of the Scheme because of the timing of any such Redemption and may affect the ability of other Unit Holders to redeem their respective Units.
- Changes in Government Policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Scheme.
- The NAV of the scheme may be affected by changes in the general market conditions, factors and forces affecting capital market in particular, level of interest rates, various market related factors, settlement periods and transfer procedures.
- A Unitholder may invest in the scheme and acquire a substantial portion of the scheme units. The repurchase of units by the Unitholder may have an adverse impact on the units of the scheme, because the timing of such repurchase may impact the ability of other Unit holders to repurchase their units.
- Mutual Funds are vehicles of securities investments that are subject to market and other risks and there can
  be no guarantee against loss resulting from investing in the Scheme. The various factors that impact the
  value of the Scheme' investments include, but are not restricted to, fluctuations in the bond markets,
  fluctuations in interest rates, prevailing political and economic environment, changes in government policy,
  factors specific to the issuer of the securities, tax laws, liquidity of the underlying instruments, settlement
  periods, trading volumes etc.
- Within the regulatory limits, the AMC may choose to invest in to be listed securities that offer attractive yields. Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. This may however increase the risk of the portfolio.
- The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise, in the event that the Scheme is wound up for the reasons and in the manner provided in Statement of Additional Information (SAI) / Scheme Information Document.
- Redemptions due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustees, the Mutual Fund, the AMC, their directors or their employees shall not be liable for any tax consequences that may arise.
- There is no guarantee or assurance on the frequency or quantum of IDCW, which shall be subject to availability of distributable surplus.

#### **Justification**

The MSCI World Index captures large and mid cap representation across 23 Developed Markets (DM) countries. It approximately captures 87% of the world market cap. Also with over 1,600 constituents, the index covers approximately 85% of the free float-adjusted market capitalization in each country. Hence, it is well suited as a benchmark for a diversified global equity fund.

Further, segregated portfolio may also be created in case of unrated debt or money market instruments of an issuer that does not have any outstanding rated debt or money market instruments. However, such segregation may be done only in case of actual default of either the interest or principal amount by the issuer of such instruments. An e-mail or SMS will be sent to all unit holders of the concerned Scheme. The NAV of both segregated and main portfolio will be disclosed from the day of the credit event. All existing unit holders in the Scheme as on the day of the credit event shall be allotted equal number of units in the segregated portfolio as held in the main portfolio.

However, in order to facilitate exit to unit holders in segregated portfolio, ABSLAMC will enable listing of units of segregated portfolio on recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer request.

If the trustees do not approve the proposal to segregate portfolio, AMC shall issue a press release immediately informing investors of the same.

#### Valuation and processing of subscriptions and redemptions

The valuation will take into account the credit event and the portfolio will be valued based on the principles of fair valuation (i.e. realizable value of the assets) in terms of the relevant provisions of SEBI (Mutual Funds) Regulations, 1996 and Circular(s) issued thereunder.

All subscription and redemption requests for which NAV of the day of credit event or subsequent day is applicable will be processed as per the existing circular on applicability of NAV. However, in case of segregated portfolio, applicability of NAV will be as under:

- Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.
- 2. Investors subscribing to the Scheme will be allotted units only in the main portfolio based on its NAV.

In case ABSLTPL does not approve the above valuation process, all subscription and redemption applications will be processed based on the NAV of total portfolio.

Further, adequate disclosure of the segregated portfolio will also appear in all scheme related documents, in monthly and half-yearly portfolio disclosures and in the annual report of the mutual fund and the Scheme. Further, the NAV of the segregated portfolio will be declared on daily basis.

The information regarding number of segregated portfolios created in a scheme shall appear prominently under the name of the scheme at all relevant places such as SID, KIM-cum-Application Form, advertisement, AMC and AMFI websites, etc. The scheme performance required to be disclosed at various places will include the impact of creation of segregated portfolio. The scheme performance will clearly reflect the fall in NAV to the extent of the portfolio segregated due to the credit event and the said fall in NAV along with recovery (ies), if any, will be disclosed as a footnote to the scheme performance. These disclosures regarding the segregated portfolio will be carried out for a period of atleast 3 years after the investments in segregated portfolio are fully recovered/ written-off.

The investors of the segregated portfolio will be duly informed of the recovery proceedings of the investments of the segregated portfolio and status update will be provided to the investors at the time of recovery and also at the time of writing-off of the segregated securities.

#### Total Expense Ratio ("TER") for the Segregated Portfolio

ABSLAMC will not charge investment and advisory fees on the segregated portfolio. However, TER (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio. The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence. The legal charges related to recovery of the investments of the segregated portfolio will be charged to the segregated portfolio in proportion to the amount of recovery. However, the same will be within the maximum TER limit as applicable to the main portfolio. The legal charges in excess of the TER limits, if any, will be borne by ABSLAMC. The costs related to segregated portfolio will in no case be charged to the main portfolio.

#### **Monitoring by Trustees**

In order to ensure timely recovery of investments of the segregated portfolio, Trustees will ensure that, the ABSLAMC puts in sincere efforts to recover the investments of the segregated portfolio. Upon recovery of money, whether partial or full, it will be immediately distributed to the investors in proportion to their holding in the segregated portfolio. Any recovery of amount of the security in the segregated portfolio even after the write off shall be distributed to the investors of the segregated portfolio. Further, an Action Taken Report (ATR) on the efforts made by the ABSLAMC to recover the investments of the segregated portfolio will be placed in every Trustee meeting till the investments are fully recovered/ written-off.

The Trustees will monitor the compliance of this circular and disclose in the half-yearly trustee reports filed with SEBI, the compliance in respect of every segregated portfolio created.

In order to avoid mis-use of segregated portfolio, trustees will ensure that there is a mechanism in place to negatively impact the performance incentives of Fund Managers, Chief Investment Officers (CIOs), etc. involved in the investment process of securities under the segregated portfolio, mirroring the existing mechanism for performance incentives of the AMC, including claw back of such amount to the segregated portfolio of the scheme.

Creation of segregated portfolio will be optional and at the discretion of ABSLAMC.
